### 1 MEETING OPENING

### 1.1 ATTENDANCE

### **Apologies**

Nil.

### **Councillors Present**

Cr Angela Long (Chairperson)

Cr Tim Dark, Cr Lana Formoso, Cr Eden Foster, Cr Rhonda Garad, Cr Richard Lim, Cr Jim Memeti, Cr Bob Milkovic, Cr Sean O'Reilly, Cr Sophie Tan, Cr Loi Truong.

### **Officer Present**

John Bennie PSM, Chief Executive Officer, Mick Jaensch, Director Corporate Services, Jody Bosman, Director City Planning, Design and Amenity, Martin Fidler, Director Community Services, Paul Kearsley, Director Business, Engineering and Major Projects.

### 1.2 ACKNOWLEDGEMENT OF TRADITIONAL OWNERS OF THE LAND

Council acknowledges and pays respect to the past, present and future Traditional Custodians and Elders of this nation and the continuation of cultural, spiritual and educational practices of Aboriginal and Torres Strait Islander peoples.

### 1.3 OFFERING OF PRAYER

Cr Sean O'Reilly read the following prayer provided prior to the meeting by Imam Ismet Purdic Efendija from the Bosnian Herzegovinian Islamic Mosque, Noble Park, a member of the Greater Dandenong Interfaith Network:

"Our God, we thank You for life, health, knowledge and everything we have. Make us good and useful to ourselves and others, help us to do good, to protect it and to call others to good. O God, protect this city, country and people and bring peace, security, prosperity and what our hearts want and our eyes love to the Earth. Our God, do not punish us for sin, help us to get rid of sin, bad deeds, and save us from bad people and the evil that the future brings. God, you can do everything, and we are weak and powerless. God, accept our prayers and good deeds and let the sun of goodness and happiness always shine on us. Amen."

### 1.4 CONFIRMATION OF MINUTES OF PREVIOUS MEETING

Ordinary Meeting of Council held 8 February 2021.

### Recommendation

That the minutes of the Ordinary Meeting of Council held 8 February 2021 be confirmed.

### MINUTE 84

Moved by: Cr Rhonda Garad Seconded by: Cr Lana Formoso

That the minutes of the Ordinary Meeting of Council held 8 February 2021 be confirmed.

**CARRIED** 

### 1.5 DISCLOSURES OF INTEREST

Cr Jim Memeti disclosed a Direct Material Conflict of Interest of a Non-Pecuniary nature (s.128) in Item No. 4.3.3 Dandenong Market Pty Ltd - Director Roles, as he is the director of a company that has a stall at Dandenong Market. Cr Jim Memeti left the Chamber prior to discussion and voting on this item.

### 2 OFFICERS' REPORTS - PART ONE

### 2.1 DOCUMENTS FOR SEALING

### 2.1.1 Documents for Sealing

File Id: A2683601

Responsible Officer: Director Corporate Services

### **Report Summary**

Under the Victorian Local Government Act, each Council is a body corporate and a legal entity in its own right. Each Council must therefore have a common seal (like any corporate entity) that is an official sanction of that Council.

Sealing a document makes it an official document of Council as a corporate body. Documents that require sealing include agreements, contracts, leases or any other contractual or legally binding document that binds Council to another party.

### **Recommendation Summary**

This report recommends that the listed documents be signed and sealed.

#### 2.1.1 Documents for Sealing (Cont.)

### **Item Summary**

There are four [4] items being presented to Council's meeting of 22 February 2021 for signing and sealing as follows:

- 1. An Instrument of Appointment of Authorised Officer under the provisions of the Local Government Act 1989, the Local Government Act 2020, the Environment Protection Act 1970, the Infringements Act 2006, the Planning and Environment Act 1987, the Public Health and Wellbeing Act 2008, the Road Management Act2004, the Road Safety Act 1986, the Sex Work Act 1994, the Subdivisions Act 1988, the Summary Offences Act 1966, the Victorian Civil and Administrative Tribunal Act 1998 and the Regulations made under each of these Acts; the Local Laws made under the Local Government Act 1989; and any other Act, Regulation or delegated legislation (including the Greater Dandenong Planning Scheme) which relates to the powers of the Council made under the provisions and enactments described. This instrument enables the following Council officers to carry out the statutory responsibilities of the above Acts and is subject to policy and delegations previously adopted by Council:
  - Stewart Mala;
  - Robert Zubic;
- 2. A letter of recognition to James Hickmott, Corporate Services for 10 years of service to the City of Greater Dandenong;
- 3. A letter of recognition to Jason Williams, Corporate Services for 20 years of service to the City of Greater Dandenong; and
- A Transfer of lease between Greater Dandenong City Council and The Trading Friend Company Pty Ltd and HTJK Pty Ltd in relation to Retail Shop 6/225 Lonsdale Street, Dandenong.

#### Recommendation

That the listed documents be signed and sealed.

### **MINUTE 85**

Moved by: Cr Loi Truong Seconded by: Cr Tim Dark

That the listed documents be signed and sealed.

**CARRIED** 

### 2.2 DOCUMENTS FOR TABLING

### 2.2.1 Petitions and Joint Letters

File Id: qA228025

Responsible Officer: Director Corporate Services

Attachments: Petitions and Joint Letters

### **Report Summary**

Council receives a number of petitions and joint letters on a regular basis that deal with a variety of issues which have an impact upon the City.

Issues raised by petitions and joint letters will be investigated and reported back to Council if required.

A table containing all details relevant to current petitions and joint letters is provided in Attachment 1. It includes:

- 1. the full text of any petitions or joint letters received;
- 2. petitions or joint letters still being considered for Council response as pending a final response along with the date they were received; and
- 3. the final complete response to any outstanding petition or joint letter previously tabled along with the full text of the original petition or joint letter and the date it was responded to.

Note: On occasions, submissions are received that are addressed to Councillors which do not qualify as petitions or joint letters under Council's current Meeting Procedure Local Law. These are also tabled.

### **Petitions and Joint Letters Tabled**

Council received no new petitions and no joint letters prior to the Council Meeting of 22 February 2021.

N.B: Where relevant, a summary of the progress of ongoing change.org petitions and any other relevant petitions/joint letters/submissions will be provided in the attachment to this report.

### Recommendation

That the listed items detailed in Attachment 1 and the current status of each, be received and noted.

### **MINUTE 86**

Moved by: Cr Sophie Tan Seconded by: Cr Richard Lim

That the listed items detailed in Attachment 1 and the current status of each, be received and noted.

**CARRIED** 

### **DOCUMENTS FOR TABLING**

### **PETITIONS AND JOINT LETTERS**

Date Received	Petition Text (Prayer)	No. of Petitioner s	Status	Responsible Officer Response
28/01/21	Request to Remove Gum Trees from Keysborough Residential Areas/ replace with better trees	31 petitioner s as at	Completed	Tabled at Council meeting 8/02/21
	We, the Keysborough residents in Crystal Waters, College Green and other surrounding newly developed areas, have long been suffering from the chaos that makes to our gardens, nature strips, roads and potentially to the drainage system by the Gum Trees the council has planted on our parties in Kayabayanah posidonial and a property of the Council and property of the	10/02/21		29/01/21 Director Business, Engineering and Major Projects
	Induces surpositionage restrictions are seen we have the final jurigle as these trees drop leaves 365 days a year and peels off bark every 2-3 months that residents are left to clean up. This situation not only prevents us from keeping tidy and healthy gardens, but also creating more work for all the residents by having to clean up the nature strip and our			29/01/21 Sent acknowledgement letter to head petitioner.
	front yards on a daily basis. From a safety perspective, our young families have also been restricted from letting our children out in the garden without any fear of injuries, as these trees snap branches even for a mild wind.			10/02/21 Response to head petitioner
	Fallen leaves make a thick rubber like carpet that prevents water from seeping through thus the grass being killed in large areas around these trees and our front yards. On top of our busy schedules and all the other expenses, including quite high council rates, none of us residents have the required time or the money to clean up our front yards regularly due to the continuous mess our gardens and households are subjected to by the gum trees.			Thank you for your petition to Council requesting the removal gum trees from Keysborough residential areas / replace with better trees. Council acknowledges that some residents may be concerned with leaf litter, bark or other debris which are shed by trees. However, the immense
	Whilst we respect and appreciate that this is a native Australian tree, however, due to its nature, we strongly believe that gum trees are more suitable for non-residential areas, hence our humble request is that these trees are replaced with more suitable trees for us residents to maintain a pleasant and happily livable environment; to protect lives from potential accidents and to achieve a win/win outcome for the residents and the council.			benefits provided by trees are seen to outweigh these negative perceptions. Some of the benefits provided by such trees include providing shade and shelter, improving visual amenity to the landscape, increase property values and providing vital habitat for wildlife. Debris falling from trees is an inevitable factor in the management of the living landscape. Based upon these factors the trees do not meet Council's tree removal criteria and will be retained.

If the details of the attachment are unclear please contact Governance on 8571 1000.

Date Received	Petition Text (Prayer)	No. of Petitioner s	Status	Responsible Officer Response
14/09/20				The City of Greater Dandenong has a very low tree canopy cover of 9.9%. In accordance with our Urban Tree
				Strategy, Greening Our City, Council is striving to increase canopy cover to 15% by 2028. To achieve this goal it is
				imperative that trees of good condition which do not meet tree removal criteria are retained. When selecting suitable street tree snecies many factors are
				taken into consideration, including the trees suitability to the site, biological diversity, adaptability to future climate
				changes, poering to continue to the analoscape and the ability of the tree to survive in the urban environment.  Council maintains our street tree population through a two year cyclic
				pruning program in line with Australian Standards. These standards encourage practices and procedures that reduce the risk of tree defect development, branch failure and premature tree death. Our approach to maintaining street trees.
				ensures trees develop fewer hazardous defects and pose less risk to public safety.  If a particular street tree is of concern, please contact our Customer Service Team on 8571 1000. We would be happy to arrange an inspection and advise you of the outcome.

If the details of the attachment are unclear please contact Governance on 8571 1000.

Further information about the maintenance of our urban forest can be found on Councils website via the following link https://www.greaterdandenong.vic.gov.au/biodiversity-nature-and-wildlife/trees

### 2.3 STATUTORY PLANNING APPLICATIONS

### 2.3.1 Planning Decisions Issued by Planning Minister's Delegate - January 2021

File Id: qA280444

Responsible Officer: Director City Planning Design & Amenity

### **Report Summary**

This report provides Council with an update on the exercise of delegation by Planning Minister's delegate.

No decisions were reported for the month of January 2021.

### Recommendation

That the report be noted.

### **MINUTE 87**

Moved by: Cr Jim Memeti Seconded by: Cr Bob Milkovic

That the report be noted.

**CARRIED** 

### 2.3.2 Planning Delegated Decisions Issued - January 2021

File Id: qA280

Responsible Officer: Director City Planning Design & Amenity

Attachments: Planning Delegated Decisions Issued – January

2021

### **Report Summary**

This report provides Council with an update on the exercise of delegation by Council officers.

It provides a listing of Town Planning applications that were either decided or closed under delegation or withdrawn by applicants in January 2021.

It should be noted that where permits and notices of decision to grant permits have been issued, these applications have been assessed as being generally consistent with the Planning Scheme and Council's policies.

Application numbers with a PLA#, PLN#.01 or similar, are applications making amendments to previously approved planning permits.

The annotation 'SPEAR' (Streamlined Planning through Electronic Applications and Referrals) identifies where an application has been submitted electronically. SPEAR allows users to process planning permits and subdivision applications online.

### Recommendation

That the items be received and noted.

### MINUTE 88

Moved by: Cr Jim Memeti Seconded by: Cr Eden Foster

That the items be received and noted.

**CARRIED**

Responsible Officer: Director City Planning Design & Amenity

Attachments: Submitted plans

Location of objectors Clause 22 assessment Clause 52.06 assessment Clause 55 assessment

### **Application Summary**

Applicant: Bonacci Design

Proposal: Development of the land for five (5) dwellings (four double storey

dwellings and one single storey dwelling at the rear)

Zone: General Residential Zone Schedule 1

Overlay: Nil

Ward: Springvale North

The application proposes the development of five (5) dwellings consisting of four (4) double storey and one (1) single storey dwelling.

A permit is required pursuant to Clause 32.08-6 (GRZ1) of the Greater Dandenong Planning Scheme for the development of two or more dwellings on a lot.

### **Objectors Summary**

The application was advertised to the surrounding area through the erection of a notice on-site and the mailing of notices to adjoining and surrounding owners and occupiers. Seven (7) objections were received to the application. Issues raised generally relate to matters of:

- Parking
- Overlooking
- Termites
- Asbestos
- Location & collection of rubbish bins
- Interference with TV reception

- Impact on water pressure
- Development is too large for the shape/ size and street frontage of the lot.

### **Assessment Summary**

The subject site is well suited for medium density housing given the subject sites location within close proximity to the Noble Park Activity Centre, as well as public transport routes.

The development is considered to be respectful of the neighbourhood character by providing sufficient setbacks from the side and rear boundaries to allow for a reasonable level of landscaping to occur. The use of varying building materials and finishes to the external walls and staggered setbacks provides a level of articulation breaking up the visual appearance of built form when viewed from the streetscape and adjoining residential properties. In addition, the placement of the single storey dwelling at the rear of the site allows for a transitional building element from neighbouring garden areas to the built form.

### **Recommendation Summary**

As assessed, the proposal is consistent with and appropriately responds to the provisions of the Greater Dandenong Planning Scheme. The proposal appropriately responds to strategic policy for residential development with this report recommending that the application be supported, and a **Notice of Decision** (which provides appeal rights to objectors) to grant a permit be issued containing the conditions as set out in the recommendation.

### **Subject Site and Surrounds**

### Subject Site

The subject site is an irregular shaped allotment located on the southern side of Ellt Crescent in Noble Park. The lot has a northern V shaped frontage to Ellt Crescent of 21.82 metres and depth of approximately 53.21 metres.

- Total lot size: 1289sqm
- The site is currently developed with a single dwelling and associated outbuildings (proposed to be demolished)
- Access to the site is currently via one existing single crossover adjacent to the north-western side of the frontage
- The site is devoid of any significant vegetation
- A 1.83 metre wide easement runs along the rear boundary
- The site has an unusual front boundary arrangement, with the frontage being in a 'V' shape, and setback from the footpath (see aerial photo below). Between the front boundary and footpath is a Council owned area of land.

### **Surrounding Area**

- The directly adjoining and surrounding properties are residential (GRZ1).
- To the north-west, directly adjoining property, the site is developed with three single storey dwellings.
- To the south-east, directly adjoining property, the site is developed with a single storey dwelling.
- To the south-west (rear) directly adjoining property, the site is developed with a single storey dwelling.
- A more recent double storey multi-dwelling development has been completed at 7 Ellt Crescent which consists of two (2) double storey duplex (side by side) dwellings.
- Noble Park train station and activity centre is located approximately 1.23 kilometres to the south.
- To the north-east, approximately 600 metres from the site is the Princes Highway and industrial area.
- Sandown Racecourse is located to the west, approximately 330 metres away.

### Locality Plan

### **Background**

### **Previous Applications**

A search of Council records revealed no previous planning applications have been considered for the subject site.

### **Proposal**

The application proposes the development of five (5) dwellings consisting of four (4) double storey dwellings and one (1) single storey dwelling to the rear.

### Details as follows:

	No. of bedrooms	No. of storeys	Car Parking provided	Area of secluded private open space (SPOS)	Dimension of SPOS	Area of Private Open Space (POS)
Dwelling 1	4	2	Single garage & tandem space	31.47sqm	5.96m	115.80sqm

Dwelling 2	4	2	Single garage & tandem space	50sqm	5m	50.02sqm
Dwelling 3	4	2	Single garage & tandem space	63.66sqm	6.45m	63.66sqm
Dwelling 4	4	2	Double (tandem) garage	73.24sqm	5.05m	84.99sqm
Dwelling 5	2	1	Single garage	84.91sqm	5.93m	87.20sqm

Boundary setbacks for the dwellings are as follows with the only on-boundary development consisting of the garage wall to dwelling 1. First floors are further recessed.

Setbacks (min to max)	North/east (front)	South/east (side)	South/west (rear)	North/west (side)
Ground Floor setbacks	4m to 8.2m	1m to 10m	1.83m to 5.9m	1.79m to 6.54m
First Floor setbacks	4.65m	5.2m to 8.8m	5.1m	2.02m to 5.3m

Access to the site is proposed via the one (1) existing crossover and one (1) proposed crossover from Ellt Crescent. The north-western existing single crossover is to be used for dwelling 1, whilst a new crossover on the north-eastern corner of the site is proposed to be used for access to a shared driveway for the remaining dwellings.

The dwellings will be clad in brick to the ground floors and a mixture of render and cladding to the first floors with pitched tiled roofs.

The overall maximum building height for the double storey dwellings is 8.31 metres (dwelling 4) and 5.76 metres (dwelling 5) for the single storey dwelling to the rear.

A copy of the submitted plans is included as Attachment 1.

### Victorian Charter of Human Rights and Responsibilities

All matters relevant to the Victorian Human Rights Charter have been considered in the preparation of this report and are consistent with the standards set by the Charter.

### **Financial Implications**

No financial resources are impacted by this report.

### **Planning Scheme and Policy Frameworks**

Pursuant to the Greater Dandenong Planning Scheme, a planning permit is required:

Under Clause 32.08-6 (GRZ1) of the Greater Dandenong Planning Scheme for the development of two or more dwellings on a lot

The relevant controls and policies are as follows:

### **Zoning Controls**

The subject site is located in a General Residential Zone Schedule 1, as is the surrounding area.

The purpose of the General Residential Zone outlined at Clause 32.08 is:

- To implement the Municipal Planning Strategy and the Planning Policy Framework.
- To encourage development that respects the neighbourhood character of the area.
- To encourage a diversity of housing types and housing growth particularly in locations offering good access to services and transport.
- To allow educational, recreational, religious, community and a limited range of other non-residential uses to serve local community needs in appropriate locations.

Pursuant to Clause 32.08-6 (GRZ1), a permit is required development of two or more dwellings on a lot.

### **Overlay Controls**

No overlays affect the subject site or surrounding area.

### **State Planning Policy Framework**

The **Operation of the State Planning Policy Framework** outlined at Clause 10 seeks to ensure that the objectives of planning in Victoria are fostered through appropriate land use and development planning policies and practices which integrate relevant environmental, social and economic factors in the interests of net community benefit and sustainable development. The objectives of Planning in Victoria are noted as:

- (a) To provide for the fair, orderly, economic and sustainable use, and development of land.
- (b) To provide for the protection of natural and man-made resources and the maintenance of ecological processes and genetic diversity.
- (c) To secure a pleasant, efficient and safe working, living and recreational environment for all Victorians and visitors to Victoria.

- (d) To conserve and enhance those buildings, areas or other places which are of scientific, aesthetic, architectural or historical interest, or otherwise of special cultural value.
- (e) To protect public utilities and other facilities for the benefit of the community.
- (f) To facilitate development in accordance with the objectives set out in paragraphs (a), (b), (c), (d) and (e).
- (g) To balance the present and future interests of all Victorians.

In order to achieve those objectives, there are a number of more specific objectives contained within the State Planning Policy Framework that need to be considered under this application.

**Clause 11 Settlement** states that planning is to anticipate and respond to the needs of existing and future communities through provision of zoned and serviced land for housing, amongst others.

**Managing growth** is the focus of **Clause 11.02** which includes an objective that aims to ensure a sufficient supply of land is available for residential development, which is relevant to the current application.

Clause 15 Built environment and heritage seeks to ensure that planning achieves high quality urban design and architecture that meets a number of objectives. The following objectives are of relevance to the current application:

- To create urban environments that are safe, functional and provide good quality environments with a sense of place an cultural identity.
- To achieve architectural and urban design outcomes that contribute positively to local urban character and enhance the public realm while minimising detrimental impact on neighbouring properties.
- To encourage land use and development that is consistent with the efficient use of energy and the minimisation of greenhouse gas emissions.

#### Clause 16 Housing

**Clause 16 (Housing)** contains two key objectives, which can be summarised as relating to housing diversity, sustainability of housing and the provision of land for affordable housing.

These objectives are reinforced by a number of sub-clauses, including **Clause 16.01-1S** (**Housing Supply**), which seeks to facilitate well-located, integrated and diverse housing that meets community needs, and **Clause 16.01-2S** (**Housing affordability**) which seeks to deliver more affordable housing closer to jobs, transport and services.

Clause 16.01-1R (Housing supply – Metropolitan Melbourne), includes several strategies to manage the supply of new housing including increased housing in established areas to create a city of 20-minute neighbourhoods close to existing services, jobs, public transport; as well as a strategy that allows for a range of minimal, incremental and high change residential areas that balance the need to protect valued areas with the need to ensure choice and growth in housing.

There are a number of objectives of relevance to the current application under **Clause 18 Transport** including the following:

- To create a safe and sustainable transport system by integrating land-use and transport.
- To promote the use of sustainable personal transport.
- To integrate planning for cycling with land use and development planning and encourage as alternative modes of travel.

### **Local Planning Policy Framework**

The MSS is contained within Clause 21 of the Scheme. The MSS at **Clause 21.02** focuses on the **Municipal Profile**, within which the following is noted:

"Greater Dandenong's neighbours are the Cities of Casey to the east, Frankston to the south, Kingston to the west, and Monash and Knox to the north. Greater Dandenong is bounded by the Dandenong Creek, Princes Highway, South Gippsland Freeway, Westernport Highway to the east, Thompsons Road to the south, Mornington Peninsula Freeway, Springvale Road, Tootal Road, Heatherton Road and Westall Road to the west and Police Road to the north.

It is a city that has at its doorstep the magnificent Dandenong Ranges and large areas of flora and fauna. Greater Dandenong has extensive areas of open space and includes several areas of significant ecological value, wetlands and remnant woodlands and grassland communities. The creeks and waterways that traverse the city, together with its many areas of historical, aboriginal and vegetative significance, afford the city a composition of diverse environments."

A **Vision for Greater Dandenong** is outlined at **Clause 21.03**. Of which the following is of relevance to the proposed development; "A city renowned for its inclusiveness and admired for its cosmopolitan and multicultural lifestyle; a city where a range of arts activities are promoted and different cultures are celebrated as much as tradition and history are celebrated".

