

9 February 2018

Hon Barnaby Joyce MP  
Minister for Infrastructure and Transport  
House of Representatives  
PO Box 6022  
Parliament House  
Canberra ACT 2600

Dear Minister

At our Ordinary Council meeting on Monday 29 January 2018, the City of Greater Dandenong resolved to write to all local members of both State and Federal Parliament including the Ministers responsible for Aviation and for Planning, supporting the third international airport being situated in Melbourne's south east.

There is rapid growth occurring in population throughout the south east of Melbourne, particularly the large group of residents who were born overseas. It is deemed critical that the State and Federal Governments consider a third international airport for Melbourne's south east. *Plan Melbourne Refresh 2017- 2050*, is the State Government's "blueprint for a generation of action" sets out its vision for Melbourne. At Map 2 of the *Plan*, a possible airport is already identified in the south-east. Action No 49 of the *Plan* is to "Finalise a preferred site for a possible future airport beyond Koo Wee Rup, should demand warrant this beyond 2030. Preserve this future option by incorporating planning protection for flight paths and noise contours and the alignment for a connection to the rail line at Clyde."

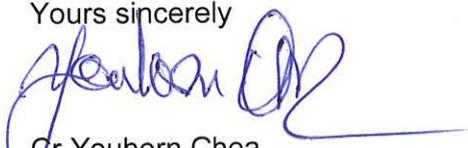

Access to Melbourne Airport from the east and south-east is already difficult and becoming increasingly more difficult, as suburbs extend further and road congestion increases. A third airport location in the south east of Melbourne would have the benefit of good road connections and would serve one-third of Victoria's population as their closest airport.

Future investment in a third airport located in Melbourne's south east corridor will also generate considerable economic, social and environmental benefits for Melbourne and Victoria.

Council requests consideration be given to delivering as a priority project delivering the infrastructure of a third airport which would have significant value for both Melbourne and Victoria.

Please contact Mr Jody Bosman (Director, City Planning Design & Amenity) on 8571 1530 or [jbosma@cgd.vic.gov.au](mailto:jbosma@cgd.vic.gov.au) if you have any questions regarding this matter.

Yours sincerely

Cr Youhorn Chea

9 February 2018

Sonya Kilkenny  
State Member for Carrum  
PO Box 4  
SEAFORD LPO 3198

Dear Sonya

At our Ordinary Council meeting on Monday 29 January 2018, the City of Greater Dandenong resolved to write to all local members of both State and Federal Parliament including the Ministers responsible for Aviation and for Planning, supporting the third international airport being situated in Melbourne's south east.

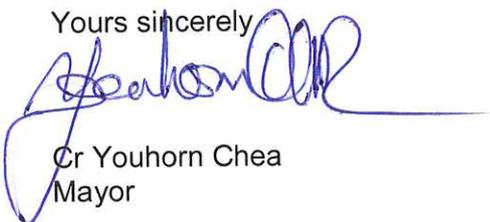

There is rapid growth occurring in population throughout the south east of Melbourne, particularly the large group of residents who were born overseas. It is deemed critical that the State and Federal Governments consider a third international airport for Melbourne's south east. *Plan Melbourne Refresh 2017- 2050*, is the State Government's "blueprint for a generation of action" sets out its vision for Melbourne. At Map 2 of the *Plan*, a possible airport is already identified in the south-east. Action No 49 of the *Plan* is to "Finalise a preferred site for a possible future airport beyond Koo Wee Rup, should demand warrant this beyond 2030. Preserve this future option by incorporating planning protection for flight paths and noise contours and the alignment for a connection to the rail line at Clyde."

Access to Melbourne Airport from the east and south-east is already difficult and becoming increasingly more difficult, as suburbs extend further and road congestion increases. A third airport location in the south east of Melbourne would have the benefit of good road connections and would serve one-third of Victoria's population as their closest airport.

Future investment in a third airport located in Melbourne's south east corridor will also generate considerable economic, social and environmental benefits for Melbourne and Victoria. Council requests consideration be given to delivering as a priority project delivering the infrastructure of a third airport which would have significant value for both Melbourne and Victoria.

Please contact Mr Jody Bosman (Director, City Planning Design & Amenity) on 8571 1530 or [jbosma@cgd.vic.gov.au](mailto:jbosma@cgd.vic.gov.au) if you have any questions regarding this matter.

Yours sincerely