The objectives and strategies of the MSS are under four (4) main themes including: land use; built form; open space and natural environment; and, infrastructure and transportation (considered individually under Clauses 21.04 to 21.07). Of particular relevance to this application are Clause 21.04 Land use; Clause 21.05 Built Form and Clause 21.07 Infrastructure and Transportation

- Clause 21.04 Land Use is relevant particularly Clause 21.04-1 Housing and Community which states "Social Issues Appropriate and affordable housing that suits diverse needs is critical to maintaining a healthy and balanced socio-economic society". The following objective is also of relevance: "To encourage and facilitate a wide range of housing types and styles which increase diversity and cater for the changing needs of households."
- Clause 21.05 Built Form is relevant to the proposal, in particular Clause 21.05-1 Urban design, character, streetscapes and landscapes of which the following objectives are relevant; 1 "To facilitate high quality building design and architecture; 2. To facilitate high quality development, which has regard for the surrounding environment and built form; 6. To ensure that design of the public and private environment supports accessibility and healthy living; 7. To protect and improve streetscapes; and 8. To ensure landscaping that enhances the built environment"

■ Clause 21.07 Infrastructure and Transportation, Clause 21.07-1 Physical, Community and Cultural Infrastructure is of relevance to the proposal in particular Objective 2. Which seeks "To manage the impact of discharge of stormwater to minimise pollution and flooding". Clause 21.07-2 Public transport is of relevance with objective 1 seeking "To increase the use of public transport" along with Clause 21.07-3 Walking and cycling, the objective of which is "To promote and facilitate walking and cycling". Clause 21.07-4 Cars and Parking needs to be considered with objectives 1 "To promote significant modal shift away from the car" and 2 "To protect residential and other sensitive uses from adverse impacts of vehicular traffic" of relevance to the proposal.

Clause 22.09 – Residential Development and Neighbourhood character is relevant to the proposal which "provides guidance to manage the evolution of residential neighbourhood character throughout Greater Dandenong into the future. It responds to state and metropolitan planning policy regarding urban form and housing, while respecting valued characteristics of residential neighbourhoods. Based on the City of Greater Dandenong Neighbourhood Character Study (September 2007), the Municipal Strategic Statement divides the residential areas of Greater Dandenong into three 'Future Change Areas': Substantial, Incremental and Limited. This policy identifies the rationale, existing character, identified future character and design principles for each of these areas. The design principles in this policy provide guidance to achieve high quality design and amenity outcomes for all new residential development".

### **Particular Provisions**

**Clause 52.06 Car Parking** needs to be considered under the current application. The purposes of this provision are:

- To ensure that car parking is provided in accordance with the State Planning Policy Framework and Local Planning Policy Framework.
- To ensure the provision of an appropriate number of car parking spaces having regard to the demand likely to be generated, the activities on the land and the nature of the locality.
- To support sustainable transport alternatives to the motor car.
- To promote the efficient use of car parking spaces through the consolidation of car parking facilities.
- To ensure that car parking does not adversely affect the amenity of the locality.
- To ensure that the design and location of car parking is of a high standard, creates a safe environment for users and enables easy and efficient use.

The table at Clause 52.06-5 sets out the car parking requirement that applies to the use of land as follows:

Use	Rate
Dwelling	One (1) car parking space to each one (1) or two (2) bedroom dwelling
	Two (2) car parking spaces to each three (3) or more bedroom dwelling

One (1) space for visitor parking to every 5 dwellings for developments of 5 or more dwellings
--

The proposal meets the required car parking rate with no wavier sought.

An application must meet the Design standards for car parking included at Clause 52.06-8.

An assessment against this clause is included as Attachment 4.

Clause 55 Two or more dwellings on a lot and residential buildings also needs to be considered under the current application. The purposes of this provision are:

- To implement the Municipal Planning Strategy and the Planning Policy Framework.
- To achieve residential development that respects the existing neighbourhood character or which contributes to a preferred neighbourhood character.
- To encourage residential development that provides reasonable standards of amenity for existing and new residents.
- To encourage residential development that is responsive to the site and the neighbourhood

An assessment against Clause 55 is included as Attachment 5.

### **General Provisions**

Clause 65 – Decision Guidelines needs to be considered, as is the case with all applications. For this application the requirements of Clause 65.01 for the approval of an application or plan is of relevance. This Clause outlines the requirements that the responsible authority must consider when determining the application.

### **Proposed Planning Scheme Amendments**

Nil

#### **Restrictive Covenants**

The subject site is encumbered by the following restrictive covenant as registered on the Certificate of Title:

### Covenant 2027803

The covenant prevents the removal of any earth, stone, clay, gravel or sand from the land except for the purpose of excavating for the foundations of any building on the land and the manufacturing or winning of bricks, tiles or pottery on the land.

The proposed development has been assessed against the covenant and will not contravene any of the above mentioned requirements.

### Council Plan 2017-2021 – Strategic Objectives, Strategies and Plans

The Council Plan describes the kind of future the Council is working for, and how Council will do this over four years. In accordance with the commitment in Council's Annual Plan, all applications are considered on their merits.

### **Diversity (Access & Equity)**

It is not considered that the proposal raises any diversity issues affecting the planning assessment of this application.

### **Community Safety**

It is considered that there would be no adverse community safety implications in permitting the proposal subject to strict conditions on any planning permit issued.

### Safe Design Guidelines

Consideration of the relevant requirements of these Guidelines has been undertaken within the Assessment of this application.

#### Referrals

The application was not required to be referred to any external referral authorities pursuant to Section 55 of the Planning and Environment Act 1987.

#### Internal

The application was internally referred to Council's below departments for their consideration. The comments provided will be considered in the assessment of the application.

Internal Referrals	
Asset	No objections, subject to conditions on permit
Civil	No objections, subject to conditions on permit
Transport	No objections, subject to conditions on permit
Property Services	Was referred due to front boundary arrangement. An assessment has been conducted against the current title boundaries and the proposal is considered satisfactory.
Sustainability Planning (ESD)	No objections, subject to conditions on permit

### **Advertising**

The application has been advertised pursuant to Section 52 of the Planning and Environment Act 1987, by:

- Sending notices to the owners and occupiers of adjoining land.
- Placing a sign on site facing Ellt Crescent.

The notification has been carried out correctly.

Council has received seven (7) objection's to date.

The location of the objectors / submitters is shown in Attachment 2.

#### Consultation

A consultative meeting was not held due to Covid-19 restrictions.

### **Summary of Grounds of Submissions/Objections**

The objections are summarised below (**bold**), followed by the Town Planner's Response (in *italics*).

### Parking

The development provides for appropriate on-site car parking in relation to the number of bedrooms within the proposed dwellings, with no variation required to the rate set out in the Planning Scheme.

Any increased traffic movement associated with the proposed development is considered reasonable and can be readily accommodated within the surrounding street network.

Furthermore, the proposal was referred to Council's Traffic Engineers who raised no concern with respect to on-street parking, traffic from the proposed development, congestion or the like.

### Overlooking

All first floor habitable (bedroom) windows are provided with fixed obscure screening to prevent overlooking into neighbouring properties in compliance with Clause 55.oking into neighbouring properties in compliance with Clause 55.

The test for overlooking is set by Standard B22 to Clause 55-.04-6 Overlooking objective. At ground floor, the minimum 1.9 metre high boundary fences with 0.5 metre lattice would prevent direct overlooking within the 9 metre distance.

It is noted, that a number of first floor habitable room windows have not been screened, however, they comply with Standard B22. The following is an assessment of these first floor habitable room windows:

South East Elevation

#### Dwelling 2

Bed 1 – No screening required as the window does not have a direct view into adjoining SPOS or an existing habitable room window within 9 metres. On this boundary the site adjoins a driveway.

#### Dwelling 3

Bed 1 – No screening required as the window does not have a direct view into adjoining SPOS or an existing habitable room window within 9 metres. On this boundary the site adjoins a driveway.

#### Dwelling 4

Bed 3 – No screening required as the windows are setback 12.5 metres from the title boundary

Bed 1 – Screening has been provided with obscure glazing to 1.7 metres above finish floor level

North West Elevation

#### Dwelling 1

No habitable room windows oriented to this interface

#### Dwelling 2

Bed 3 – No screening required as the window does not have a direct view into adjoining SPOS or an existing habitable room window within 9 metres. On this boundary the site adjoins a driveway.

#### Dwelling 3

Bed 3 – No screening required as the window does not have a direct view into adjoining SPOS or an existing habitable room window within 9 metres. On this boundary the site adjoins a driveway and garage.

#### Dwelling 4

Bed 2 – Screening has been provided with obscure glazing to 1.7 metres above finish floor level

#### Termites

Concerns in relation to termites are not a Statutory Planning issue.

#### Asbestos

Concerns in relation to Asbestos are not a Statutory Planning issue.

#### Location & collection of rubbish bins

It is considered that there is sufficient area within the existing nature strip located at the front of the site for future residents of the development to place bins at collection times.

#### • Interference with TV reception

Concerns in relation to the TV reception are not a Statutory Planning issue.

#### Impact on water pressure

The subject site is well suited for a medium density development as proposed with existing infrastructure able to cope with the proposed number of dwellings.

#### Development is too large for the shape/ size and street frontage of the lot

It is considered that the proposed development has appropriately responded to the existing site constraints and neighbourhood character through use of appropriate boundary setbacks, building height and proposed external colours and materials which are reflective of other existing residential dwellings within the immediate area.

The placement of the single storey dwelling to the rear allows for a suitable transition to the open garden areas on adjoining properties.

#### **Assessment**

#### **Development**

#### Planning Policy Framework / Local Planning Policy Framework

In considering the Planning Policy Framework and the Local Planning Policy Framework, Council can establish that an acceptable proposal will be guided by:

- Clause 55 Two or more dwellings on a lot; and
- Clause 22.09 Residential Development and Neighbourhood Character.

Each of these Clauses ensure that Council facilitates the orderly development of urban areas, which is a specific objective of Clause 11.02 Settlement.

The objectives of Clause 15.01-1S Urban Design, Clause 15.01-2S Building Design and Clause 21.05-1 Built Form outline the key considerations in which a development must respond to urban design, character, streetscapes and landscape issues.

It is considered that the proposed design response respects the preferred neighbourhood character of the incremental change area by providing a medium density housing typology.

The design of the dwellings is considered to be in keeping with the neighbourhood character by way of first floor setbacks, separation between dwellings, and capacity for substantial landscaping and canopy tree planting throughout the site.

The proposal is located within an area subject to incremental change. The proposal's compliance with Clause 22.09 and Clause 55 (subject to conditions) ensures that the development would achieve the objectives set out in Clause 15.01 and Clause 21.05-1.

As such, Council officers recommend that the application be approved subject to planning permit conditions as necessary.

#### Clause 22.09 Assessment

The identified future character for the site is set out in Clause 22.09. The subject site is within the Incremental Change Area. The policy at Clause 22.09-3 seeks well designed and site responsive medium density development that respects the existing neighbourhood character and provides appropriate setbacks, private open space areas and high quality landscaping, to protect the amenity of adjoining dwellings.

The proposed development of five (5) dwellings comprising four (4) double storey and one (1) single storey is considered to be consistent with the planning controls affecting the subject site and is appropriate to allow. The subject site is strategically located within close proximity to the Noble Park Activity Centre and public transport (Noble Park train station and public bus system), making it the ideal location for medium density residential development.

Whilst the existing streetscape is one of single storey dwellings, there is a slow emergence of other more recent double storey multi-dwelling development within the street and surrounding area as existing properties containing older style dwellings are being re-developed. The proposal has appropriately responded to the neighbourhood character in terms of building height through the use of pitched tiled roof forms which are consistent with other existing dwellings both new and old within the street and the surrounding area. Furthermore, the placement of the single storey dwelling to the rear allows a suitable transition to the neighbouring open space/ garden area on the adjacent residential properties.

The dwellings are considered to be of a contemporary design with a mixture of external wall materials and finishes which is in keeping with the context of the established streetscape character.

The front setback and use of the existing crossover and one additional crossover, allows for a reasonable level of landscaping to be achieved at the front of the site, including the planting of canopy trees, which will make a positive contribution to the streetscape and contribute to the landscape character.

Staggered setbacks to the boundaries and varied external colours and materials also assist in breaking up the visual bulk of the dwellings.

Whilst the proposed development is considered to be one of the more intense residential developments within the immediate area, there is a slow emergence of medium density residential development occurring within the street. The development is considered to contribute to an improved urban character, whilst still being respectful of the existing surrounding residential interfaces providing an appropriate scaled transition between the proposed development and smaller scale single storey residential dwellings.

All dwellings are provided with ground floor private open space areas directly accessed from the main living areas. Sufficient solar access is provided to the dwellings with main living areas predominantly located on the northern side of the site which allows for a reasonable amount of natural light into the dwellings.

A full Clause 22.09 Assessment is attached to this report at Attachment 3.

#### **Clause 55 Assessment**

A Clause 55 Assessment is attached to this report at Attachment 5. The proposal meets all of the objectives of Clause 55. Standards that warrant further consideration are discussed as follows:

#### Clause 55.03-1 Street setback objective – Standard B6

Schedule 1 to Clause 32.08 General Residential Zone varies the requirements of Standard B6 to provide an average front setback of the adjoining dwellings or 7.5 metres, whichever is the lesser. In this instance, 7.5 metres is the minimum setback required. At ground floor, the proposal is setback 4 metres from the title boundary and at first floor the proposal is setback 4.65 metres from the title boundary. However, the front title boundary is an unusual arrangement in this instance, with an additional piece of land owned by Council located between the front title boundary and footpath. The total front setback from the dwelling to the footpath is 8.2m. When viewed from the surrounding area, it would be assumed that this separate piece of land is within the title, and that the setback is actually 8.2m, which is in excess of the required 7.5m.

This 8.2m setback to the footpath is generally consistent with the setback of other dwellings adjoining and in the surrounding area, and is considered to be in keeping with the existing and preferred character for the area.

The plan below shows the title boundary arrangements, with the dark green area being the Council owned land, and the light green being the subject site.

As such, a variation is considered appropriate in this instance due to these unique title boundary conditions.

#### **Car Parking**

Car parking for the proposal has been provided in the form of garages and tandem car spaces. The parking areas are located adjacent to each of the dwellings, well screened from the street.

Access to the site will be via both the existing crossover and the proposed crossover.

The application has been assessed against the design standards of Clause 52.06-8 as per the table attached to this report and is considered to comply with all of the design standards.

Pursuant to Clause 52.06-5 the following car parking rates are applicable to the dwellings:

Use	Rate	Proposal	Parking requirement	Proposed parking
1 or 2 bedroom dwellings	1 space per dwelling	1 dwelling	1	1
3 or more bedroom dwellings	2 spaces per dwelling	4 dwellings	8	8

Visitors to dwellings	1 to development of	5 dwellings	1	1
	5 or more dwellings			

The proposal provides the minimum required number of car parking spaces within the subject site of 10.

#### **Vegetation & Tree Impact (Landscaping)**

The subject site and surrounding area is devoid of any significant vegetation.

The proposed development provides a reasonable level of landscaping throughout the site to the front, side and rear boundaries and along the shared driveway. The front and rear of the site is sufficient in area to allow for the planting of canopy trees.

#### **Environmentally Sustainable Development**

The proposed development has been appropriately designed in response to the existing site constrains with northern orientated habitable room windows and large open space areas for landscaping.

Urban Ecology		
	38%	20% of the site is permeable, allowing for landscaping
Innovation		
	0%	N/A

#### Conclusion

The proposed development of five (5) dwellings comprising four (4) double storey and one (1) single storey dwelling and associated works is considered appropriate and has a strong design response in terms of visual bulk, height, setbacks, private open space, car parking and landscaping with minimum amenity impacts on the adjoining residential properties and surrounding area.

The application has been assessed against the relevant sections of the Greater Dandenong Planning Scheme, including the Planning Policy Framework, Local Policies, and Municipal Strategic Statement as set out in this assessment. It is considered that the application complies with these policies and it is therefore recommended that the proposal is approved.

#### .

#### Recommendation

That Council resolves to issue a Notice of Decision to grant a permit in respect of the land known and described as 10 Ellt Crescent, Noble Park, for the purpose of the development of five (5) dwellings comprising four (4) double storey and one (1) single storey dwelling in accordance with the plans submitted with the application subject to the following conditions:

- 1. Prior to the endorsement of plans, amended plans drawn to scale and dimensioned, must be submitted to the Responsible Authority for approval. No buildings or works must be commenced until the plans have been approved and endorsed by the Responsible Authority. The endorsed copy of the plans forms part of this permit. The plans must be in accordance with the plans submitted with the application, but modified to show:
  - 1.1. sensor lighting above each garage;
  - 1.2. landscape plans in accordance with Condition 2; and
  - 1.3. the location of the one visitor bicycle parking space to be provided.

When approved, these plans will be endorsed and will form part of this permit.

- 2. Before the approved development starts, and before any trees or vegetation are removed, a landscape plan to the satisfaction of the Responsible Authority must be submitted to and approved by the Responsible Authority. The landscape plan must be prepared by a person or firm with suitable qualifications to the satisfaction of the Responsible Authority, drawn to scale with dimensions and 3 copies must be provided. The landscape plan must show:
  - 2.1. plans to accord with Condition 1 of this permit;
  - 2.2. the site at a scale of 1:100/200, including site boundaries, existing and proposed buildings, neighbouring buildings, car parking, access and exit points, indicative topography and spot levels at the site corners, existing and proposed vegetation, nature strip trees, easements and landscape setbacks;
  - 2.3. details of the proposed layout, type and height of fencing;

- 2.4. legend of all plant types, surfaces, materials and landscape items to be used including the total areas of garden and lawn
- 2.5. a plant schedule giving a description of botanical name, common name, mature height and spread, pot size, purchase height (if a tree) and individual plant quantities
- 2.6. at least one (1) advanced canopy tree with a minimum planting height of 1.5 metres within the rear secluded open space areas of each dwelling and within the front yard;
- 2.7. any paving or deck areas within the secluded open space area of the proposed dwelling on a permeable base;

When approved, the amended landscape plan will be endorsed and will form part of this permit.

The provisions, recommendations and requirements of the landscape plan must be implemented and complied with to the satisfaction of the Responsible Authority.

Landscaping in accordance with the endorsed landscaping plan and schedule must be completed before the building is occupied.

- 3. Except with the prior written consent of the Responsible Authority, the layout of the land and the size, design and location of the buildings and works permitted must always accord with the endorsed plan and must not be altered or modified
- 4. Except with the prior written consent of the Responsible Authority, the approved building must not be occupied until all buildings and works and the conditions of this permit have been complied with.
- 5. Prior to endorsement of plans, the applicant must submit a revised Sustainable Design Assessment (SDA) to the satisfaction of the Responsible Authority. The revised SDA must be in accordance with the sustainable design initiatives and recommendations included in the SDA (prepared by Frater Consulting, dated 30 September 2020) but modified to include:
  - Submission of the preliminary energy rating assessments undertaken for the development that demonstrate an achievement to a minimum of 6 Stars
  - Revised BESS assessment demonstrating the following changes:
  - 1. Unit 1 Area corrected in accordance with plans (171.5 sqm)
  - 2. Remove claim of credit IEQ 2.2 Cross Flow Ventilation. Single aspect cross ventilation is not sufficient to claim this credit.
  - 3. Revise credit Transport 1.2 Bicycle Parking Residential Visitor to '1' as per SDA

6. The development is to be constructed in accordance with the design initiatives specified in the approved Sustainable Design Assessment (SDA) (prepared by Frater, dated 30/09/2020) to the satisfaction of the responsible authority.

The provisions, recommendations and requirements of the endorsed SDA must be implemented and complied with to the satisfaction of the Responsible Authority. The documentation must not be altered without the prior written consent of the Responsible Authority.

- 7. Provision must be made for the drainage of the site including landscaped and pavement areas, all to the satisfaction of the Responsible Authority.
- 8. Stormwater discharge is to be retained on site to the pre-development level of peak stormwater discharge, to the satisfaction of the Responsible Authority.
- 9. Before the approved building is occupied, all piping and ducting above the ground floor storey of the building, except downpipes, must be concealed to the satisfaction of the Responsible Authority.
- 10. Standard concrete vehicular crossing/s must be constructed to suit the proposed driveway/s in accordance with the Council's standard specifications. Any vehicle crossing no longer required must be removed and the land, footpath and kerb and channel reinstated, to the satisfaction of the Responsible Authority.
- 11. Except with the prior written consent of the Responsible Authority, floor levels shown on the endorsed plan/s must not be altered or modified.
- 12. Before the approved building is occupied, the development must be provided with external lighting capable of illuminating access to each garage, car parking space and pedestrian walkway. Lighting must be located, directed and shielded to the satisfaction of the Responsible Authority so as to prevent any adverse effect outside the land.
- 13. Before the approved building is occupied, the obscure glazing to the windows shown on the endorsed plans must be provided through frosted glass or similarly treated glass. Adhesive film or similar removable material must not be used.
  - All glazing must at all times be maintained to the satisfaction of the Responsible Authority.
- 14. Before the approved building is occupied, the privacy screens and other measures to prevent overlooking as shown on the endorsed plans must be installed to the satisfaction of the Responsible Authority.

All privacy screens and other measures to prevent overlooking as shown on the endorsed plans must at all times be maintained to the satisfaction of the Responsible Authority.

- 15. Before the approved building is occupied, all boundary walls in the development must be constructed, cleaned and finished to the satisfaction of the Responsible Authority.
- 16. This permit will expire if:
  - 16.1. The development or any stage of it does not start within two (2) years of the date of this permit, or
  - 16.2. The development or any stage of it is not completed within four (4) years of the date of this permit.

Before the permit expires or within six (6) months afterwards the owner or occupier of the land may in writing request the Responsible Authority to extend the expiry date.

The owner or occupier of the land may in writing request the Responsible Authority to extend the expiry date to complete the development or a stage of the development if:

- (a) the request for the extension is made within twelve (12) months after the permit expires; and
- (b) the development or stage started lawfully before the permit expired.

#### **Permit Notes**

A Building Approval is required prior to the commencement of the approved development. This planning permit does not constitute any building approval.

Approval of any retention system within the property boundary is required by the relevant building surveyor.

Before commencement of the development occurs, the applicant should contact the City of Greater Dandenong's Civil Development and Design Unit regarding legal point of discharge, new crossings, building over easements, etc.

As this is an established site, the proposed internal drainage should be connected to the existing legal point of discharge. The applicant may apply for local drainage information, if available; otherwise on site verification should be undertaken by the applicant.

A Vehicle Crossing Permit must be obtained from Council for all vehicular crossings prior to construction of the crossings. You may be required to apply for a Asset Protection Permit from Council's engineering services. Queries regarding engineering requirements can be directed to Council's general phone number on 8571 1000.

#### **MINUTE 89**

Moved by: Cr Sean O'Reilly Seconded by: Cr Rhonda Garad

That Council resolves to issue a Notice of Decision to grant a permit in respect of the land known and described as 10 Ellt Crescent, Noble Park, for the purpose of the development of five (5) dwellings comprising four (4) double storey and one (1) single storey dwelling in accordance with the plans submitted with the application subject to the following conditions:

- 1. Prior to the endorsement of plans, amended plans drawn to scale and dimensioned, must be submitted to the Responsible Authority for approval. No buildings or works must be commenced until the plans have been approved and endorsed by the Responsible Authority. The endorsed copy of the plans forms part of this permit. The plans must be in accordance with the plans submitted with the application, but modified to show:
  - 1.1. sensor lighting above each garage;
  - 1.2. landscape plans in accordance with Condition 2; and
  - 1.3. the location of the one visitor bicycle parking space to be provided; and
  - 1.4. any changes required by the approved Waste Management Plan in accordance with Condition 3.

When approved, these plans will be endorsed and will form part of this permit.

- 2. Before the approved development starts, and before any trees or vegetation are removed, a landscape plan to the satisfaction of the Responsible Authority must be submitted to and approved by the Responsible Authority. The landscape plan must be prepared by a person or firm with suitable qualifications to the satisfaction of the Responsible Authority, drawn to scale with dimensions and 3 copies must be provided. The landscape plan must show:
  - 2.1. plans to accord with Condition 1 of this permit;

- 2.2. the site at a scale of 1:100/200, including site boundaries, existing and proposed buildings, neighbouring buildings, car parking, access and exit points, indicative topography and spot levels at the site corners, existing and proposed vegetation, nature strip trees, easements and landscape setbacks;
- 2.3. details of the proposed layout, type and height of fencing;
- 2.4. legend of all plant types, surfaces, materials and landscape items to be used including the total areas of garden and lawn
- 2.5. a plant schedule giving a description of botanical name, common name, mature height and spread, pot size, purchase height (if a tree) and individual plant quantities
- 2.6. at least one (1) advanced canopy tree with a minimum planting height of 1.5 metres within the rear secluded open space areas of each dwelling and within the front yard;
- 2.7. any paving or deck areas within the secluded open space area of the proposed dwelling on a permeable base;

When approved, the amended landscape plan will be endorsed and will form part of this permit.

The provisions, recommendations and requirements of the landscape plan must be implemented and complied with to the satisfaction of the Responsible Authority.

Landscaping in accordance with the endorsed landscaping plan and schedule must be completed before the building is occupied.

- 3. Prior to the endorsement of plans under Condition 1, a Waste Management Plan must be prepared and submitted to the Responsible Authority for approval. When approved the report will be endorsed and will then form part of the permit. The report must address and provide for the following:
  - 3.1. the amount of waste to be generated by the approved development;
  - 3.2. a shared bin service, with bin numbers to support the volumes identified in 3.1, and having regard to the available space for collection at the front of the site (allowing for street furniture, poles, signs and street trees and replacement trees);
  - 3.3. an appropriate and accessible on-site storage location for the determined number of bins;
  - 3.4. details of who will be responsible for placing and removing bins to the collection points on collection day.

All to the satisfaction of the Responsible Authority.

- 4. Except with the prior written consent of the Responsible Authority, the layout of the land and the size, design and location of the buildings and works permitted must always accord with the endorsed plan and must not be altered or modified
- 5. Except with the prior written consent of the Responsible Authority, the approved building must not be occupied until all buildings and works and the conditions of this permit have been complied with.
- 6. Prior to endorsement of plans, the applicant must submit a revised Sustainable Design Assessment (SDA) to the satisfaction of the Responsible Authority. The revised SDA must be in accordance with the sustainable design initiatives and recommendations included in the SDA (prepared by Frater Consulting, dated 30 September 2020) but modified to include:
  - Submission of the preliminary energy rating assessments undertaken for the development that demonstrate an achievement to a minimum of 6 Stars
  - Revised BESS assessment demonstrating the following changes:
  - 1. Unit 1 Area corrected in accordance with plans (171.5 sqm)
  - 2. Remove claim of credit IEQ 2.2 Cross Flow Ventilation. Single aspect cross ventilation is not sufficient to claim this credit.
  - 3. Revise credit Transport 1.2 Bicycle Parking Residential Visitor to '1' as per SDA
- 7. The development is to be constructed in accordance with the design initiatives specified in the approved Sustainable Design Assessment (SDA) (prepared by Frater, dated 30/09/2020) to the satisfaction of the responsible authority.

The provisions, recommendations and requirements of the endorsed SDA must be implemented and complied with to the satisfaction of the Responsible Authority. The documentation must not be altered without the prior written consent of the Responsible Authority.

- 8. Provision must be made for the drainage of the site including landscaped and pavement areas, all to the satisfaction of the Responsible Authority.
- 9. Stormwater discharge is to be retained on site to the pre-development level of peak stormwater discharge, to the satisfaction of the Responsible Authority.
- 10. Before the approved building is occupied, all piping and ducting above the ground floor storey of the building, except downpipes, must be concealed to the satisfaction of the Responsible Authority.

- 11. Standard concrete vehicular crossing/s must be constructed to suit the proposed driveway/s in accordance with the Council's standard specifications. Any vehicle crossing no longer required must be removed and the land, footpath and kerb and channel reinstated, to the satisfaction of the Responsible Authority.
- 12. Except with the prior written consent of the Responsible Authority, floor levels shown on the endorsed plan/s must not be altered or modified.
- 13. Before the approved building is occupied, the development must be provided with external lighting capable of illuminating access to each garage, car parking space and pedestrian walkway. Lighting must be located, directed and shielded to the satisfaction of the Responsible Authority so as to prevent any adverse effect outside the land.
- 14. Before the approved building is occupied, the obscure glazing to the windows shown on the endorsed plans must be provided through frosted glass or similarly treated glass. Adhesive film or similar removable material must not be used.
  - All glazing must at all times be maintained to the satisfaction of the Responsible Authority.
- 15. Before the approved building is occupied, the privacy screens and other measures to prevent overlooking as shown on the endorsed plans must be installed to the satisfaction of the Responsible Authority.
  - All privacy screens and other measures to prevent overlooking as shown on the endorsed plans must at all times be maintained to the satisfaction of the Responsible Authority.
- 16. Before the approved building is occupied, all boundary walls in the development must be constructed, cleaned and finished to the satisfaction of the Responsible Authority.
- 17. This permit will expire if:
  - 17.1. The development or any stage of it does not start within two (2) years of the date of this permit, or
  - 17.2. The development or any stage of it is not completed within four (4) years of the date of this permit.

Before the permit expires or within six (6) months afterwards the owner or occupier of the land may in writing request the Responsible Authority to extend the expiry date.

The owner or occupier of the land may in writing request the Responsible Authority to extend the expiry date to complete the development or a stage of the development if:

- (a) the request for the extension is made within twelve (12) months after the permit expires; and
- (b) the development or stage started lawfully before the permit expired.

#### **Permit Notes**

A Building Approval is required prior to the commencement of the approved development. This planning permit does not constitute any building approval.

Approval of any retention system within the property boundary is required by the relevant building surveyor.

Before commencement of the development occurs, the applicant should contact the City of Greater Dandenong's Civil Development and Design Unit regarding legal point of discharge, new crossings, building over easements, etc.

As this is an established site, the proposed internal drainage should be connected to the existing legal point of discharge. The applicant may apply for local drainage information, if available; otherwise on site verification should be undertaken by the applicant.

A Vehicle Crossing Permit must be obtained from Council for all vehicular crossings prior to construction of the crossings. You may be required to apply for a Asset Protection Permit from Council's engineering services. Queries regarding engineering requirements can be directed to Council's general phone number on 8571 1000.

Clause 22.09-3.1 Design Principles for all residential developments

Assessment Table for Clause 22

Title /Objective	Principles	Principle met/Principle not met/NA
Safety	To encourage the provision of safer residential neighbourhoods, new development should enable passive surveillance through designs that:	
	Incorporate active frontages including ground floor habitable room windows.	✓ Principle met
		Each dwelling is provided with active frontages
	Maximise the number of habitable room windows on all levels of residential buildings that overlook the	✓ Principle met
	public realm, streets, laneways, internal access ways and car parking areas.	The proposed dwellings front the street and shared driveway
	Use semi-transparent fences to the street frontage.	✓ Principle met
		No front fence is proposed.
	Light communal spaces including main entrances and car parking areas with high mounted sensor-	Conditional compliance
	ights.	Security lighting can be requested via permit conditions adjacent to garages/ entrances.
	Ensure that all main entrances are visible and easily identifiable from the street.	✓ Principle met
		Entrances face the street/ driveway. Each dwelling is clearly distinguishable
	Locate non-habitable rooms such as bathrooms, away from entrances and street frontage.	✓ Principle met
		Ground floor bathrooms are at the rear of the dwellings.
Landscaping	Residential development should:	
	Provide substantial, high quality on-site landscaping, including screen planting and canopy trees along ground level front and side and rear boundaries.	Conditional Compliance A landscape plan can be addressed as a permit 1 condition

If the details of the attachment are unclear please contact Governance on 8571 5309.

Provide substantial, high quality landscaping along vehicular accessways.	Conditional Compliance
	Landscaping areas are provided along the driveway
Include the planting of at least one substantial canopy tree to each front setback and ground level secluded private open space area.	Conditional Compliance Canopy trees can be conditionally provided within the front of the site and within each dwellings SPOS areas
Planting trees that are common to and perform well in the area.	Conditional Compliance Native trees can be provided via permit conditions requiring a landscaping plan
Avoid the removal of existing mature trees by incorporating their retention into the site design.	V Principle met No significant vegetation on site.
Use landscaping to soften the appearance of the built form when viewed from the street and to respect the amenity of adjoining properties.	Conditional Compliance Landscaping areas at the front and sides of the site softens the appearance of the dwellings on the street and neighbouring properties. A landscape plan will form condition 1
Ensure that landscaping also addresses the Safety Design Principles.	Conditional Compliance Landscape plan to be addressed as a condition
Canopy trees should be planted in well proportioned setbacks/private open space that are sufficient to accommodate their future growth to maturity.	Conditional Compliance Landscape plan to be addressed as a condition
Landscaping should minimise the impact of increased storm water runoff through water sensitive urban design and reduced impervious surfaces.	Conditional Compliance Landscape plan to be addressed as a condition
Landscaping should be sustainable, drought tolerant, and include indigenous species and be supported through the provision of rainwater tanks.	Conditional Compliance Landscape plan to be addressed as a condition

If the details of the attachment are unclear please contact Governance on 8571 5309.

Corporking	The evicting level of an effect on ranking charld be maintained by avaiding commend references	Oringino mot
car parking	The existing level of president car parking should be maintained by avoiding second crossovers on	* Frinciple met
	allotments with frontage widths less than 17 metres.	The subject site has a combined frontage
		greater than 17 metres.
	On-site car parking should be:	✓ Principle met
	<ul> <li>Well integrated into the design of the building,</li> </ul>	Parking is well integrated into the design of
	<ul> <li>Generally hidden from view or appropriately screened where necessary,</li> </ul>	the dwellings.
	<ul> <li>Located to the side or rear of the site so as to not dominate the streetscape and to maximise soft landscaping opportunities at ground level.</li> </ul>	
	Where car parking is located within the front setback it should be:	✓ Principle met
	<ul> <li>Fully located within the site boundary; and</li> </ul>	
	<ul> <li>Capable of fully accommodating a vehicle between a garage or carport and the site boundary.</li> </ul>	
	Developments with basement car parking should consider flooding concerns where applicable.	N/A
		No basement car parking proposed.
Setbacks, front	Residential developments should:	
boundary and width	Provide a front setback with fence design and height in keeping with the predominant street pattern.	Variation
		A variation is sought to the front setback, given the sites uniquely shaped front boundary, the setback is considered reasonable
	Maintain the apparent frontage width pattern.	✓ Principle met
		The existing frontage width pattern would not be significantly altered.
	Provide appropriate side setbacks between buildings to enable screen planting where required, and at	✓ Principle met
	least one generous side setback to enable the retention of trees and/or the planting and future growth of trees to maturity.	Setbacks would allow for tree planning.
	Provide open or low scale front fences to allow a visual connection between landscaping in front	✓ Principle met
	gardens and street tree planting.	No front fence is proposed.
Private open	All residential developments should provide good quality, useable private open space for each dwelling	✓ Principle met
space	urecty accessible for the main lying area.	All dwellings would be provided with quality useable private open space.
	-	

If the details of the attachment are unclear please contact Governance on 8571 5309.

	Ground level private open space areas should be able to accommodate boundary landscaping, domestic	✓ Principle met
	services and outdoor furniture so as to maximise the useability of the space.	Garden areas shown show that SPOS is a usable space for domestic services and outdoor furniture
	Private open space should be positioned to maximise solar access.	✓ Principle met
		Secluded private open spaces would be orientated to achieve ample solar access.
	Upper floor levels of the same dwelling should avoid encroaching secluded private open space areas to	✓ Principle met
	ensure the solar access, useability and amenity of the space is not adversely affected.	Upper levels would not encroach over ground floor open spaces of other dwellings
	Upper level dwellings should avoid encroaching the secluded private open space of a separate lower	✓ Principle met
	level dwelling so as to ensure good solar access and amenity for the lower level dwelling.	Upper levels would not encroach over ground floor open spaces of other dwellings.
Bulk & Built Form	All residential developments should respect the dominant façade pattern of the streetscape by:	✓ Principle met
	<ul> <li>Using similarly proportioned roof forms, windows, doors and verandahs; and</li> </ul>	The proposed dwellings are similar to
	<ul> <li>Maintaining the proportion of wall space to windows and door openings.</li> </ul>	streetscape in terms of proportion of the dominant façade.
	Balconies should be designed to reduce the need for screening from adjoining dwellings and properties.	N/A
	The development of new dwellings to the rear of existing retained dwellings is discouraged where:	N/A
	<ul> <li>The siting of the retained dwelling would not enable an acceptable future site layout for either the proposed or future dwelling; or</li> </ul>	
	<ul> <li>The retention of the existing dwelling detracts from the identified future character.</li> </ul>	
	On sites adjacent to identified heritage buildings, infill development should respect the adjoining heritage	N/A
	<ul> <li>v.</li> <li>Not exceeding the height of the neighbouring significant building;</li> </ul>	No heritage building on the site or on adjoining land.
	<ul> <li>Minimising the visibility of higher sections of the new building; and</li> </ul>	
	<ul> <li>Setting higher sections back at least the depth of one room from the frontage.</li> </ul>	
Site Design	Residential development should:	
	Preserve the amenity of adjoining dwellings through responsive site design that considers the privacy, solar access and outlook of adjoining properties.	Principle met Design is responsive to abutting lots.

If the details of the attachment are unclear please contact Governance on 8571 5309.

	Maximise thermal performance and energy efficiency of the built form by addressing orientation, passive design and fabric performance	✓ Principle met Large windows are proposed to enable thermal performance and lessen reliance on artificial heating and cooling
	Ensure that building height, massing articulation responds sensitively to existing residential interfaces, site circumstances, setbacks and streetscape and reduces the need for screening.	✓ Principle met  The development has provided habitable room windows facing away from any existing SPOS or habitable room windows on neighbouring lots and within the development to reduce the need for screening.
	Provide sufficient setbacks (including the location of basements) to ensure the retention of existing trees and to accommodate the future growth of new trees.	Principle met Trees are accommodated within the secluded private open spaces and front yards.
	Provide suitable storage provisions for the management of operational waste	V Principle met Storage areas are provided for each dwelling.
	Appropriately located suitable facilities to encourage public transport use, cycling and walking.	Principle met The site is well place within proximity to public transport.
Materials & Finishes	Residential development should: Use quality, durable building materials and finishes that are designed for residential purposes.	✓ Principle met The materials probosed are brick with render
		to first floors, with tiled roofing, which are durable and complementary to existing dwellings in the vicinity.
	Avoid the use of commercial or industrial style building materials and finishes.	Principle met Materials are suited to residential developments.

If the details of the attachment are unclear please contact Governance on 8571 5309.

	Avoid using materials such as rendered cement sheeting, unarticulated surfaces and excessive	✓ Principle met
	repetitive use of materials.	A mix of materials, finishes and articulates are proposed
	Use a consistent simple palette of materials, colours finishes and architectural detailing.	✓ Principle met
		The colour palette is of a consistent simple nature
	Maximise the ongoing affordability and sustainability of residential developments through the selection of	✓ Principle met
	low maintenance, resource and energy efficient materials and finishes that can be reasonably expected to endure for the life of the building.	The materials chosen are durable
Domestic services normal	In order to minimise the impact of domestic and building services on the streetscape, adjacent properties, public realm and amenity of future residents, new residential development should:	
to a dwelling and Building services	Ensure that all domestic and building services are visually integrated into the design of the building and appropriately positioned or screened so as to not be seen from the street or adjoining properties.	✓ Principle met
	Be designed to avoid the location of domestic and building services:	✓ Principle met
	<ul> <li>Within secluded private open space areas, including balconies; and</li> </ul>	
	<ul> <li>Where they may have noise impacts on adjoining habitable rooms and secluded private open space areas.</li> </ul>	
Internal Amenity	Residential development should:	
	Ensure that dwelling layouts have connectivity between the main living area and private open space.	✓ Principle met
		Living room and POS for each dwelling is connected.
	Be designed to avoid reliance on borrowed light to habitable rooms.	✓ Principle met
		Windows are provided to all habitable rooms and would not rely on borrow light.
	Ensure that balconies and habitable room windows are designed and located to reduce the need for	✓ Principle met
	excessive screening.	Habitable rooms are orientated towards SPOS areas to reduce the need for screening.
	Ensure that dwellings without ground level main living areas meet the Standards of Clauses 55.03-5, 55.04-1, 6 & 7, 55.05-3, 4 & 5.	✓ Principle met

If the details of the attachment are unclear please contact Governance on 8571 5309.

articulated and landscaping can include canopy trees at the front, side and rear of the site. A landscaping plan will be required. Sufficient areas for landscaping provided on site. The proposal provides appropriate landscaping of the frotnage, which reduces the visual impact on the streetscape. Each dwelling is provided with SPOS at the side of the site. The proposed development is 2 storey. The design of the development is well Principle met/Principle not met/NA The proposal is a medium density **Conditional Compliance** / Principle met Principle met Principle met / Principle met Principle met Clause 22.09-3.3 Design principles for Incremental Change Areas – General Residential Zone (GRZ) development. Parking, paving and car access within the front boundary setback should be limited in order to maximise the opportunity for soft landscaping and prevent the over dominance of carports and garages in the street. The preferred maximum building height for land within the GRZ1 and GRZ2 is up to 2 storeys, including ground level. Residential development should use landscaping to create a landscaped character, particularly canopy trees in front and rear gardens; and to protect the outlook of adjoining properties Ensure that the built form respects the scale of existing prevailing built form character and responds to Residential development should provide secluded private open space at the side or rear of each dwelling to avoid the need for excessive screening or high front fencing. The preferred housing type for the Incremental Change Area is medium density. site circumstances and streetscape; Residential development should: **Principles** Setbacks, front boundary and width **Building Height** Preferred housing type Private open space Landscaping Bulk & Built Form

If the details of the attachment are unclear please contact Governance on 8571 5309.

	Provide separation between dwellings at the upper level;	✓ Principle met
		Upper levels would be tiered where the upper levels would be near the boundaries.
	Retain spines of open space at the rear of properties to maximise landscaping opportunities and protect private secluded open space;	V Principle met The amenity of the surrounding properties would not be impacted by the proposal. The dwelling at the rear is single storey.
	Position more intense and higher elements of built form towards the front and centre of a site, transitioning to single storey elements to the rear of the lot.	V Principle met Private open spaces of the adjoining properties would not be impacted by the proposal, dwelling 5 at the rear of the site is single storey.
	The rearmost dwelling on a lot should be single storey to ensure the identified future character of the area and the amenity of adjoining properties is respected by maximising landscaping opportunities and protecting adjoining private secluded open space.  Two storey dwellings to the rear of a lot may be considered where:  The visual impact of the building bulk does not adversely affect the identified future character of the area;  Overlooking and/or overshadowing does not adversely affect the amenity of neighbouring properties;  The building bulk does not adversely affect the planting and future growth of canopy trees to maturity;  Sufficient side and rear boundary landscaping can be provided to screen adjoining properties;  Upper storey components are well recessed from adjoining sensitive interfaces.	V Principle met Single storey dwelling to the rear of the site with the double storey dwellings at the front middle of the site. The first floors are well recessed from neighbouring residential properties.
	Residential development should be well articulated through the use of contrast, texture, variation in forms, materials and colours.	✓ Principle met The development would be provided with a mixed of materials and colours and is a high standard
ricor	remainments also coult. There and he found at the cohodule to the condicable zone	

Note: Other requirements also apply. These can be found at the schedule to the applicable zone.

# Clause 52.06-9 Design standards for car parking

Plans prepared in accordance with Clause 52.06-8 must meet the design standards of Clause 52.06-9, unless the responsible authority agrees otherwise. Design standards 1, 3, 6 and 7 do not apply to an application to construct one dwelling on a lot.

Design Standards	Assessment	Requirement met/Requirement not met/NA
Design standard 1 -	Accessways must:	✓ Standard met
Accessways	Be at least 3 metres wide.	Existing crossovers to be used
	Have an internal radius of at least 4 metres at changes of direction or intersection or be at least 4.2 metres wide.	✓ Standard met
	<ul> <li>Allow vehicles parked in the last space of a dead-end accessway in public car parks to exit in a forward direction with one manoeuvre.</li> </ul>	N/A
	Provide at least 2.1 metres headroom beneath overhead obstructions, calculated for a vehicle with a wheel base of 2.8 metres.	✓ Standard met
	<ul> <li>If the accessway serves four or more car spaces or connects to a road in a Road Zone, the accessway must be designed to that cars can exit the site in a forward direction.</li> </ul>	✓ Standard met
	<ul> <li>Provide a passing area at the entrance at least 5 metres wide and 7 metres long if the accessway serves ten or more car parking spaces and is either more than 50 metres long or connects to a road in Road Zone.</li> </ul>	N/A
	<ul> <li>Have a corner splay or area at least 50 percent clear of visual obstructions extending at least 2 metres along the frontage road from the edge of an exit lane and 2.5 metres along the exit lane from the frontage, to provide a clear view of pedestrians on the footpath of the frontage road. The area clear of visual obstructions may include an adjacent entry or exit lane where more than one lane is provided, or adjacent landscaped areas, provided the landscaping in those areas is less than 900mm in height.</li> </ul>	✓ Standard met A notation has been included on the ground floor plan that all structures within the splay area would be no higher than 0.9m.
	If an accessway to four or more car parking spaces is from land in a Road Zone, the access to the car spaces must be at least 6 metres from the road carriageway.	N/A
	If entry to the car space is from a road, the width of the accessway may include the road.	N/A

If the details of the attachment are unclear please contact Governance on 8571 5309.

Design standard 2 – Car parking spaces	Car parking spaces and accessways must have the minimum dimensions as outlined   Standard met in Table 2.	accessways must have	the minimum dimensio	ns as outlined	✓ Standard met
	Table 2: Minimum dimensions of car parking spaces and accessways	ensions of car parkin	ig spaces and access	ways	
	Angle of car parking spaces to access way	Accessway width	Car space width	Car space length	
	Parallel	3.6 m	2.3 m	6.7 m	
	45°	3.5 m	2.6 m	4.9 m	
	°09	4.9 m	2.6 m	4.9 m	
	°06	6.4 m	2.6 m	4.9 m	
		5.8 m	2.8 m	4.9 m	
		5.2 m	3.0 m	4.9 m	
		4.8 m	3.2 m	4.9 m	
	Note to Table 2: Some dimensions in Table 2 vary from those shown in the Australian Standard AS2890.1-2004 (off street). The dimensions shown in Table 2 allocate more space to aisle widths and less to marked spaces to provide improved operation and access. The dimensions in Table 2 are to be used in preference to the Australian Standard AS2890.1-2004 (off street) except for disabled spaces which must achieve Australian Standard As2890.6-2009 (disabled).	mensions in Table 2 va (off street). The dimen ess to marked spaces to 1 2 are to be used in 1 7) except for disabled staisabled.	ote to Table 2: Some dimensions in Table 2 vary from those shown in the Australian tandard AS2890.1-2004 (off street). Assessment Table - Two or More Dwellings on a Lot and Residential Buildings (Clause 55)

Clause 55.02-	Clause 55.02-1 Neighbourhood character objectives	
Title & Objective	Standard (Summarised)	Standard Met/Standard Not Met/NA
Standard B1	The design response must be appropriate to the neighbourhood and the site.	✓ Standard met
		The proposed double storey form is considered appropriate for the site considering the followings:
		<ul> <li>The land is within a General Residential Zone and within an area designated for Medium Change under Clause 22.09.</li> </ul>
		The double storey built form is for the proposed dwellings at the front and middle of the lot with the single storey dwelling at the rear
	The proposed design response must respect the existing or preferred neighbourhood	✓ Standard met
	character and respond to the features of the site.	The proposal is considered appropriate to the existing and preferred neighbourhood character of the area as mentioned above.
Decision	Any relevant neighbourhood character objective, policy or statement set out in this scheme.	
Guidelines	The neighbourhood and site description.	
	The design response.	
Objectives	To ensure that the design respects the existing neighbourhood character or contributes to a preferred neighbourhood character.	✓ Objective met
	To ensure that development responds to the features of the site and the surrounding area.	

If the details of the attachment are unclear please contact Governance on 8571 5309.

Title & Objective Standards	Standards	Standard Met/Standard Not Met/NA
Standard B2	An application must be accompanied by a written statement to the satisfaction of the	✓ Standard met
	responsible authority that describes how the development is consistent with any relevant policy for housing in the PPF and the LPPF, including the MSS and local planning policies.	Proposal is consistent with relevant policies – 22.09 assessment attached.
		The application was accompanied by a written assessment of the proposal against the relevant PPF and Local Policies.
Decision	The PPF and the LPPF including the MSS and local planning policies.	
enidelines	The design response.	
Objectives	To ensure that residential development is provided in accordance with any policy for housing <b>Objective met</b> in the PPF and the LPPF, including the MSS and local planning policies.	✓ Objective met
	To support medium densities in areas where development can take advantage of public and community infrastructure and services.	

Clause 55.02-2 Residential policy objectives

Clause 55.02-3 Dwellin	<ul> <li>3 Dwelling diversity objective</li> </ul>	
Title & Objective   Standards	Standards	Standard Met/Standard Not Met/NA
Standard B3	Developments of ten or more dwellings should provide a range of dwelling sizes and types, including:	Standard met The proposal consists of 5 dwellings: 4 x double storey
	<ul> <li>Dwellings with a different number of bedrooms.</li> </ul>	and 1 x single storey
	<ul> <li>At least one dwelling that contains a kitchen, bath or shower, and a toilet and wash basin at ground floor level.</li> </ul>	
Objective	To encourage a range of dwellings sizes and types in developments of ten or more dwellings.   ✓ Objective met	✓ Objective met

Clause 55.02-4 Infra	-4 Infrastructure objectives	
Title & Objective	Standards	Standard Met/Standard Not Met/NA
Standard B4	Development should be connected to reticulated services, including reticulated sewerage, drainage, electricity and gas, if available.	<ul> <li>Standard met</li> <li>Site is located in an established residential area</li> </ul>
	Development should not unreasonably exceed the capacity of utility services and infrastructure, including reticulated services and roads.	Standard met The proposal would provide landscaping to assist with water runoff as to not overload the existing infrastructure.
	In areas where utility services or infrastructure have little or no spare capacity, developments should provide for the upgrading of or mitigation of the impact on services or infrastructure.	<ul> <li>Standard met</li> <li>No upgrading to services required</li> </ul>
Decision Guidelines	The capacity of the existing infrastructure.  In the absence of reticulated sewerage, the capacity of the development to treat and retain all wastewater in accordance with the SEPP (Waters of Victoria) under the EPA 1970.  If the drainage system has little or no spare capacity, the capacity of the development to provide for stormwater drainage system,	
Objectives	To ensure development is provided with appropriate utility services and infrastructure.  To ensure development does not unreasonably overload the capacity of utility services and infrastructure.	✓ Objective met

Clause 55.02-	Clause 55.02-5 Integration with the street objective	
Title & Objective	Standards	Standard Met/Standard Not Met/NA
Standard B5	Developments should provide adequate vehicle and pedestrian links that maintain or	✓ Standard met
	enhance local accessibility.	The development would have adequate link between the car spaces and dwellings.
	Developments should be oriented to front existing and proposed streets.	✓ Standard met
		Each of the proposed dwellings are orientated to the street/ front of the site and all dwellings are easily identifiable from the street.
	High fencing in front of dwellings should be avoided if practicable.	✓ Standard met
		No front fence
	Development next to existing public open space should be laid out to complement the open space.	N/A
Decision	Any relevant urban design objective, policy or statement set out in this scheme.	
Guidelines	The design response.	
Objective	To integrate the layout of development with the street.	✓ Objective met

	To ensure that site facilities are accessible, adequate and attractive.	

### 3 QUESTION TIME - PUBLIC

### Question

### Gaye Guest, Keysborough

A 'bush fire" was lit over the weekend with the latest Council mailout regarding Food Waste going into the green bin because of lack of information. Can the relevant officer please communicate exactly what is happening with the green bin and what duration its pickup will be, whether it is weekly or fortnightly? Also, will this affect the pickup of the red bin which at the moment is weekly? Sadly, the pamphlet was not informative enough and again one section of the community has gone into meltdown and have been particularly vocal on Facebook (a case of Chinese whispers ) and people are feeling vulnerable.

It also brings up the topic of rebates again, for those using cloth nappies like other Council areas, given some are saying their bins get extremely full at the end of their week or fortnight. A quick look on Councillors' Facebook pages did not have any relevant information about the pickup schedule. Only some Councillors were advertising what the Council had already put out and only one out of the 11 Councillors was advertising the new kitchen bin which also has renters up in arms of being neglected (even discriminated against) because they will not receive one. The ripple effect of anything new or different would be quelled with more simple information as soon as possible.

### Response

### Paul Kearsley, Director Business, Engineering and Major Projects

I can outline further information as follows:

The food organics rollout was included in the 20/21 Community Calendar that went to our residential properties. The December 20/January 21 issue of the Greater Dandenong Council News contained an article flagging the new service. There is a website link that also clearly identifies what the service is with regards to some of the changes that have been introduced. Customer Service has been furnished with a Frequently Asked Questions (FAQ) sheet to assist them in their responses to the community. Social media posts are also flagging this new service.

I can advise that caddy registration has commenced. As of midday today, Monday 22 February 2021, we have received and approved almost 3,500 requests from residents, so we are having a good take up.

Caddies will be delivered during April 2021 and they will also have an A5 booklet and a fridge magnet inside containing additional information. There has been no decision of Greater Dandenong Council altering its collection cycles of the garden waste and household waste bins. To avoid any confusion and the fact that the service schedules were not being changed, we opted to remain silent on this point. Communications were more about the introduction of the new service being offered and when and how residents could access the service and what they could now put in their green waste bins.

With regards to the question on the rebates for using cloth nappies. most Councils conduct composition audits of their waste and recycling streams from time to time to understand the patterns of waste disposal by their community. Auditing conducted by the City of Casey's waste stream has revealed

a high incident of disposable nappies being disposed in the household garbage bins. This would not be surprising in a municipality of rapid housing growth and family growth, bringing with it new home buyers with young families. Casey Council has likely introduced this initiative in order to address this issue. Audits completed by the City of Greater Dandenong household garbage streams have not revealed anything of significance in this regard and a similar rebate scheme has not been considered at this stage.

With regards to issues around tenancies, we understand it is an issue with regards to being a tenant. If a tenant is in a property that currently has a green waste bin, they will need to get their landlord or property manager to complete the online kitchen caddy request on their behalf or at least, get some form of approval to undertake that. If the tenant would like to add a green waste bin to the current service in order to then get the kitchen caddy, then that is a further approval process that is required by either the landlord or the property manager because the bins are linked directly to the property and not to the tenant.

Our communications are produced in collaboration with Council's key stakeholders to ensure our approach to the introduction of a new service is conveyed in layperson terms and is as visual as possible to assist our multicultural communities and education programs. That is why we undertook the introduction of the new service information to be via the flyer that most of you would have now seen out there and has been we believe, well accepted. I will re-enforce though, that there is no change to the nature of the service collection of the bins in the City of Greater Dandenong.

### Question

### Matthew Kirwan, Noble Park

I understand there were over 200 public submissions regarding the Biodiversity Action Plan, indicating a high degree of interest from the community. What are the timeframes for the rest of this project including when it will go to a Councillor Briefing Session?

### Response

### Paul Kearsley, Director Business, Engineering and Major Projects

Council received a significantly high degree of interest and feedback through its online surveys and several workshops involving interested community groups and key internal and external stakeholders. We are currently in the process of collating all the information gathered to date, with a view to present the draft Biodiversity Action Plan to Council hopefully in the coming months.

### Question

### Matthew Kirwan, Noble Park

One of the actions in the first Springvale Community Hub Action Plan, given the timeframe 'immediate' when the plan was endorsed in September 2020, was to develop a display to provide green star information about the building, i.e. water and solar usage and increased awareness. The building has now been open for three months and I cannot see any displays being installed. When will it be installed?

### Response

### Paul Kearsley, Director Business, Engineering and Major Projects

The green star dashboard has been developed and will be displayed in the main foyer of the building, allowing the general public to see the energy use of the building. Unfortunately, whilst undergoing some further building tuning, it was discovered that several electrical and water meters were malfunctioning and therefore, requiring replacement and delaying the display rollout. COVID-19 has further delayed the procurement of these new meters unfortunately. We are expecting the procured meters to arrive and be installed in early April 2021 and the display will occur soon thereafter.

### **Comment**

### John Bennie PSM, Chief Executive Officer

The next question is also from Matthew Kirwan of Noble Park. Now this question contains eight parts and I think Mr Kirwan is aware as has previously been determined by this Council that under Clause 4.5.8 (b) of the Governance Rules that only three questions can be asked by the same questioner. I will therefore ask the first of the eight questions in this part. The balance will be addressed by Council officers and a reply sent to Mr Kirwan, the details of those will be included in the Minutes of the meeting. The first one of the eight asked is regarding Item 4.2.1 in tonight's Agenda - Q2 Quarterly Performance Report.

### Question

### Matthew Kirwan, Noble Park

Item 4.2.1 - Q2 Quarterly Performance Report page 123. Regarding the governance review for kindergarten and childcare provision, when is it expected to be complete and in the scope of the work is what Council going to do to support improving kindergarten and childcare provision in scope and if not, why not?

### Response

### Martin Fidler, Director Community Services

This review will be completed by the end of June 2021. The review will focus on the current status of governance of kindergartens and community childcare and what supports are currently in place and/or needed to ensure good governance into the future.

### Question

### Matthew Kirwan, Noble Park

Item 4.2.1 - Q2 Quarterly Performance Report page 127. When is the Hemmings Street Action planned to come to a Council meeting for endorsement and what State Government departments have agreed to partner with Council on the plan?

### This question was taken on notice.

### Question

### Matthew Kirwan, Noble Park

Item 4.2.1 – Q2 Quarterly Performance Report page 134. The action progress is confusing. Is a new Children's plan being created or a new Children, Youth and Family Strategy?

This question was taken on notice.

### Question

### Matthew Kirwan, Noble Park

Item 4.2.1 – Q2 Quarterly Performance Report page 136. It mentions that the Multicultural Communities Network is on track for completion for early 2021 with advertising already approved. Having a network where there could be systematic consultation for Council's plans, strategies, policies and initiatives has been long needed, when will advertising commence?

This question was taken on notice.

### Question

### Matthew Kirwan, Noble Park

Item 4.2.1 – Q2 Quarterly Performance Report page 143. Of the biodiversity and environmental education related actions in the Green Wedge Management Plan, which particular ones were progressed in 2021 and which ones are yet to be started?

This question was taken on notice.

### **Question**

### Matthew Kirwan, Noble Park

Item 4.2.1 – Q2 Quarterly Performance Report page 145. Has the meeting of Council Alliance for a Sustainable Built Environment (CASBE) occurred and if so, what were the next steps and timeframes?

This question was taken on notice.

### Question

### Matthew Kirwan, Noble Park

Item 4.2.1 – Q2 Quarterly Performance Report page 145. What public input is there going to be in the Electric Vehicle Plan and if not, why not?

This question was taken on notice.

### Question

### Matthew Kirwan, Noble Park

Item 4.2.1 – Q2 Quarterly Performance Report page 149. In relation to the review of the Housing Strategy will this result in a publicly available direction regarding facilitation of social housing within the City of Greater Dandenong by Greater Dandenong Council to be available in 2021 and if not, why not?

This question was taken on notice.

### Question

### Sabyasachi Dasgupta, Keysborough

We have recently had extensive damage to our stormwater piping system from a large eucalyptus tree planted in the nature strip by the Council due to its invasive root system completely blocking it. This led to flooding in my backyard and garage.

### **Comment**

### John Bennie PSM, Chief Executive Officer

The repair and replacement of the stormwater piping costs cannot be mentioned. I think it is probably more a private matter for the questioner.

### **Question (contd)**

### Sabyasachi Dasgupta, Keysborough

I have sent a written complaint letter to Mr Bosman and also filed requests with the Council. Request numbers are also included and including the dates that they were submitted. Councillor Rhonda Garad, Councillor for South Keysborough Ward visited us yesterday and we showed her the extensive damage done by the tree on the nature strip. We would request the following:

- (1) Remove the large tree next to the stormwater as these massive roots will damage the stormwater outlet pipe again in a few years' time; and
- (2) Provide compensation to me for the amount I have paid the plumber for the repair job. I have also attached a number of photographs in my complaint letter as evidence of the damage to the piping with the massive root system and the invoice for the extensive repair work that had to be undertaken. I have also retained physical evidence of the damaged pipe with the extensive roots inside the pipe for review if required. Thanks for your assistance.

### Comment

### John Bennie PSM, Chief Executive Officer

I will hand over to Mr Kearsley but before I do so, there is a reference to a complaint letter being sent to Mr Bosman. If that was the case, Mr Bosman is not the appropriate Director to deal with such matters and I believe the letter would have been redirected internally to Mr Kearsley and/or Council's Claims Management area but over to Mr Kearsley to respond.

### Response

### Paul Kearsley, Director Business, Engineering and Major Projects

The first thing I will say is that with regards to the issue of the tree, this will be reassessed and will be considered on its merits to remove or whether we can install a root barrier or similar to mitigate future risks of potential root movement. One of the criteria for removing a tree is the impact on not just Council assets but also the assets of any resident or business with regards to rain damage, etc. Our works officers are aware of this matter with regards to the drainage issue through the inquiry made regarding the blocked drains. The drainage referred to is their private system and this has been confirmed by their plumber.

The plumber claims that the roots from the nature strip tree were the cause of this blockage and as such the next step in the process for the resident, is to essentially seek a refund through Council's Risk Management and Insurance section. What I can advise on behalf of that area governed by Mr Jaensch is that Council's Risk Management Consultant will contact Mr Dasgupta tomorrow and provide him with details about how to formally lodge a claim. The claim will then be assessed with regards to the impact of the tree on the drainage and certainly the plumber's advice will play a significant role in that.

### Question

### **Heather Louis, Keysborough**

How is the amount of trees now being removed in development sites across Keysborough South going to help increase our canopy level, particularly on Chapel Road? I watched another block turn from an oasis to a desert last week. Are there no limitations put on these developers?

### Response

### Jody Bosman, Director City Planning, Design and Amenity

The Planning Scheme does not require a planning permit for the removal of all vegetation and rather, only requires certain vegetation to be retained or require a planning permit for removal. Where a planning permit is required for the removal of vegetation, Council does seek to retain vegetation where possible or require offset planting to occur. In addition, even where vegetation is not proposed for removal, Council imposes a condition on many planning permits for a landscaping plan including trees determined appropriate by Council's specialist who assists in increasing vegetation coverage throughout the municipality. Where vegetation that requires a planning permit is removed illegally, Council officers will take the appropriate enforcement action in response.

Council is committed to improving the vegetation across the City and does utilise the powers it has under the Planning Scheme and other mechanisms to continue to work on improving this. Further to this, Council is developing an Urban Forest Strategy to enhance vegetation coverage. This Draft Strategy is currently on public consultation and I would encourage anyone and everyone interested in this subject to review the Draft Strategy and provide a submission on it.

### 4 OFFICERS' REPORTS - PART TWO

### 4.1 FINANCE AND BUDGET

### 4.1.1 Application for Loan Funding via the Community Infrastructure Loans Program

File Id:

Responsible Officer: Director Corporate Services

### **Report Summary**

In the second half of 2021, Council will commence the construction of the Keysborough South Community Hub.

The project, which has a total funding cost of \$15.780 million, will require a funding mix, part of which will be sourced via loan funding.

Council has an opportunity to source this loan funding via the State Government Community Infrastructure Loans Program which provides Council access to discounted interest rates and an interest rate subsidy from State Government. In order to make application for this program, Council needs to resolve its support for the loan application.

### **Recommendation Summary**

This report recommends that Council resolves to support the making of an application for loan funding for \$6.1 million for the Keysborough South Community Hub under the State Government Community Infrastructure Loans Program.

### 4.1.1 Application for Loan Funding via the Community Infrastructure Loans Program (Cont.)

### **Background**

The planned commencement for construction of the Keysborough South Community Hub is currently scheduled for July 2021 subject to the conclusion of the tender process.

The total project cost, exclusive of works previously carried out in respect of relocating the previous dog off leash area and the road network is \$15.780 million. This project will be funded from a variety of funding sources as tabulated below.

Funding Source	Amount \$'000s
Developer Contributions	6,505
Council Reserves	59
Government Grants	3,000
Council Rate Funds	96
Borrowings	6,120
Total	15,780

In terms of the borrowing component, Council can seek to undertake these borrowings independently. Another option for Council is to participate in the State Government Community Infrastructure Loans Program which has opened on 9 February 2021 and closes on 23 March 2021.

Under this program, a total amount of \$100 million has been allocated for Councils to apply to access loan funding.

Where applications are approved under the program, Councils will be able to access loan funds at Treasury Victoria's borrowing rates and receive a 50% subsidy of all interest payable under the loan.

Interest rates are subject to daily movement. Indicative rates were provided as at 25 November 2020 which highlighted a rate for a fixed term loan of ten years of 0.88%. Coupled with the 50% interest rate subsidy, this would bring the effective rate to Council down to 0.44%.

It is therefore considered beneficial for Council to participate in this scheme.

In order for an application to be lodged, Council must first resolve to support the loan application.

### **Proposal**

This report recommends that Council resolves to support the making of an application for loan funding for \$6.1 million for the Keysborough South Community Hub under the State Government Community Infrastructure Loans Program.

### 4.1.1 Application for Loan Funding via the Community Infrastructure Loans Program (Cont.)

# Community Plan 'Imagine 2030' and Council Plan 2017-2021 – Strategic Objectives, Strategies and Plans

After consultation with the Greater Dandenong community on what kind of future they wanted to see for themselves and the City in 2030, the result was the Greater Dandenong Community Plan 'Imagine 2030'. This report is consistent with the following community visions:

### Community Plan 'Imagine 2030'

### <u>Place</u>

Appearance of Places – Places and buildings

### **Opportunity**

• Leadership by the Council – The leading Council

### **Council Plan 2017-2021**

The Council Plan describes the kind of future the Council is working for, and how Council will do this over four years. This report is consistent with the following goals:

### Place

A city planned for the future

### Opportunity

An open and effective Council

### Victorian Charter of Human Rights and Responsibilities

The Victorian Charter of Human Rights and Responsibilities has been considered in the preparation of this report but is not relevant to its contents.

### **Financial Implications**

In previous funding models, Council had initially aimed to fund the \$6.1 million from its Major Projects Reserve Fund.

By utilising low interest rate loans available via the Community Infrastructure Loans Program this does however protect that Reserve level which assists Council in its funding model for other major projects such as the forthcoming replacement of Dandenong Oasis.

Councils Long Term Financial Strategy has factored in the borrowing costs associated with this report.

### Consultation

No consultation has been undertaken with this report.

### 4.1.1 Application for Loan Funding via the Community Infrastructure Loans Program (Cont.)

### Conclusion

As noted in the background to this report, the participation in the Community Infrastructure Loans Program is beneficial to Council from a financial management perspective.

### Recommendation

That Council resolves to support the making of an application for loan funding for \$6.1 million for the Keysborough South Community Hub under the State Government Community Infrastructure Loans Program.

### **MINUTE 90**

Moved by: Cr Rhonda Garad Seconded by: Cr Lana Formoso

That Council resolves to support the making of an application for loan funding for \$6.1 million for the Keysborough South Community Hub under the State Government Community Infrastructure Loans Program.

**CARRIED** 

### 4.2 POLICY AND STRATEGY

### 4.2.1 Q2 Quarterly Performance Report

File Id:

Responsible Officer: Director Corporate Services

Attachments: Quarterly Performance Report 1 October – 31

December 2020

Financial Report 1 July – 31 December 2020

### **Report Summary**

This report details Council's progress for the period 1 October to 31 December 2020 against performance targets outlined in the Council Plan 2017-21 and the Mid-Year Budget 2020-21.

### **Recommendation Summary**

This report recommends that Council notes the achievements against the Council Plan indicators and the Mid-Year Budget for the period ending 31 December 2020.

### **Background**

Council adopted the Council Plan 2017-21 (Revised 2020) and Annual Plan 2020-21 on Monday 22 June 2020, and the Mid-Year Budget on Monday 14 December 2020.

The Council Plan 2017-21 outlines the vision and objectives of the current Council over the four years of its term in office. This document guides service delivery, innovation and good governance, and provides the foundation for the corporate planning framework for all business activities. The Council Plan also guides the budget, service delivery priorities and the continuous improvement of our services.

The Council Plan 2017-21 and Annual Budget 2020-21 are made available to residents through the Customer Service Centres, libraries and on Council's website at www.greaterdandenong.com

Progress against performance targets for the period 1 October to 31 December 2020 is outlined in two components of this report:

Part 1 – The Quarterly Performance Report details the achievements for the Council Plan Indicators from the Council Plan 2017-21.

Part 2 – The Financial Report is designed to inform Councillors of the results of operations for the period 1 July to 31 December 2020 including financial performance against the Mid-Year Budget adopted by Council on Monday 14 December 2020.

# <u>Part 1 and Attachment 1: Quarterly Performance Report for the period 1 October to 31 December</u> 2020

Performance highlights against the Council Plan strategic objectives include:

### A vibrant, connected and safe community

- Youth and Family Services engaged with 146 people in the COVID-19 research project.
- The Walk Against Family Violence was replaced this year with an online event focussing on the 16 Days of Activism.
- 21 of the actions from the Make Your Move Physical Activity 2020-30 are progressing well with only six to commence.
- Council's Carols event was held on 11 December as an online event, attracting an estimated 300 people.
- The Community Development Framework and Community Hubs Framework have been revised and will be out for public comment from 1-28 February.
- Council's draft Reconciliation Action Plan was endorsed by Council on 14 September.

### A creative city that respects and embraces diversity

• 22 community arts participation opportunities were offered online and in person.

- The 2020 Children's Forum was held online and attracted 126 children aged 7-12 from 17 local primary schools.
- Planning has commenced for the Springvale and District Historical Society to move into the Springvale Community Hub.

### A healthy, liveable and sustainable city

- The 2020 tree planting program is complete and trees are now under maintenance.
- The draft Urban Forest Strategy is complete and due to go out for public comment in February.
- Six inspections have taken place of materials recycling and green waste processing sites.
- Implementation of the Climate Emergency Strategy and Action Plan has begun with a focus on Councillor and Officer climate change awareness training and capacity building for the internal Climate Emergency Implementation Group.

### A city planned for the future

- The Springvale Community Hub community opening is scheduled for February.
- Detailed design of the Keysborough South Community Hub is nearing completion.
- The draft Business Case for the Dandenong Aquatic and Leisure Centre is complete.
- Council's advocacy to the State Government in regards to increasing access and availability of social housing stock has been successful. A \$5.3 billion Big Housing Build project has been announced to establish 12,000+ social and affordable properties across the state.
- Construction of the Greater Dandenong Gallery of Art has commenced.

### A diverse and growing economy

- Eight virtual workshops were delivered as part of the Community Revitalisation project and the project has now been extended to 30 June 2021.
- Planning for the "Take A Swing" golf day event has continued and a soft launch is expected early February.
- 14 network activities were conducted with a total of 324+ participants.

### An open and effective Council

- Council's social media platforms grew by 2.3 per cent.
- The Councillor Induction Program is 75 per cent complete with the remaining activities scheduled for early in quarter 3.
- The consultation process for the new Council Plan has continued with online activities and hard copy surveys. Face to face pop-up activities are scheduled for January now that COVID-19 restrictions have eased.

### Part 2 and Attachment 2: Financial Report for the period 1 July to 31 December 2020

The attached financial report is designed to inform Councillors of the results of operations for the period 1 July 2020 to 31 December 2020 including financial performance against the Mid-Year Budget adopted by Council on 14 December 2020.

The financial report incorporates a set of Financial Statements and a Directorate Analysis of financial performance by Business Unit. The following are contained in the Attachment:

- Income Statement
- Balance Sheet
- Cash Flow Statement
- Capital Expenditure Statement
- Capital Expenditure report
- Investment Report
- Directorate Analysis

Whilst the Financial Statements are prepared in accordance with Australian Accounting Standards, they contain several items which are "non-cash" in nature such as depreciation on assets and the written down (book) value of assets sold. They also exclude capital expenditure, new borrowings and loan repayments and as such, these Statements do not provide an accurate indication of the surplus/deficit cash position within a financial year.

The table on the following page provides a management accounting summary of the financial performance for the period 1 July 2020 to 31 December 2020 which removes non-cash items and adds back cash items that are excluded from the financial statements.

### Management Accounting Summary for the period 1 July 2020 to 31 December 2020

Surplus (deficit) position	8,077	(2,599)	10,676	-	-	-

### Results for the period 1 July 2020 to 31 December 2020

The overall management accounting result (after removing non-cash items) for the period 1 July 2020 to 31 December 2020 shows a favourable variance between the budget and actual of \$10.68 million. The variance is mainly due to a favourable surplus from ongoing operations, caused by lower than anticipated operating expenditure.

Capital expenditure is \$218,000 lower than the year to date budget (with a further \$23.45 million committed at 31 December 2020).

### 2020-21 Budget and the COVID-19 pandemic

Council's 2020-21 finances have been significantly impacted by COVID. In its original 2020-21 Budget, Council allocated \$4.6 million across various areas relating to adverse impacts, with a residual contingency remaining of approximately \$600,000.

A detailed review of additional COVID impacts and assumptions was performed during the Mid-Year Budget Review. This review found COVID stage four restrictions have had a significant adverse impact on Council, estimated at a further \$5.57 million. These COVID items, combined with other known adjustments since adoption of the 2020-21 Annual Budget were reflected in the Mid-Year Budget Review. In order to balance the 2020-21 Budget, capital project deferrals of \$4.40 million were included.

The financial impact of COVID will continue to be closely monitored and any permanent variances identified subsequent to the Mid-Year Budget Review will be reflected in the full year forecast. The forecast review is expected to be completed in March 2021.

### INCOME

Income for the period ended 31 December 2020 is favourable against budget by \$721,000. This is primarily due to the following:

**Grants – operating (\$1.13 million favourable) –** Additional funding received for Family Day Care (offset by higher payments to educators, \$914,000) and Child First (\$188,000), combined with an unbudgeted grant from the Department of Environmental, Land, Water and Planning (will be offset by grant expenditure, relates to High Risk Waste Sites Local Government Capacity Building Grant \$224,000).

Other income (\$432,000 favourable) – Unanticipated car parking fringe benefits tax refund (Corporate Accounting \$262,000) and contributions for rectification works (Parks Services \$85,000), combined with higher than anticipated rental income to date (Property Management Administration \$78,000).

**Statutory fees and fines (\$331,000 favourable)** – Favourable variance due to better than anticipated parking infringement income (Parking Management \$303,000) and sub-divisions and plan checking income to date (Transport and Civil Development \$105,000). Both budgets were reduced in the Mid-Year Budget due to COVID impacts.

The above favourable variances in income are partly offset by an unfavourable variance in:

**User fees (\$449,000 unfavourable)** – Mainly due to a reduction in the Family Day Care (FDC) administration levy fee income caused by COVID which is offset by higher FDC grant subsidy income (Community Services \$329,000).

### **EXPENDITURE**

Actual expenditure at 31 December 2020 against the budget is favourable by \$7.92 million. The major variances are in materials and services and employee costs.

**Materials and services (\$4.79 million favourable)** – The major items contributing to this favourable variance are:

 Contract services (\$2.35 million) – mainly due to timing of works and delay in receipt of invoices in Roads and Drains and Waste Management, combined with a temporary reduction in services and expenditure in Building Maintenance due to COVID restrictions (Engineering Services \$2.78 million).

**Employee costs (\$3.23 million favourable)** – This favourable variance is mainly due to staff recruitment occurring later than planned combined with a delay in commencement and recruitment of grant funded projects (Community Services \$1.87 million, City Planning, Design and Amenity \$477,000, Working for Victoria Fund \$328,000, Engineering Services \$232,000 and Corporate Services \$209,000).

Of the \$3.23 million favourable variance across all directorates, \$1.73 million relates to grant funded programs which require an acquittal (Community Services \$1.40 million and Working for Victoria Fund \$328,000).

Other expenses (\$492,000 favourable) – Favourable variance due to delay in community grant funding agreements as a result of required COVID-19 clause adjustments (Community Services \$221,000), savings in Council's contribution to the Dandenong Night Market which has been cancelled due to COVID and delay in Council's Melbourne Food and Wine Festival contribution (Corporate Services \$117,000).

### Capital expenditure

Total capital expenditure at 31 December 2020 was \$25.11 million. A further \$23.45 million was committed at the end of December. The capital works program comprises of asset renewal, expansion, upgrade and the investment in new assets.

### **Proposal**

That Council notes the progress against performance targets outlined in the Council Plan 2017-21 for the period 1 October to 31 December 2020 and the Financial Report for the period 1 July to 31 December 2020.

# Community Plan 'Imagine 2030' and Council Plan 2017-2021 – Strategic Objectives, Strategies and Plans

After consultation with the Greater Dandenong community on what kind of future they wanted to see for themselves and the City in 2030, the result was the Greater Dandenong Community Plan 'Imagine 2030'. This report is consistent with the following community visions:

### Community Plan 'Imagine 2030'

### People

- Pride Best place best people
- Cultural Diversity Model multicultural community

- Outdoor Activity and Sports Recreation for everyone
- Lifecycle and Social Support The generations supported

### Place

- Sense of Place One city many neighbourhoods
- Safety in Streets and Places Feeling and being safe
- Appearance of Places Places and buildings
- Travel and Transport Easy to get around

### **Opportunity**

- Education, Learning and Information Knowledge
- Jobs and Business Opportunities Prosperous and affordable
- Tourism and visitors Diverse and interesting experiences
- Leadership by the Council The leading Council

### **Council Plan 2017-2021**

The Council Plan describes the kind of future the Council is working for, and how Council will do this over four years. This report is consistent with the following goals:

### **People**

- A vibrant, connected and safe community
- A creative city that respects and embraces diversity

### Place

- A healthy, liveable and sustainable city
- A city planned for the future

### **Opportunity**

- A diverse and growing economy
- An open and effective Council

### **Related Council Policies**

This report is in accordance with Council's policy of providing regular information and feedback to Council and the community about Council's financial position.

### Victorian Charter of Human Rights and Responsibilities

All matters relevant to the Victorian Human Rights Charter have been considered in the preparation of this report and are consistent with the standards set by the Charter.

### **Financial Implications**

The financial position of the Council will be monitored against the approved Mid-Year Budget to ensure that Council achieves its financial goals.

### Consultation

The Chief Executive Officer, Directors and staff responsible for reporting were consulted. Council's Finance Department has prepared the financial statements and all other attachments with feedback from Business Unit Managers.

### Conclusion

Greater Dandenong City Council provides a performance report against organisational objectives on a quarterly basis. The reporting procedures and systems in place provide Councillors and the community with the opportunity to monitor progress against Council Plan Indicators and the Annual Budget. This ensures that all resources are managed effectively and accountably. Council will be kept informed of the financial position on a quarterly basis, as is current practice.

### Recommendation

That Council notes the progress against the performance targets outlined in the Council Plan 2017-21 for the period 1 October to 31 December 2020 and the financial report for the period 1 July to 31 December 2020.

### **MINUTE 91**

THIS PAGE HAS BEEN INTENTIONALLY LEFT BLANK

# Strategic Objective 1: A vibrant, connected and safe community *A city with high community participation*

Priority	Action	Progress	Status
Advocate for increased employment opportunities, particularly for vulnerable community groups	Deliver initiatives which enhance the employment capability of young people	Youth and Family Services have delivered an online campaign to promote volunteering as a pathway to enhancing employability. During this quarter there were five posts, with a total reach of 1,434.	
Increase community participation in physical activity through our leisure, recreation and sports services	Develop and deliver a program of festivals and events across the City that are accessible and inclusive, financially and environmentally sustainable and contribute to the creativity and vibrancy of Greater Dandenong	Council's Carols event proceeded as scheduled on 11 December, for the first time as an online event. An estimated 300 people attended the live screening, not including repeat views available on YouTube.  The 2020 New Years Eve event was cancelled due to COVID-19 restrictions and the inability to recreate the event experience online.	
	Develop female physical activities and sportining opportunities as part of the 'Make Your Move' Physical Activity Strategy	The 'This Girl Can' program has now concluded and the acquittal process is underway. The team, in conjunction with Darebin Council, developed two 30-minute printable flyer workouts for two female population groups (65+ years, and CALD). In addition to the progress made on the 'This Girl Can' program the Sport and Recreation team successfully delivered a six-week virtual movement program with Burke and Beyonds female disability group. The session was run for 45 minutes including 25 minutes of movement run by a YMCA personal trainer followed by a 15-minute Q&A with representatives of the South Side Flyers (Women's National Basketball League) on topics such as overcoming fears and tips to make exercise fun. The feedback from the groups was positive and the Sport and Recreation team will now work on further programs and activities for the next 6 months now that COVID-19 restrictions have eased.	

Driority	20:4:0	U G G A A C A G	Status
, and the second		1051033	Caras
	Implement the year one actions of the 'Make Your Move' Physical Activity Strategy	Year one actions for the Make Your Move Physical Activity 2020-30 Strategy have commenced and are progressing well. 21 actions are in progress, one is on hold and six are yet to commence.	
Provide quality and affordable community facilities to enable effective programs and activities for	Manage the new permanent Pop Up Park (constructed by Development Victoria)	The park has been handed over and final works to rectify a drainage issue have been completed. Sport and Recreation is now responsible under licence for the day to day management.	
<u> </u>	Review governance structures for kindergarten and child care provision across the municipality	Maddocks have been engaged to review service and license agreements as part of the governance review.	
		Council officers have provided support to Harrisfield and Dandenong North Kindergartens who have struggled with good governance and having viable committees of management in 2020, this work will continue with the Department of Education and Training in 2021.	
Support agencies, schools, neighbourhood houses and community groups to work collaboratively to build resilience and social connectedness	Develop an Informal Recreation Infrastructure Plan	The draft plan is in the process of being updated to align with the recent Open Space Strategy reserve hierarchy and typology. In addition, discussions with the Open Space team will occur, along with community consultation being planned to be delivered in the next quarter.	
	Develop and implement a governance framework that will guide engagement, support and business with community organisations	A project brief has been developed after engagement with relevant teams. A project scope and brief will be shared with Council for feedback prior to public consultation commencing in early 2021.	
	Finalise the review of the Community Development Framework and Community Hub Framework	The Community Development Framework and the Community Hubs Framework have now been revised and will be submitted for Public Exhibition from 1-28 February. Feedback will then be incorporated, and the frameworks submitted to Council for endorsement.	

Priority	Action	Progress	Status
	Implement a new network approach to connect and build the capacity of Not for Profit agencies through corporate support and sponsorship	Council has facilitated donations of food and material relief from 14 businesses to local relief organisations for distribution to the community. A framework for supporting the connect and build capacity of not for profit agencies through corporate support and sponsorship is under development.	
	Support young people to participate in civic and community activities which enhance leadership and personal development	Youth and Family Services have continued to deliver programs online, including:	
		<ul> <li>Young Leaders program (9 sessions, 100 contacts)</li> <li>Freeza Committee (8 sessions, 50 contacts)</li> </ul>	
		- Game On, online hangout space (4 sessions, 14 contacts)	
		A total of 146 contacts were engaged in the Youth and Family Services COVID-19 research project, through an online survey, focus groups or phone interview.	
		The Young Leaders delivered the 'Healthy Minds, Healthy Lives' event online to 90 students at the Noble Park English Language School. The event promoted wellbeing strategies and ways for newly arrived young people to build connection with the local community.	
		35 young people attended an online Youth Leadership Celebration during Victorian Youth Week, where their community involvement was formally recognised.	

Priority	Action	Progress	Status
Support and promote volunteering through the Council volunteer program. Greater Dandenong Volunteer Resourre Service and community groups	Continue to support, train and recognise Council volunteers through regular training and recognition events	Due to ongoing COVID-19 restrictions Council's volunteers remained inactive over this period with the exception of the Back Your Neighbour Campaign and Online Book Club. These two groups were able to successfully volunteer via virtual volunteering roles. Some Food Services volunteers were offered online training opportunities to maintain skills/knowledge. A fortnightly Volunteer Corner Enews publication was developed to keep volunteers connected and informed. This has been well accessed and appreciated. A Volunteer Victoria State Award nomination for the Karma Knitters project was submitted in September, though not a winner the project was recognised for its positive impact. All Council Volunteers were sent a mayoral letter with a Dandenong Market \$25 gift voucher as a Christmas gift. This demonstrated Council's appreciation to the commitment of volunteers and anticipation of a successful return.	

Priority	Action	Progress	Status
	Increase opportunities for volunteering within Council programs	New on lines roles such as Back your Neighbour and Online Book Club volunteers continued to successfully participate over this period. All other roles were suspended. A review of the current roles was conducted, and a summary of potential new volunteer opportunities post COVID-19 were submitted for consideration. These are:	
		-Alleviating Social Isolation - sharing a meal virtually with an older isolated personHuman Book - improving the understanding of our diverse	
		-Environmental/Citizen Scientist - parks and gardens area - virtual or in person	
		-Sustainability and food security annual Spring fruit harvest sharing	
		-Education support mobile information cabin sustainability/parks and gardens	
		-Social Support - community bus driver for outings/transport for medical appointments	
		-Karma Knitters Annual prewinter project for warm knitted goods to be distributed to vulnerable residents through selected local Not for Profit agencies.	

A safe community

Priority	Action	Progress	Status
	Review the Municipal Emergency Management Plan as part of ongoing continuous improvement activities	On 1 December 2020 new provisions in the Emergency Management Act 2013 came into effect which changed several requirements in relation to the MEMP and MEMPC processes. As such now the MEMPC must update the MEMP to align it with the new legislative requirements and submit this to the Regional Emergency Management Planning Committee (REMPC) in May 2021 for approval. The preparedness for this is underway and we have our next MEMPC meeting on 23 February so we can continue progressing the MEMP update further.	
Increase cyber safety awareness in the community	Maintain eSmart Libraries accreditation to equip libraries and connect communities with the skills needed for smart, safe and responsive use of technology	Library Services continues to retain eSmart accreditation through ongoing education and information provision of cyber safety practices through Library programs, e-news and the Libraries' webpages.	
Promote gender equity, and support the right of women to engage and participate equally in all aspects of community life	Work with young people to address the impact of racism and discrimination	The November meeting of the Greater Dandenong Youth Network addressed the topic of racism and discrimination, with 78 youth work professionals in attendance. Presenters included the Centre for Multicultural Youth and Victorian Equal Opportunity and Human Rights Commission.  In addition, young people have been surveyed about their experiences of racism and discrimination as part of Youth and Family Services' localised COVID-19 research project.	•
Provide information on road laws and ensure road safety messages are culturally sensitive and available in languages other than English	In association with RoadSafe South East, continue to advocate for and promote the implementation of programs that address road laws and highlight the impact that alcohol and drugs (legal and illegal), fatigue, speed, hoon behaviour and distractions have on driving abilities	Some programs have switched to online delivery. Others have been delayed due to COVID-19 restrictions.	

12

### 4.2.1 Q2 Quarterly Performance Report (Cont.)

Priority	Action	Progress	Status
	Provide ongoing funds for local road safety treatments to address priority locations, where the greatest road safety risks are identified (via Council's Local Area Traffic Management prioritisation program)	Civil works of Local Area Traffic Management (LATM) treatments in Keysborough west were completed, with street light upgrades to occur in the next quarter.	
Support those experiencing family violence and work with agencies and Victoria Police to address the	Deliver support services for vulnerable families, including those experiencing or at risk of, family violence	Family Support engaged 78 families and 187 children, providing a total of 2,044 contact hours of support.	
causes	Host the 2020 Walk Against Family Violence	Due to COVID-19 restrictions the 2020 Walk Event was replaced for the first time by an online event focussing on the 16 Days of Activism. Resources developed from previous walk events were used to promote different themes over the course of the 16 Days which kicked off on White Ribbon Day in November 2020. Videos of previous speakers were edited and promoted on Council's social media channels over the period. Engagement with the community was achieved by encouraging photos to be posted and tagged to be shared amongst networks.	

A well informed and connected community with improved health and wellbeing

Status				
Progress	Recruitment for the Anti-poverty officer was finalised in early December and the officer has been supporting the Material Ald consortium emergency food relief work. A 'relief recipients' survey has been developed to understand the primary causes of relief need. This will be conducted with recipients January - Feruary and results collated. The anti-poverty workshop with consortium partners did not take place in October and will be scheduled in February/March. An assessment of the Housing Strategy 2014-24 is complete and provides recommendations for a detailed review process.	The draft Reconciliation Action Plan (RAP) was endorsed by Council at the 14 September Council meeting and forwarded to Reconciliation Australia (RA) for final comment and conditional endorsement. In late December, RA advised they have reviewed the plan against Innovate RAP requirements and there is minor feedback to incorporate prior to their endorsement. These adjustments have been made and the RAP is expected to be conditionally endorsed by late January. Recruitment for a RAP officer has commenced and an appointment is expected in late January.	A total of 265 (19 per cent) of the food premises received their annual inspection in Q2, with 91 per cent complying with food safety requirements. Due to the pandemic, inspection rates have been impacted.	During the pandemic, the public health unit has continued to represent GDD on a number of management teams including DHHS COVID incident management teams, working closely with DHHS and EACH on the High Risk Accommodation Response operation.
Action	Continue to develop and implement an Anti- Poverty Collective Impact program with high community and cross Council departmental involvement	Endorse and begin implementation of the next Reconciliation Action Plan	Maintain food safety - inspect all registered food premises annually and report outcomes	Maintain food safety and public health standards - interact with other local authorities, Environmental Health Professionals Australia (EHPA), Municipal Association of Victoria (MAV), and State Government departments
Priority	Enhance the health and wellbeing of our community through key initiatives of the Community Wellbeing Plan

Progress	The 2020-21 Waste Education Plan was developed and is in place.  The COVID-19 pandemic has restricted its delivery and the introduction of a webinar style delivery for programs has been	initiated and is currently under development for expansion.  Work continues on the implementation of the Plastics Policy, with multiple meetings held with relevant internal Council units to discuss specific impacts and potential barriers or concerns. However, due to COVID 19 this has been delayed with many community organisations not operating. It is expected that implementation will occur at a more rapid pace in Q3 as relevant community organisations reopen.	The Sustainability Strategy continues to be progressively implemented, with several of the major deliverables now completed or commenced. The five year review is currently underway and is expected to be finalised in Q3.	Development of the Sustainability Festival (rebranded as Forever Fest) and Awards is progressing well and on track for delivery in May and June 2021, as expected. The detailed project brief has now been completed, and 90 per cent of the program has been scheduled.
Action	Develop and deliver a 2020-21 Waste Education Program	Implement the Greater Dandenong Plastics Policy	Implement the Greater Dandenong Sustainability Strategy 2016-30 and undertake the five year review	Undertake the annual Sustainability Festival and Awards
Priority	Engage with the community to increase their awareness of the environment and sustainability			

Delayed — Completed — Not Due To Start — On track

### 4.2.1 Q2 Quarterly Performance Report (Cont.)

Priority	Action	Progress	Status
Improve diversion from landfill rates	In conjunction with the Metropolitan Waste Resource and Recovery Group, participate in the current EOI process and report back to Council at the key milestones that will inform the final tender stage	Stage 2 of the Advanced Waste Processing Services procurement process is well advanced with preparations to conduct competitive dialogue with the 3 short-listed tenderers in early 2021.  A briefing and formal report to Council will be provided in the first quarter of 2021 following the competitive dialogue stage.	
	Investigate the implications in implementing the Circular Economy Policy recommendations	A Waste Services briefing was provided to Council in August 2020 outlining a number of council initiatives aligned with the circular policy. Since that time a "Transition Plan" has been submitted to the State Government detailing councils plans to move to a FOGO service in April 2021 and a fourth bin for the collection of household glass in 2026.	
	Offer a Food Organics Garden Organics (FOGO) service to our community as a means to divert this valuable resource from landfill	Council is preparing for the introduction of FOGO in April 2021 with the development of a Communication and Engagement Plan, inclusive of a suite of letters for two mailouts to households planned for early 2021 and other collateral to generate awareness and understanding across the community.	
	Review the recycling charges, whilst considering opportunities to introduce an incentive for increased recycling	A preliminary investigation has been undertaken when developing the Long Term Financial Strategy (LTFS) estimates and will be refined as a part of the 2021-22 budget process.	
Protect and enhance the ecological value of land within the municipality	Finalise the Urban Forest Strategy	A draft Urban Forest Strategy has been completed and presented to Councillors. It is due to go out for public consultation in February 2021.	
	Implement the Greater Dandenong Green Wedge Management Plan 2015-35	The implementation of the actions of the Greater Dandenong Green Wedge Management Plan 2015-35 are undertaken on an ongoing basis during the year.	

- Delayed - Completed - Not Due To Start - On track

Priority	Action	Progress	Status
	Implement Year Three of the Urban Tree Strategy 2018-23	The 2020 tree planting program is complete. Trees are now under maintenance. Due to COVID-19 restrictions community tree planting days have been cancelled and instead planting was undertaken by redeployed Council staff. Redeployed Council staff have finished tree planting and returned to their substantive positions.	
Provide proactive waste 'pick up' throughout the municipality combined with a public education campaign	Monitor materials recycling and green waste processing sites across the municipality	There were approximately six audits/inspections of recycling and green waste facilities. It is anticipated that this action plan will achieve further excellent results due to councils commitment to deliver the High Risk Waste Sites Local Government project plan. This action plan is in agreement with DELWP, the City of Casey and Kingston City Council.	

- Delayed - Completed - Not Due To Start - On track

A city that prepares for climate change

Priority	Action	Progress	Status
Develop and complete a Climate Change Strategy	Determine future approach re: ESD 2.0 (implementing zero carbon into the planning scheme)	This action will commence in February 2021 following the next meeting of CASBE, when next steps and timelines will be discussed.	
	Develop an Electric Vehicle Fleet Transition Plan	A specialist consultant is still to be appointed to prepare the Electric Vehicle Plan which is anticipated for completion during Q3 and Q4.	
	Embed climate emergency into decision making and governance processes	Work on embedding consideration of climate change into the Council Plan 2021-25 is underway. Preparation for and understanding of how a changing climate may impact both Council and the Greater Dandenong community in years to come is a key task, hence why incorporation into the Council Plan is so important. Sustainability Planning officers are working closely with the Council Plan team on development of this, and have involved members of the Greater Dandenong Community Sustainability Advisory Committee in the public consultation process. Further detailed development of relevant sustainability and environmental sections of the Council Plan will occur in Q3.	
	Finalise and begin implementing the Climate Change Strategy and Action Plan	Implementation of the Climate Emergency Strategy and Action Plan has now begun. The priority tasks for implementation in 2021 are a program of Council staff and Councillor climate change awareness training, development of a Community Engagement and Mobilisation Plan, and capacity building of Council's internal Climate Emergency Implementation Group which will provide manager oversight of implementation of other key activities across the entire organisation.

Infrastructure that supports people and business

Priority	Action	Progress	Status
Increase the length and coverage of the shared path network	Deliver Council's Capital Works Program	The program is progressing well with two thirds of projects under construction or committed and about to start.	
	Enable and showcase the opportunity for social activity on local streets, for example street parties, temporary playgrounds and events	The likelihood of a roll out within 2020-21 has been reduced due to COVID-19, however the background documentation/process is well developed. The use of the process for extended outdoor dining has been popular with local businesses.	
	Finalise the Toilet Strategy to map out where there needs to be new or upgraded public toilets	The Public Toilet Strategy has been out for public consultation and responses are being compiled for presentation to Council.	
	Implement the Active Transport Infrastructure Priority Program improving pedestrian and cycling infrastructure	Design work is being undertaken for the Hammond Road path between Dalgety Street and Kirkham Road.	
	Undertake the road resurfacing program	This program is proceeding well with the return of contractors from the Christmas industry shut down.	

- Delayed - Completed - Not Due To Start - On track

### Strategic Objective 4: A city planned for the future

# An adequate supply of residential, commercial and industrial development

Priority	Action	Progress	Status
Appropriately zone sufficient land for ongoing industrial growth and development in the city	Process the Planning Scheme Amendment for the Sandown Master Plan	The processing of the Planning Scheme Amendment for the Sandown Master Plan has been delayed pending the provision of further information by the Melbourne Racing Club.	
	Town Planning referral from Engineering. Compliance with statutory timeframes as defined by the Subdivision Act	Total applications received = 133, with a total of 122 completed within the required timeframe. Percentage completed = 92 per cent	
	Translate the existing Local Planning Policy Framework and Municipal Strategic Statement to the Planning Policy Framework in conjunction with DEWLP	Translate the existing Local Planning Policy Framework and Municipal Strategic Statement to the Planning Policy Framework Astatement to the Planning Policy Framework Framework in conjunction with DEWLP is continuing to be delayed as Council waits on the provision of draft material by DELWP to commence the project.	
Undertake a review of the number of dwellings constructed in each residential zone to ensure the aims of the Municipal Housing Strategy are being met	Review the Greater Dandenong Housing Strategy	The review of the Greater Dandenong Housing Strategy is progressing with the recommendation on the proposed methodology for revision to be presented to the Executive Management Team in early 2021. The review of the number of dwellings constructed in each residential zone will occur after the methodology is agreed upon.	

- Delayed - Completed - Not Due To Start - On track

Assets planned to meet future community needs

Priority	Action	Progress	Status
Advocate for improved transport options	Develop a Multi Modal Transport Infrastructure Plan for Noble Park Activity Centre	A draft document is in preparation. External input from the Department of Transport is to be scheduled.	
	Finalise a Multi Modal Transport Infrastructure Plan for Dandenong Activity Centre	The Department of Transport work in this space has been delayed. In particular, a Movement and Place review.	
	Launch the Public Transport Advocacy Statement and advocate in accordance with the Statement	The statement has been launched and further advocacy in alignment with this will be scheduled with the new Council.	
Investigate the development of a municipal wide developer	Complete the Springvale Community Hub Project	The Hub is completed with a few minor defects being attended to and a formal community opening scheduled for February.	
contributions plan for application to new development across the city	Continue planning for a Dandenong Community Hub by developing the business case and concept plans	A project brief will be prepared for Concept Plans and a Business Case. The project is scheduled to be reviewed by Council in the first quarter of 2021. Pending that review, the project work still aims to be concluded by the end of the financial year.	
	Continue to advocate for the proposed Dandenong Sports and Events Centre, as south east Melbourne's home for elite sporting competitions, major events, concerts and community festivals	The Melbourne City Football Club relocation to south east Melbourne was announced. The next stage of planning for DSEC is proposed to take place in collaboration with Melbourne City FC and the Victorian Government.	
	Finalise the design and commence construction of the Keysborough South Community Hub	Detailed design is nearing completion and contract documentation is scheduled to commence in the coming weeks.	
	Review and implement the Municipal Early Years Infrastructure Plan to embed planning for three year old kindergarten	The development of Kindergarten infrastructure and services plans for 3 year old Kindergarten are still in progress with continued input from DET

Support, promote and facilitate local social enterprises	Develop and deliver a program for social enterprises	The allocated funding for the Social Enterprise Program was redistributed to benefit the Business Grant Program. This was the best use of Council funds in this time of need. Whilst the financial support was reduced, it has not stopped productive discussions in this space. The monthly meetings between key internal Council units continues to strengthen and see some worthwhile ideas shared and explored. The 2020 Talking Business Magazines have included a social enterprise story in every issue. This will continue into 2021 with a social enterprise already identified for the March edition of the magazine. The EDU has completed training and since received access to Council's tender portal, Vendor Panel, which will allow greater analysis of the status of social enterprises in our community. Looking ahead, meetings have been set for 2021 between Council and The Western Program Alliance at McConnell Dowell in regards to engaging social enterprises in the latest Level Crossing Removal Project.

Net surplus (deficit)		13,967	5,328	8,639	22,990	29,758

#### Overview

The surplus at 31 December 2020 is favourable to budget by \$8.64 million due mainly to the following year to date variances:

- Materials and services (\$4.79 million) due to timing of works combined with a delay in receipt of
  invoices (Engineering Services \$3.44 million) and lower than anticipated expenditure combined with
  a delay in receipt of invoices (Corporate Services \$463,000, Community Services \$458,000 and City
  Planning, Design and Amenity \$294,000).
- Employee costs (\$3.23 million) due to delay in recruitment and commencement of grant funded projects mainly in Community Services (\$1.89 million) and City Planning Design and Amenity (\$477,000).
- Grants operating (\$1.13 million) due to receipt of unbudgeted grants mainly in Family Day Care which is offset by higher payments to educators (Community Services \$914,000) and a Local Government Capacity Building grant (City Planning Design and Amenity \$224,000).

Financial Report for the period 1 July 2020 – 31 December 2020

#### COVID-19 and 2020-21 impacts

Council's 2020-21 finances have been significantly impacted by COVID. In its original 2020-21 Budget, Council allocated \$4.6 million across various areas relating to adverse impacts, with a residual contingency remaining of approximately \$600,000.

A detailed review of additional COVID impacts and assumptions was performed during the Mid-Year Budget Review. This review found COVID stage four restrictions have had a significant adverse impact on Council, estimated at a further \$5.57 million. These COVID items, combined with other known adjustments since adoption of the 2020-21 Annual Budget were reflected in the Mid-Year Budget Review. In order to balance the 2020-21 Budget, capital project deferrals of \$4.40 million were included.

The more significant COVID impacts adjusted in the Mid-Year Budget Review comprise:

- Parking fines, ticket machine income and permits (\$2.13 million)
- Lower interest returns on investments (\$700,000).
- Leisure centres impact (\$591,000).
- Lower rental and venue hire income due to rental waivers and required facility closures (\$477,000).
- Additional allocation to the business grants program (\$290,000)
- Deferral of penalty rate interest payable on outstanding rates (\$225,000).
- Reduction in supplementary rates income due to slowing trend (\$200,000).
- Financial Assistance Grants funding to be received via the Victoria Grants Commission (\$189,000).
   Outcome lower due to COVID impact on investment returns affecting the available pool fund.
- Continuation of Council's COVID rate waiver package (\$150,000).

The financial impact of COVID will continue to be closely monitored and any permanent variances identified subsequent to the Mid-Year Budget Review will be reflected in the full year forecast. The forecast review is expected to be completed in March 2021.

Financial Report for the period 1 July 2020 - 31 December 2020

#### **Notes to the Financial Statements**

#### A. Accounting Policy Notes

The financial report is prepared on the principles of accrual accounting. Accrual accounting recognises income when earned and expenditure when incurred, regardless of whether cash settlement has taken place. The basis of recognition of major income and expenditure in these statements are defined below.

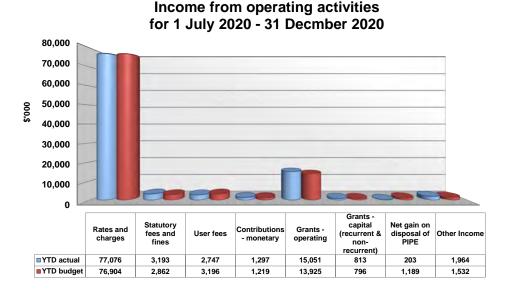

- Rate revenue: Rate revenue (excluding supplementary rates) is accrued evenly over the year, although cash is received in quarterly instalments or a lump sum, depending on how the ratepayer chooses to pay. Rate revenue in the Income Statement is a monthly accrual of the rates determined for the year in July.
- 2. Grants revenue: Council receives two types of grants, namely a General Purpose Grant (Financial Assistance Grant funding from the Victoria Grants Commission) which is not tied to any programs and Special Purpose Grants for various programs. In accordance with new Accounting Standards, AASB 15 'Revenue from Contracts with Customers' and AASB 1058 'Income of Not-For-Profit Entities', grant income is now generally recognised in the Income Statement to the extent of satisfied performance obligations. Alternatively, grant funding which does not have sufficiently specific performance obligations is recognised as income when the cash is received. Any grant income relating to unsatisfied performance obligations is recognised as unearned income in the Balance Sheet at balance date. Grants comprise of operating and capital (recurrent and non-recurrent).
- 3. Fees and charges: Most fees and charges are recognised when cash is received. Generally, where Council raises a debtor's invoice, income is recognised at the point of the invoice and not when cash is received. Car parking permit income relating to a future period at balance date are recognised as unearned income in the Balance Sheet.
- 4. Contributions cash: Cash contributions are essentially from developers towards open space works. These monies are treated as income when received. Council is obligated to spend these monies for the purpose for which they are given by the developers. Council also receives external contributions for other capital projects. Cash contributions received are held in reserves and treated as "restricted cash" until they are spent (see note 9 below).
- Employee costs: Salaries expenditure is based on fortnightly salaries paid and accruals for salary on-costs such as leave entitlements, superannuation and workcover.
- 6. Capital expenditure: The two broad areas of capital are the capital improvement program (CIP) (which includes infrastructure and major projects) and 'other' which includes fleet, computers, plant and furniture. Expenditure is recognised as capital if it is significant in value and results in assets which have a useful life in excess of at least one year.
- 7. Budget information: The Original Budget information contained in the report is the budget approved by Council on 22 June 2020. The year to date budget in this report reflects the Mid-Year Budget as adopted by Council on 14 December 2020. The Mid-Year Budget represents the adopted budget incorporating net carry forward capital and operating amounts from 2019-20 and any adjustments identified since the 2020-21 Original Budget was approved in June 2020.
  - In accordance with Section 97(3) of the Local Government Act 2020 the Chief Executive Officer is of the view that a Revised Budget is not required for the financial reporting period 31 December 2020. No variations have been made to the declared rates and charges or loan borrowings other than what has been approved in the 2020-21 Adopted Budget. Council's financial position is sound with a working capital ratio of 1.67 as at 31 December 2020.
- 8. Cash Flow Statement: Reflects the actual cash movements during the year.
- 9. Restricted cash: These are monies set aside for specific purposes and are not readily available for day to day operations or general capital works. They include funds set aside towards meeting long service leave commitments (required by government regulations), statutory reserves (eg. open space contributions) and other funds that are committed towards specific purposes.

Financial Report for the period 1 July 2020 - 31 December 2020

# **B1. Operating Income**

The chart below shows the categories of operating income against their respective budgets (excluding non-cash accounting entries such as non-monetary contributions or gifted assets).

Income for the period ended 31 December 2020 is favourable against budget by \$721,000. This is primarily due to the following:

**Grants – operating (\$1.13 million favourable)** – Additional funding received for Family Day Care (offset by higher payments to educators, \$914,000) and Child First (\$188,000), combined with an unbudgeted grant from the Department of Environmental, Land, Water and Planning (will be offset by grant expenditure, relates to High Risk Waste Sites Local Government Capacity Building Grant \$224,000).

Other income (\$432,000 favourable) – Unanticipated car parking fringe benefits tax refund (Corporate Accounting \$262,000) and contributions for rectification works (Parks Services \$85,000), combined with higher than anticipated rental income to date (Property Management Administration \$78,000).

**Statutory fees and fines (\$331,000 favourable)** – Favourable variance due to better than anticipated parking infringement income (Parking Management \$303,000) and sub-divisions and plan checking income to date (Transport and Civil Development \$105,000). Both budgets were reduced in the Mid-Year Budget due to COVID impacts.

The above favourable variances in income are partly offset by an unfavourable variance in:

**User fees (\$449,000 unfavourable)** – Mainly due to a reduction in the Family Day Care (FDC) administration levy fee income caused by COVID which is offset by higher FDC grant subsidy income (Community Services \$329,000).

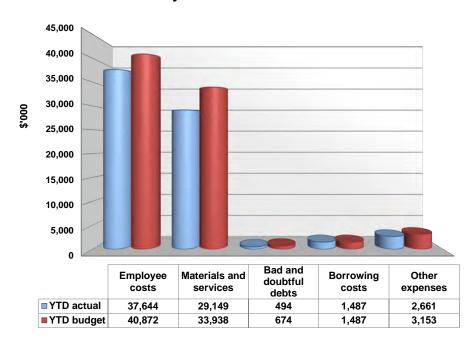

Financial Report for the period 1 July 2020 – 31 December 2020

# **B2. Operating Expenditure**

The chart below shows the categories of operating expenditure against their respective budget (excludes non-cash accounting entries including depreciation, amortisation, asset write offs and prior year capital expenditure unable to be capitalised).

# Expenditure from operating activities for 1 July 2020 to 31 December 2020

Actual expenditure at 31 December 2020 against the budget is favourable by \$7.92 million. The major variances are in employee costs and materials and services.

**Materials and services (\$4.79 million favourable)** – The major items contributing to this favourable variance are:

- Contract services (\$2.35 million) mainly due to timing of works and delay in receipt of invoices in Roads and Drains and Waste Management, combined with a temporary reduction in services and expenditure in Building Maintenance due to COVID restrictions (Engineering Services \$2.78 million).
- Materials, maintenance and services (\$927,000) mainly due to delay in commencement of works and receipt of invoices (Community Services \$493,000, Engineering Services \$206,000 and City Planning, Design and Amenity \$154,000).

Financial Report for the period 1 July 2020 – 31 December 2020

- Consultants, professional services (\$629,000) due to delay in commencement of programs (Community Services \$194,000, Engineering Services \$173,000 and Corporate Services \$173,000).
- Administration costs (\$564,000) lower than anticipated expenditure across a range of accounts including promotions, community education, postage/courier, printing/stationery, Council publications, fuel, postage, advertising and events (Community Services \$313,000, Engineering Services \$105,000 and Corporate Services \$94,000).
- Utilities (\$243,000) mainly due to lower than anticipated electricity and water costs to date because of facility closures as per COVID restrictions and a delay in receipt of invoices (Engineering Services \$112,000 and Corporate Services \$100,000).

**Employee costs (\$3.23 million favourable)** – This favourable variance is mainly due to staff recruitment occurring later than planned combined with a delay in commencement and recruitment of grant funded projects (Community Services \$1.87 million, City Planning, Design and Amenity \$477,000, Working for Victoria Fund \$328,000, Engineering Services \$232,000 and Corporate Services \$209,000).

Of the \$3.23 million favourable variance across all directorates, \$1.73 million relates to grant funded programs which require an acquittal (Community Services \$1.40 million and Working for Victoria Fund \$328,000).

Other expenses (\$492,000 favourable) – Favourable variance due to delay in community grant funding agreements as a result of required COVID-19 clause adjustments (Community Services \$221,000), savings in Council's contribution to the Dandenong Night Market which has been cancelled due to COVID and delay in Council's Melbourne Food and Wine Festival contribution (Corporate Services \$117,000).

Financial Report for the period 1 July 2020 - 31 December 2020

# C. Balance Sheet

Council's net assets are valued at \$2.26 billion at 31 December 2020.

C1. Current assets (cash and other assets that can be readily converted to cash)

Cash and cash equivalents (\$165.99 million) – Represent the amount held by Council in cash or term deposits. Please note that this amount includes \$124.31 million of funds "restricted" for various purposes. These are detailed in the notes to the cash flows that follow in **section D** and a graphical presentation in **Appendix 2**.

Funds are invested in accordance with Council's Investment Policy. The policy requires Council to invest with prudence, consideration of acceptable risks and relevant legislation.

The details of Council's investments are contained in **Appendix 2**. In selecting investment products, Council has paid due consideration to risk by investing in products that have a minimum Standard and Poor's (S&P) rating of 'A'.

**Financial assets (\$nil)** – Decrease in financial assets from 30 June 2020 reflects the maturity of \$2 million in investments placed in Green Tailored Deposits with a term of greater than three months (matured in August 2020).

#### Trade and other receivables (\$88.46 million) - This balance includes:

- Rate debtors \$71.55 million. The collection rate is monitored closely with 44.53% of 2020-21 rate
  income levied still to be collected at 31 December (compared to 43.93% at the same time last year).
  Rate revenue (excluding supplementary rates) is accrued evenly over the year, although cash is
  received in quarterly instalments, nine direct debit payments or a lump sum, depending on how the
  ratepayer chooses to pay. Rate revenue in the Income Statement is a monthly accrual of the rates
  determined for the year in July.
- Infringement debtors of \$9.05 million (net of provision for doubtful debts).
- General debtors \$7.86 million (net of provision for doubtful debts).

#### Other assets (\$751,000) - This balance includes:

- Prepayments \$307,000 expenses prepaid at 31 December 2020.
- Other deposits \$309,000 represents \$75,000 deposit for Metropolitan Waste and Resource Recovery Group organic waste processing contract and \$234,000 deposit paid to South East Water for provision of water and sewerage assets at 5 Mason Street, Dandenong.
- Accrued income \$135,000 income earned but cash not yet received at 31 December 2020.

Non-current assets classified as held for sale (\$nil) – The decrease from 30 June 2020 reflects the settlement of the sale of a car park land asset at 2 Mason Street, Dandenong in December 2020.

Financial Report for the period 1 July 2020 – 31 December 2020

#### C2. Non-current assets

Property, infrastructure, plant and equipment (\$2.20 billion) – Includes Council roads, drains, buildings, plant and other fixed assets. These values are reflected after recognising the depreciation allowed against each asset.

**Investment property (\$11.81 million)** is separately classified from 'Property, infrastructure, plant and equipment' in accordance with Australian Accounting Standards. Any adjustment to the fair value of these assets is recorded in the Comprehensive Income Statement and these assets are not depreciated.

Right-of-use assets (\$708,000) – Represents leased (right-of-use) assets in accordance with the new Accounting Standard AASB 16 'Leases'. Includes property, fleet, IT and office equipment that have been leased under ordinary lease arrangements. These values are reflected after recognising the amortisation expense.

**Intangible assets (\$94,000)** – Represents computer software assets that were transferred from 'Property, infrastructure, plant and equipment' to 'Intangible assets' in 2019-20. These values are reflected after recognising the amortisation expense.

Other financial assets (\$nil) – The decrease in this item reflects Council's previous share-holding of \$230,000 in Regional Kitchen Pty Ltd which will not be returned.

**Trade and other receivables (\$305,000)** - \$232,000 of this balance represents Council's share of funds held in trust by Whitehorse City Council relating to the former Narre Warren landfill site combined with a \$73,000 refundable bond paid to Community Chef (which is expected to be returned to Council).

#### C3. Current liabilities (debts due to be repaid within 12 months)

**Trade and other payables (\$2.33 million)** – This balance includes trade creditors arising from operations and capital works.

**Trust funds and deposits (\$8.04 million)** – Trust funds and deposits includes other refundable monies in respect of:

- Other deposits (\$3.10 million), mostly relating to asset protection bonds (\$2.14 million), drainage work deposits (\$530,000) and contractor deposits (\$221,000).
- Road deposits (\$2.45 million).
- Fire services property levy funds collected by Council on behalf of the State Government, but not
  yet paid on to the State Revenue Office (\$1.14 million). These monies are remitted to the State
  Revenue Office in accordance with legislative timeframes (28 days after each quarterly rate
  instalment date).
- Landscape deposits (\$904,000).
- Open space contributions (\$446,000).

The significant decrease in this line item from the 2020-21 Original Budget to Mid-Year Budget is due to a reclassification of Developer Contribution Plan (DCP) liabilities from 'trust funds and deposits' to 'unearned income' as per the note below relating to 'unearned income'.

Financial Report for the period 1 July 2020 – 31 December 2020

**Unearned income (\$44.70 million)** – Represents income not yet earned in accordance with the new Accounting Standards AASB 1058 'Income of Not-For-Profit Entities' and AASB 15 'Revenue from Contracts with Customers' based on specific performance obligations that were not complete at 31 December 2020 in respect of:

- Developer Contribution Plan liabilities (DCP) (\$30.00 million)
- Grants operating (\$8.31 million)
- Grants capital (\$6.32 million)
- Other (\$70,000).

**Provisions (\$21.17 million)** – This balance represents the provision for employee entitlements and landfill restoration works.

- Employee entitlements:
  - o Long service leave entitlements \$11.64 million.
  - o Annual leave entitlements \$8.48 million.
  - o Rostered days off (RDO) \$560,000.
- Landfill provision \$489,000 provision for the restoration and aftercare management of the former Spring Valley landfill site (closed). The former closed landfill is owned by the Council and is used as recreational open space. Council's share is 19.88% of the total future estimated costs.

**Interest-bearing liabilities (\$1.65 million)** – Represents the remaining repayments of long-term borrowings to occur during 2020-21.

**Lease liabilities (\$571,000)** - Represents the lease repayments in respect of right-of-use assets that are payable during 2020-21 and mainly comprise of property and information technology related lease obligations.

#### C4. Non-current liabilities (debts due to be repaid in future years)

**Provisions (\$1.63 million)** – Represents the provisions estimated to be paid beyond the 2020-21 financial year and comprises long service leave entitlements for employees (\$1.11 million) and landfill provision for restoration of Spring Valley landfill site (\$515,000) (Council's share is 19.88% of the total future estimated costs).

**Trust funds and deposits (\$237,000)** – Represents deposits that are payable beyond the 2020-21 financial year and comprises landscape deposits of \$212,000 and contractor deposits of \$25,000.

**Interest-bearing liabilities (\$56.64 million)** – Comprises the amount of outstanding borrowings to be repaid beyond the next 12 months.

**Lease liabilities (\$174,000)** – represents the amount of lease payments in respect of the right-of-use assets to be repaid beyond the next 12 months and mainly comprise of property and information technology related lease obligations.

Financial Report for the period 1 July 2020 - 31 December 2020

#### Net assets and equity

Net assets - Represents the difference between total assets and total liabilities. It is the Council's net worth to the City's ratepayers.

Reserves - Includes both statutory reserves (S) and discretionary reserves (D). The statutory reserves apply where funds are gained from the application of legislative requirements to contribute - and where expenditure of the funds is not entirely discretionary (i.e. the funds need to be used for certain expenditure only). The reserves listed below are explained in the notes to the cash flows that follow.

The <u>discretionary</u> reserves are:
Major projects reserve

- Insurance fund reserve
- Council funded Development Contribution Plans reserve
- Spring Valley landfill rehabilitation reserve
- Springvale Activity Precinct Parking and Development reserve
- Dandenong Activity Precinct Parking and Development reserve
- Native re-vegetation reserves
- Keysborough South Maintenance Levy reserve
- General reserve (Aged Care)
- Future maintenance reserve

#### The statutory reserves are:

- Open space planning, development and improvements
- Open space land acquisitions

#### D. Cash Flow Statement

Cash and investment holdings total \$165.99 million at 31 December 2020, an increase of \$11.43 million since 30 June 2020. Total cash and investment holdings are made up of operating cash (\$41.68 million) and restricted cash (\$124.31 million).

Please refer to the next page for a detailed listing of Restricted Cash items, which are set aside for specific purposes.

Cash flows from operating activities – net inflow of \$40.86 million.

The major inflows are rates \$87.43 million, grants \$19.76 million, trust funds and deposits taken \$14.90 million, user fees \$3.18 million, monetary contributions \$2.92 million and statutory fees and fines \$2.54

The major outflows are materials and services \$40.50 million, employee costs \$37.56 million and trust funds and deposits repaid \$15.02 million.

Trust funds and deposits taken and repaid mainly relate to fire services property levies (FSPL). The remittance of the FSPL and FSPL levy interest amounts are made to the State Revenue Office (SRO) in four payments in accordance with Section 41(1) of the FSPL Act. An instalment is due and payable to the Commissioner of State Revenue 28 days after the due date of rates instalments. Council collects FSPL on behalf of the State Government.

Financial Report for the period 1 July 2020 – 31 December 2020

Cash flows from investing activities - net outflow of \$26.05 million, including:

- \$29.30 million for capital works expenditure. The detailed capital works schedule is included in this report as Appendix 1. Please note the difference between the two capital expenditure amounts is due to the movement in capital trade creditors at the start and end of the reporting period. Appendix 1 is on an accrual basis.
- \$2.00 million of proceeds from funds held at 30 June 2020 in tailored deposits with a maturity of greater than three months.
- \$1.25 million proceeds on asset sales represents \$1.00 million from sale of car park land asset at 2
  Mason Street Dandenong as part of a three-way land swap with Development Victoria and \$246,000
  from the fleet replacement program.

Cash flows from financing activities – outflow of \$3.37 million. Council incurred \$1.49 million in finance costs on its borrowings and repaid \$1.61 million of existing loans. In accordance with the new Accounting Standard AASB 16 'Leases', Council incurred \$2,000 in finance costs on leases and repaid \$269,000 of its leased liabilities as at 31 December 2020.

**Restricted cash** - Restricted cash represents funds that are set aside for specific purposes, as detailed in the following tables.

Туре	31 Dec 2020	Notes
Reserve funds	\$'000	
Council funded Development Contribution Plans (DCP) reserve	20,108	Reserved for specific expenditure in accordance with the published DCP.
Open space – planning, development and improvements	9,938	Reserved for enhancing the City's open space by planning, development and improvements.
Open space – acquisitions	1,035	To fund acquisitions of new open space land.
Major projects reserve	25,946	Holds funds realised from the sale of Council's property assets or surplus Council funds that will be utilised for investing in other properties or funding future major projects.
Keysborough South Maintenance Levy	2,809	Reserved for specific maintenance expenditure relating to this area.
Spring Valley landfill rehabilitation	760	This reserve is for the rehabilitation of the Spring Valley landfill site.
Re-vegetation reserves	384	These funds are to meet native re-vegetation requirements on Council's reserves.
Insurance fund reserve	955	This fund has been created to meet large and unexpected policy excesses on multiple insurance claims.
Springvale Activity Precinct Parking and Development reserve	236	This reserve is to fund development in the Springvale Activity Centre.
Dandenong Activity Precinct Parking and Development reserve	1,518	This reserve is to fund development in the Dandenong Activity Centre.
General reserve (Aged Care)	334	Funds set aside for the aged care reforms.
Future maintenance reserve	206	Contribution funds for future works to address level crossing removal authority defects.
Total reserve funds	64,229	

Financial Report for the period 1 July 2020 – 31 December 2020

Туре	31 Dec 2020	Notes
Employee provisions	\$'000	
Long service leave	12,757	Funds set aside to meet long service leave commitments.
Annual leave and other	9,039	Funds set aside to meet annual leave and rostered days off (RDO) commitments.
Employee provisions	21,796	
	<b>A</b> 1000	
Trust funds and deposits	\$'000	
Fire services property levy (FSPL) collected and due	1,137	Payable to State Revenue Office – legislative requirement.
Open space contributions	446	Pending completion of works.
Landscape deposits	1,116	Pending completion of works.
Road deposits	2,453	Pending completion of works.
Other trust funds and deposits	3,130	Refundable upon finalisation of programs.
Total trust funds and deposits	8,282	
Other restricted funds	\$'000	
	•	
DCP unearned income	30,007	Pending completion of works by developers.
Other restricted funds	30,007	
Total restricted cash	124,314	

Financial Report for the period 1 July 2020 – 31 December 2020

# **Statement of Capital Works**

Total capital expenditure at 31 December 2020 was \$25.11 million. A further \$23.45 million was committed at the end of December. The following **CIP Expenditure Report** contains the expenditure status of each of the approved capital projects.

The timing of cash outflows and project completion can differ for capital projects. Commentary on the status of each project with major year to date variances is provided below (i.e. variances greater than \$300,000). Please note that the variances detailed below are the total of all asset classes by capital project whereas the Capital Expenditure report details the variances separately by asset class and capital project.

#### Plant and equipment

• 1445 Fleet Purchases (\$424,000 favourable) – Lower than anticipated fleet purchases to date.

Financial Report for the period 1 July 2020 – 31 December 2020

# **Appendix 2**

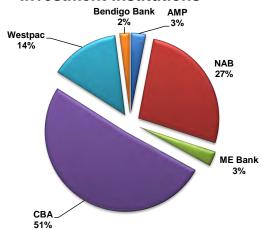

# Investment Analysis

Financial Report for the period 1 July 2020 – 31 December 2020

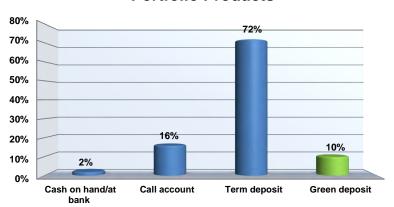

# **Cash and Investments**

# **Investment Institutions**

Policy limit - no single institution shall comprise more than 25% of the total investment portfolio, unless the investment is with Council's banker (CBA).

# **Portfolio Products**

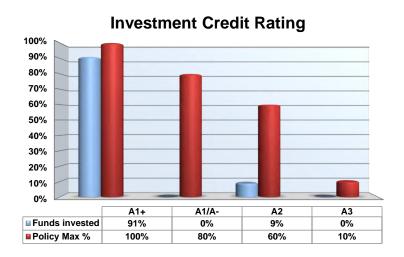

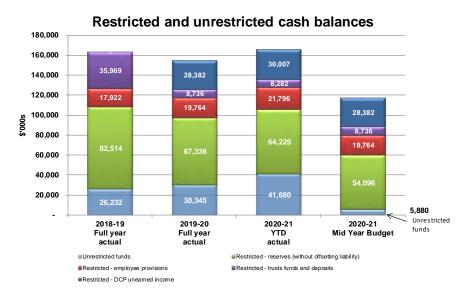

**Note: Green deposit:** 10% (or \$17.16 million) was invested at 31 December 2020 in investments that are certified against Climate Bonds Initiative – Climate Bonds Standard, the same certification as green bonds.

Financial Report for the period 1 July 2020 – 31 December 2020

# **Cash and Investments**

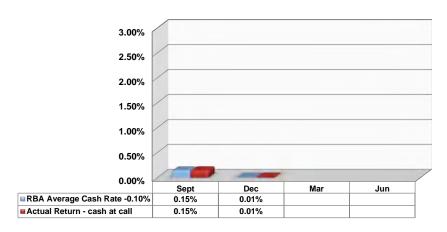

Note - DCP unearned income was previously classified in trust funds and deposits (2018-19 and prior).

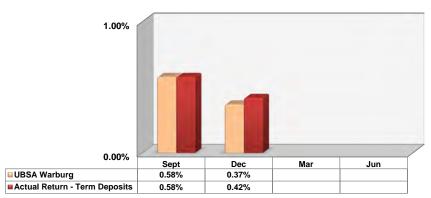

Financial Report for the period 1 July 2020 – 31 December 2020

# **Benchmark Indicator - Cash at Call**

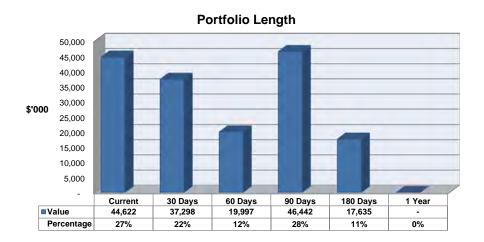

# **Benchmark Indicator - Term/Green Deposits**

Financial Report for the period 1 July 2020 – 31 December 2020

# **Greater Dandenong Business Group**

#### Expenditure

**Note 1** Employee costs (\$111,000 favourable) – The favourable variance is primarily due to vacant positions (Economic Development \$101,000). Any permanent savings will be reflected in the 2020-21 full year forecast.

**Note 2 Materials and services (\$56,000 favourable)** – The majority of this favourable variance is due to delay in receipt of external contractor invoices (Economic Development \$28,000 and Activity Centres Revitalisation \$15,000).

Financial Report for the period 1 July 2020 - 31 December 2020

#### **Corporate Services Directorate**

#### **Income**

**Note 3** Other income (\$122,000 favourable) – Higher than anticipated rental and recovery income to date (Property Management Administration \$78,000 and Emergency Management \$38,000).

#### **Expenditure**

**Note 4** Employee costs (\$208,000 favourable) – The favourable variance is primarily due to vacant positions and a reduction in the use of casual staff and overtime (Civic Facilities \$90,000, Call and Service Centres \$68,000 and Records Management \$23,000), reduced hours for staff (Governance \$17,000), a delay in corporate training (Organisational Development Executive \$48,000) and the delivery of programs (Occupational, Health and Safety \$16,000).

This favourable variance is partly offset by the retirement of a staff member (Property Revenue \$25,000) and staff yet to take leave (Information Technology Executive \$30,000, Financial Services \$15,000 and Corporate Services Executive \$10,000).

Note 5 Materials and services (\$463,000 favourable) – Favourable variance due to delay in receipt of invoices, commencement of projects and lower than anticipated printing and stationery, postage and storage and professional services costs to date (Organisational Development Executive \$104,000, Communications and Customer Service Executive \$89,000, Property Management Administration \$52,000, Risk Management \$49,000, Property Revenue \$36,000, Technical Services \$36,000, Civic Facilities \$34,000, Records Management \$32,000, Occupational Health and Safety \$28,000, Members of Council \$19,000 and Southern Screen \$18,000).

This favourable variance is partly offset by invoices that were paid earlier than anticipated (Contracts \$30,000 and Governance \$14,000), which will correct in January 2021, combined with higher than anticipated emergency relief and recovery costs, which are mostly recoverable (Emergency Management \$24,000).

**Note 6** Other expenses (\$152,000 favourable) – Favourable variance mainly due to a saving in Council's contribution to the Dandenong Night Market which will not occur due to the COVID-19 pandemic and a delay in the Melbourne Food and Wine Festival contribution (Dandenong Market \$127,000). Any permanent savings will be reflected in the 2020-21 full year forecast.

Financial Report for the period 1 July 2020 - 31 December 2020

#### **Engineering Services Directorate**

#### <u>Income</u>

**Note 7** Statutory fees and fines (\$104,000 favourable) – Favourable variance due to better than anticipated fee income from sub-divisions, plan checking and property and storm water information requests (Civil Development and Design \$104,000).

**Note 8** Grants - operating (\$62,000 favourable) – Favourable variance due to receipt of unbudgeted grants for Corridors of Green and Dandenong Creek Arts Trail grant received earlier than anticipated (Park Services \$55,000).

**Note 9** Asset sales (\$97,000 unfavourable) – Lower fleet sales proceeds due to minor delays in sending a number of retired service vehicles to auction for disposal (Fleet Management \$97,000).

**Note 10** Other income (\$108,000 favourable) – Contributions from developers in Keysborough South for rectification works (Parks Services \$85,000) combined with unbudgeted recovery income (Cleansing \$20,000 and Transport \$18,060).

#### **Expenditure**

**Note 11** Employee costs (\$232,000 favourable) – Favourable variances caused by a delay in recruitment and lower temporary agency staff costs (Roads and Drains \$115,000, Parks Services \$67,000, Asset Management System implementation \$62,000 and Asset Protection \$10,000), combined with secondment of staff (Transport \$36,000).

This favourable variance is partly offset by higher than anticipated temporary/agency costs and job share arrangement resulting in unbudgeted EFT (City Improvement Executive \$79,000).

#### Note 12 Materials and services (\$3.44 million favourable) - Favourable variance due to:

- Timing of works and delay in receipt of invoices from contractors particularly in the areas of major road patching, fire hydrants and bridge maintenance (Roads and Drains \$1.11 million), garden waste, hard waste, tipping fees and recycling (Waste Management \$799,000), cleaning and maintenance of buildings (Building Maintenance \$724,000), park maintenance and utilities (Parks Services \$206,000) and dumped rubbish (Cleansing \$76,000).
- Lower than anticipated professional services for asset audits and asbestos rectification works (Asset Management \$157,000).
- Lower than anticipated fuel and fleet related costs to date (proactive maintenance, consumables, electrical) (Fleet Management \$149,000).
- Lower than anticipated building maintenance and operational costs for the Springvale Community
  Hub due to COVID-19 restrictions on opening (\$100,000).

These variances will be monitored and any permanent favourable variances will be reflected in the full year forecast.

Note 13 Carrying amount of assets sold (\$110,000 favourable) – Lower than anticipated carrying amount of assets sold to date, consistent with lower asset sale proceeds. This is a non-cash accounting entry (Fleet Management \$110,000).

Financial Report for the period 1 July 2020 – 31 December 2020

#### City Planning, Design and Amenity Directorate

#### Income

**Note 14** Statutory fees and fines (\$236,000 favourable) – Favourable variance due higher than anticipated income from parking infringements (Parking Management \$203,000) and planning applications to date (Statutory Planning \$47,000).

This favourable variance is partly offset by lower than anticipated animal infringements (Animal Management \$50,000), planning compliance infringements (Planning Compliance \$25,000) and lodgement permit, property information and fine income (Building \$18,000).

Note 15 Grants – operating (\$212,000 favourable) – Favourable variance due to receipt of unbudgeted grant from the Department of Environmental, Land, Water and Planning (Local Government (LG) Capacity Building Grant \$224,000). This will be offset by associated project expenditure and reflected in the full year forecast.

#### **Expenditure**

Note 16 Employee costs (\$477,000 favourable) — Favourable variance due to a delay in recruitment of vacant positions, lower overtime and use of temporary staff to date (Statutory Planning \$79,000, Animal Management \$66,000, Public Safety and Security \$65,000, Building \$53,000, Strategic Design and Sustainability Planning \$49,000, Parking Management \$47,000, General Law Enforcement \$33,000, Planning Compliance \$30,000 and Regulatory Services Administration \$20,000) combined with lower salary costs for school crossings due to closure of schools under COVID-19 stage four restrictions (School Crossing Supervisors \$26,000).

Note 17 Materials and services (\$295,000 favourable) – Favourable variance due to delay in receipt of invoices and commencement of projects combined with lower professional services expenditure (Strategic Design and Sustainability Planning \$157,000, Animal Management \$100,000, Parking Management \$83,000, Public Safety and Security \$38,000, Health \$36,000, Regulatory Services Administration \$29,000 and Planning Compliance \$19,000).

This favourable variance is partly offset by earlier than anticipated legal expenditure (Statutory Planning \$171,000).

**Note 18** Bad and doubtful debts (\$180,000 favourable) – Favourable variance due to lower than anticipated provision for doubtful debts expense to date (Parking Management \$146,000, General Law Enforcement \$19,000 and Health \$9,000).

Financial Report for the period 1 July 2020 – 31 December 2020

#### **Community Services Directorate**

#### **Income**

**Note 19** User fees (\$404,000 unfavourable) - Unfavourable variance mainly due to the Family Day Care (FDC) administration levy not being charged due to COVID-19 mostly offset by higher FDC grant subsidy income (FDC \$329,000) combined with lower than anticipated service provision fee income (Home and Community Care \$110,000).

Note 20 Grants – operating (\$827,000 favourable) - Favourable variance due to:

Additional or grant funding received earlier than anticipated:

- Family Day Care \$914,000
- Child First \$188,000
- Enhanced MCH Program \$70,000
- Festivals and Events (Australia Day) \$21,000
- Community Development (Community Activation Social Isolation) \$25,000
- Senior Citizens Centres \$17,000

New (unbudgeted) grant funding received (to be reflected in the full year forecast):

Community Development (Safety, Security and Space Activation) \$23,000

These favourable variances are partly offset by:

Lower than anticipated grant funding based on target achievement for:

- Food Services \$57,000
- Planned Activity Group \$43,000
- Home and Community Care \$36,000

Delay in receipt of anticipated grant funding:

- HACC Assessments & Team Leaders \$193,000
- Refugee Immunisation Project \$85,000
- Sports Planning (Walk to School) \$10,000
- Childrens Support Services \$10,000

Financial Report for the period 1 July 2020 - 31 December 2020

#### **Expenses**

Note 21 Employee costs (\$1.89 million favourable) - Favourable variance due to delay in recruitment (Enhanced MCH Program \$432,000, Child First \$341,000, Library and Information Services \$200,000, Sleep and Settling Initiative \$153,000, New Directions - Mother and Babies \$143,000, Home and Community Care \$128,000, Playgroups Initiative \$118,000, Pre-School Field Officer \$84,000, Right@Home \$84,000, Planned Activity Group \$71,000, Childrens Support Services \$59,000, Maternal and Child Health \$58,000, Community Development \$47,000, Cultural Development \$42,000, Drug Strategy \$40,000, Food Services \$34,000 and Youth Leadership \$17,000).

Of the \$1.89 million favourable variance in Community Services, \$1.42 million relates to grant funded programs which require an acquittal. Any unspent grant funds relating to these programs will be carried forward to the 2021-22 financial year.

This favourable variance is partly offset by higher than anticipated temporary agency staff costs (HACC Co-ordination \$22,000) and higher hours than anticipated due to COVID-19 requirements (Immunisation \$74,000).

Note 22 Material and services (\$458,000 favourable) — Favourable variance due to delay in receipt of invoices and commencement of projects (Library and Information Services \$167,000, Home and Community Care \$112,000, New Directions — Mothers and Babies \$90,000, Market Street Occasional Child Care Centre \$85,000, Food Services \$81,000, Cultural Development \$73,000, Drug Strategy \$56,000, Community Precinct Operations \$53,000, Enhanced MCH Program \$52,000, Sports Planning \$47,000, Festivals and Events \$27,000, Community Funding \$26,000, Leisure Centres \$25,000, Drum Theatre \$24,000 and HACC Co-ordination \$24,000).

This favourable variance is partly offset by higher payments to educators relating to additional service delivery requirements which is mostly offset by higher grant income (Family Day Care \$668,000).

**Note 23** Other expenses (\$250,000 favourable) – Favourable variance mainly due to delay in finalisation of community grant funding agreements due to adjustments for COVID-19 clauses to be added (Community Funding \$194,000).

Financial Report for the period 1 July 2020 – 31 December 2020

Non-Directorate includes non-attributable items such as rates income, fire services levy payable on Council properties, developer's contributions, interest income, gifted assets, carrying amount of assets disposed/written off and finance costs. Non attributable COVID-19 pandemic costs are included here.

Financial Report for the period 1 July 2020 – 31 December 2020

#### **Non-Directorate**

#### **Income**

Note 24 Rates and charges (\$134,000 favourable) – Favourable variance due to higher than anticipated income from general, supplementary rates and maintenance levy for Keysborough South Development (the maintenance levy is transferred to reserves).

**Note 25** Contributions – monetary (\$63,000 favourable) – Better than anticipated income from public open space contributions to date. The nature of these receipts makes timing difficult to predict. These funds are transferred to reserves.

Note 26 Other income (\$239,000 favourable) – Favourable variance due to unanticipated car parking fringe benefits tax refund. The majority of this permanent variance will be reflected in the full year forecast.

#### **Expenditure**

Note 27 Employee costs (\$326,000 favourable) – Favourable variance due to delay in recruitment (Working for Victoria Fund \$328,000).

**Note 28** Materials and services (\$58,000 favourable) – Favourable variance due to delay in receipt of invoices for postage, professional services and materials (Working for Victoria Fund \$43,000 and Corporate Accounting \$23,000).

Note 29 Prior year capital expenditure unable to be capitalised (non-cash) (\$593,000 unfavourable) – This unfavourable variance is due to works in progress (prior year capital expenditure) that is not able to be capitalised to the asset register because it is not capital in nature, does not meet the capitalisation threshold or relates to non-Council owned assets (Corporate Accounting \$593,000). This is a non-cash entry that does not impact on Council's cash position. Examples of non-capital expenditure include asset relocation, asset removal/demolition, operating services, projects cancelled, repairs and maintenance expenditure, studies/surveys and concept planning.

**Note 30** Carrying amount of assets sold (\$1 million unfavourable) – Unfavourable variance due to written down value of land sold as part of three-way land swap with Development Victoria that settled in December. This is a non-cash accounting entry and it will be reflected in the full year forecast.

**Note 31** Asset write offs (\$178,000 unfavourable) – Unfavourable variance due to assets written off mostly due to asset renewal and replacement. This is a non-cash accounting entry.

Financial Report for the period 1 July 2020 – 31 December 2020

# **Report Summary**

Council establishes a number of policies and codes of practice to guide the various operations of the Greater Dandenong City Council. Existing policies and codes of practice are subject to an ongoing review process to ensure that they comply with current legislation and adequately reflect Council's operational requirements. Any changes to existing policies are subject to Council approval. Policies and codes of practice that have become superfluous to Council's needs require abolition by Council.

The Community Engagement Policy has been reviewed in detail in line with the requirements of the *Local Government Act 2020* and is submitted to Council for adoption.

# **Recommendation Summary**

This report recommends that the Community Engagement Policy be adopted as attached.

ORDINARY COUNCIL MEETING - MINUTES

# **Background**

Policies establish clear processes and procedures by which Council conducts its business and activities and ensures that the decision-making process is consistent. It is critical that Council policies and codes of practice fully reflect the principles, values and issues that Council believes are important as outlined in the Council Plan.

Council's Community Engagement Policy was first adopted by Council on 14 October 2013 and reviewed again in 2018.

The last version approved in 2018 was developed in line with the Victorian Auditor-General's Report, "Public Participation and Community Engagement: Local Government Sector". This report was published in May 2017 and provided guidance on best practice principles. The draft policy was also consistent with the International Association for Public Participation (IAP2) Public Participation Spectrum.

The new draft policy (Attachment 1) has been revised in response to the new *Local Government Act* 2020 which introduced new engagement principles and the need for Councils to undertake deliberative engagement processes for key documents.

Council developed its Community Engagement Policy in 2013 to outline its commitment to thorough, transparent and meaningful community engagement that will inform responsible decision-making for the benefit of the community. The revised policy approved in 2018 detailed Council's role in providing activities which allow the community to express their expectations, aspirations and ideas. The policy is used where the input of community stakeholders can make a valuable contribution to decision making and when changes to services or infrastructure are required.

The policy complements the Community Engagement Framework, also developed in 2018, which provides guidance to staff involved in undertaking consultation processes and ensures consistency in Council's approach to public participation. It includes best practice methods based on the IAP2 model and a clear process for determining the most effective engagement activities for each Council project.

- the introduction of five engagement principles:
  - a community engagement process must have a clearly defined objective and scope
  - participants in community engagement must have access to objective, relevant and timely information to inform their participation
  - o participants in community engagement must be representative of the persons and groups affected by the matter that is the subject of the community engagement
  - participants in community engagement are entitled to reasonable support to enable meaningful and informed engagement
  - participants in community engagement are informed of the ways in which the community engagement process will influence Council decision making.
- the introduction of deliberative engagement practices for key strategic documents including the Community Vision, Council Plan, Long Term Financial Strategy and Asset Plans.

# **Proposal**

That Council adopt the revised Community Engagement Policy in line with the requirements of the *Local Government Act 2020*.

# Community Plan 'Imagine 2030' and Council Plan 2017-2021 – Strategic Objectives, Strategies and Plans

After consultation with the Greater Dandenong community on what kind of future they wanted to see for themselves and the City in 2030, the result was the Greater Dandenong Community Plan 'Imagine 2030'. This report is consistent with the following community visions:

# Community Plan 'Imagine 2030'

#### People

Pride – Best place best people

# Opportunity

- Education, Learning and Information Knowledge
- Leadership by the Council The leading Council

#### **Council Plan 2017-2021**

The Council Plan describes the kind of future the Council is working for, and how Council will do this over four years. This report is consistent with the following goals:

# People 1

- A vibrant, connected and safe community
- A creative city that respects and embraces diversity

# **Opportunity**

An open and effective Council

The strategies and plans that contribute to these outcomes are as follows:

#### **Plans**

- Council Plan
- Community Wellbeing Plan

#### **Policies**

#### **Framework**

- Community Engagement Planning Framework
- Community Development Framework

#### **Related Council Policies**

- Diversity, Access and Equity Policy
- Information Privacy and Health Records Policy
- Language and Communications Policy

# Victorian Charter of Human Rights and Responsibilities

All matters relevant to the Victorian Human Rights Charter have been considered in the preparation of this report and are consistent with the standards set by the Charter.

# **Financial Implications**

There are no financial implications associated with this report. All engagement activities are included in annual operational budgets.

#### Consultation

The Community Engagement Policy was referred to Councillors, the Executive Management Team and a number of staff across the organisation involved in community engagement for review and evaluation prior to a community consultation phase. The community consultation ran from 17 December 2020 until 25 January 2021. Community members were given the opportunity to respond either online or through hard copy feedback forms however no responses were received.

#### Conclusion

The policy detailed in and attached to this report has been reviewed and found consistent with current legislation and Council's operational needs and is submitted to Council for adoption.

It was rewritten in consideration of legislative changes and the implementation of the *Local Government Act 2020*. All changes have been included and Council will meet the Act's deadline of 1 March for this policy's adoption.

#### Recommendation

That the Community Engagement Policy attached to this report be readopted.

# **MINUTE 92**

# POLICY OBJECTIVE (OR PURPOSE)

Council is committed to thorough, transparent and meaningful community engagement that will inform responsible decision-making for the benefit of the community. This policy outlines Council's role in providing the community with the means to express their expectations, aspirations and ideas. The policy should be applied to projects, activities, plans or processes where the input of community stakeholders can make a valuable contribution to Council's decision-making and when changes to services or infrastructure are required.

#### This policy:

- meets the requirements of the Local Government Act 2020
- outlines the principles which guide community engagement
- sets out how and when community engagement activities are undertaken by Council
- aims to ensure engagement methodology is based on the International Association for Public Participation (IAP2) Public Participation Spectrum
- applied deliberative engagement principles in appropriate circumstances
- promotes a consistent approach across all Council services
- · outlines the process of reporting engagement outcomes back to the community
- ensures diversity in participation and community viewpoint is supported and encouraged.

#### 2. BACKGROUND

Council first adopted a Community Engagement Policy in 2013. A review of the policy took place in 2018 and was subsequently adopted by Council.

The Council Plan outlines the strategic objectives and key priorities for Council during its four year term. This policy supports its objective of 'An open and effective Council' and in particular the priorities of 'A Council connected with the community, providing an effective voice on their behalf' and 'Decision making which is transparent and accountable'.

This policy and its operational guidelines are consistent with, and based upon, the IAP2 Public Participation Spectrum, a best practice approach to community engagement that allows for different approaches. This spectrum has been retained as the core foundation for this policy.

#### 3. SCOPE

This policy applies to all Council staff, contract workers, consultants and others who engage with the community on behalf of the Greater Dandenong City Council and serves as a guide to Councillors. The policy is supported by a planning framework (the 'Community Engagement Planning Framework') that provides guidance and procedures for undertaking effective community engagement.

This policy will be applied to all community engagement activities conducted by Council including those that may be required:

- under the Local Government Act 1989 and the Local Government Act 2020
- for the making of Council's Local Laws
- in relation to Council's budget and policy development.

Page 2 of 10

# RESPONSE TO THE OVERARCHING GOVERNANCE PRINCIPLES OF THE LOCAL GOVERNMENT ACT 2020

#### **Background**

Section 9 of the *Local Government Act 2020* states that a Council must in the performance of its role give effect to the overarching governance principles. This policy gives effect to these by:

- complying with the relevant law (section 9(a) of the Act);
- giving priority to achieving the best outcomes for the municipality, including future generations (section 9b of the Act). This policy ensures that in relation to community engagement practices, Council Officers are compliant, act with integrity and act in the best interests of Council and the community.
- the economic, social and environmental sustainability of the municipal district, including mitigation
  and planning for climate change risks, is promoted (section 9(c) of the Act). This policy has no
  impact on the economic and social sustainability of Council but has considered climate change and
  sustainability in its preparation (see section 8 of this policy).
- innovation and continuous improvement has been pursued (section 9(e) of the Act). This policy has
  provision for evaluation, monitoring and review (see section 10 of this policy).
- collaboration with other Councils and Governments and statutory bodies has been sought (section 9(f) of the Act). A number of other Council and best practice model policies were consulted in developing this policy.
- transparency of Council decisions, actions and information is ensured by the enactment of this
  policy (section 9(i) of the Act).

In giving effect to the overarching governance principles, a Council must also take into account the community engagement principles (section 56 of the Act), the public transparency principles (section 58 of the Act), the strategic planning principles (section 89 of the Act), the financial management principles (section 101 of the Act), and the service performance principles (section 106 of the Act). This policy adheres to all of the required community engagement principles a outlined in section 56 and operates in conjunction with Council's Public Transparency Policy and Conflict of Interest Policy. It has no financial impact on Council and the resources required to manage and administer it are allocated from existing resource budgets.

#### 5. POLICY

Effective community engagement contributes to increasing the capacity of the community to participate in decision-making, the democratic processes of local government and improved knowledge. Council is committed to community strengthening and supports inclusive and engaging participation by all stakeholders.

#### Council will:

- ensure that the purpose of engagement is genuine and transparent
- conduct engagement activities using the IAP2 Public Participation Spectrum
- employ techniques and approaches to maximise community participation including deliberative engagement practices where required
- provide realistic and accessible opportunities within reasonable timeframes
- provide information that is clear, easy to understand and accessible to all people

Page 3 of 10

- value all participants' knowledge, expertise and experience and respect their diverse views and priorities
- undertake evaluation processes to ensure continuous improvement with consultation activities
- report back to the community as soon as possible after a Council decision and explain how feedback was considered and/or incorporated into the final outcomes
- ensure all activities undertaken are in accordance with Council's Privacy and Personal Information Policy and Public Transparency Policy.

#### **Engagement Process**

# What is Community Engagement?

Community engagement provides opportunities for public involvement in Council decision making, community strengthening and capacity building. Engagement occurs in various forms with differing levels of involvement and is guided by the community engagement principles as set out in s56 of the *Local Government Act 2020*. These are:

Pri	nciple	Council's Commitment
1.	A community engagement process must have a clearly defined objective and scope.	Develop community engagement plans for all engagement processes in accordance
2.	Participants in community engagement must have access to objective, relevant and timely information to inform their participation.	<ul> <li>with this policy.</li> <li>Ensure all information relating to community engagement processes is provided as early as possible.</li> <li>Allow a minimum of 28 days for participants to provide feedback.</li> <li>Identify and address all challenges related to participation in the community engagement plan.</li> </ul>
3.	Participants in community engagement must be representative of the persons and groups affected by the matter that is the subject of the community engagement.	Identify key stakeholders and groups that will be affected by the project in the early planning stage.     Select appropriate communication methods and recruitment activities to reduce barriers to representative participation.     Employ deliberative engagement practices for the development of key strategic documents including the Community Vision, Council Plan, Long Term Financial Strategy and Asset Plan.
4.	Participants in community engagement are entitled to reasonable support to enable meaningful and informed engagement.	Identify and minimise barriers to participation and levels of support required including but not limited to accessibility, language and digital literacy.     Ensure community engagement plans explain how any identified barriers will be addressed.

Page 4 of 10

- Participants in community engagement are informed of the ways in which the community engagement process will influence Council decision making.
- Communicate the level of influence community members will have at the commencement of any process.
- Ensure timely and regular feedback throughout the process to keep participants informed.
- Provide responses at the conclusion of each process as to how the feedback received was used to influence the outcomes.

The Greater Dandenong City Council uses the IAP2 framework as the basis in delivery of all its consultation projects. The Community Engagement Planning Framework that supports this policy aims to maximise community participation and contains a range of engagement techniques that can be used to achieve the most effective outcomes.

The Framework includes a set of guidelines for different methodologies and tools for a variety of outcomes across the range of the IAP2 spectrum. This is complemented by a risk assessment to assist with defining the level of community engagement required.

The IAP2 Public Participation Spectrum is designed to assist with the selection of an appropriate level of consultation. These levels are:

Inform	To provide the public with balanced and objective information to assist them in understanding Council's decisions and/or intentions.
Consult	To obtain public feedback on ideas, alternatives and/or proposals to inform decision making
Involve	To work directly with the public throughout the process to ensure that public issues and concerns are consistently understood and considered.
Collaborate	To partner with the public in each aspect of the decision including development of alternatives and the identification of preferred solutions.
Empower	To place final decision making in the hands of the public and build capacity in the community to lead change.

A project may involve one or more of the above levels of consultation depending on the complexity of the project and the decision which needs to be made. Legislative requirements can also restrict the level at which Council engages.

#### Why do we engage?

Council conducts community engagement activities to improve its strategic planning and service delivery while fulfilling its requirements under the *Local Government Act 2020*. These activities help to better understand the needs and aspirations of the community and provide a number of benefits to both Council and the community including:

- transparency, integrity and increased trust in Council processes and decisions
- a more well-informed community

Page 5 of 10

- · increased community involvement
- · community ownership
- improved levels of satisfaction with Council decisions and processes
- · improved service planning.

Council is also required to undertake legislated consultation processes in developing various corporate and statutory planning documents.

#### Who do we engage with?

Greater Dandenong City Council seeks to provide opportunities for engagement to our community and key stakeholders, those who live, work and play in our city. Our key stakeholders also include groups and individuals who have an interest in the decisions of Council and are directly impacted by their outcomes but do not necessarily reside or work within the city.

The target audience may be different for each consultation, depending on who may be impacted, and Council will seek to ensure they are adequately represented in the engagement process.

#### When do we engage?

Council will engage with the community and key stakeholders during the planning stages of projects which have a direct impact on the community. Council may also involve the community in matters regarding changes to services, changes to infrastructure, Council's Budget and strategic plans.

There are some circumstances where Council is mandated by legislation to engage with the community and this may include clear direction about the methods that must be used. Council is committed to complying with such requirements as a minimum and undertaking further community engagement where issues are of a sensitive or complex nature.

Council may also be presented with circumstances that require an advisory committee, advisory board, reference committee or working group to monitor contract performance or provide a forum for discussion of key management and strategic direction issues. The membership and terms of reference of such groups may be determined by contractual requirements or by advertisement to the broader community according to endorsed selection criteria.

#### Exemptions

Consultation will not occur in circumstances which relate to operational matters, confidential or commercial in confidence information, or when Council must make emergency or safety related decisions.

#### How do we engage?

#### Plan

The planning stage of any consultation will involve the creation of a project plan which will determine the purpose of engagement, the objectives Council hopes to achieve, who will be engaged and how this can be done most effectively.

#### Engage

The engagement process will be conducted according to the principles outlined in the *Local Government Act 2020 and* Council's overarching objectives as set out in section 4 of this policy.

Page 6 of 10

The type of consultation undertaken will depend upon the target audience for the consultation, the size and complexity of the process, and the level of resourcing required.

Two approaches are used by Greater Dandenong City Council:

**Participatory engagement** – This represents the lower two levels of the IAP2 spectrum, inform and consult. This involves broad consultation techniques and will be used when Council is seeking feedback on draft documents such as the Budget or specific strategies and plans.

**Deliberative engagement** - This will involve engagement activities which provide opportunities for participants to weigh up evidence and have considered discussions over a period of time before making a decision. This approach is an example of the top levels of the IAP2 spectrum and seeks to involve, collaborate or empower. It will be used when required by legislation for key strategic documents including the Community Vision, Council Plan, Long Term Financial Strategy and Asset Plan, and in other instances where it is determined to be the best model of engagement.

#### Communicate

The results of all consultation activities, and their influence on Council decisions, will be reported back to the community and key stakeholders in a timely and accessible manner to ensure the process is open and transparent. This will be done in a number of ways including the use of social media, Council's corporate website, print media and direct contact with participants.

#### **Evaluate**

All community engagement activities undertaken by Council will be required to undergo an evaluation to determine the success of the project, identify improvement opportunities and provide recommendations for future consultations.

#### Enhance

Feedback and recommendations received through the evaluation stage will be used to enhance Council's future activities, improve overall engagement and influence policy reviews.

# 6. CHARTER OF HUMAN RIGHTS AND RESPONSIBILITIES ACT 2006 – COMPATIBILITY STATEMENT

The Victorian Charter of Human Rights and Responsibilities Act 2006 has been considered in relation to whether any human right under the Charter is restricted or interfered with in any way by enacting any part of this policy. It is considered that this policy is consistent with the rights outlined in the Charter.

#### 7. RESPONSE TO THE GENDER EQUALITY ACT 2020

The *Gender Equality Act 2020* has been considered in the preparation of this policy. This policy aims to actively seek out the knowledge, perspectives and experiences of all gender groups on all Council activities as outlined in section 4 of this policy. This policy ensures all community members are able to take part in the planning and development of Council's services, policies and programs. No particular groups that are based on gender are considered to be impacted either positively or negatively by this policy.

Page 7 of 10

#### 8. CONSIDERATION OF CLIMATE CHANGE AND SUSTAINABILITY

Council's Declaration on a Climate and Ecological Emergency, Council's Climate Change Emergency Strategy 2020-2030 and the requirements of the *Local Government Act 2020* in relation to the overarching governance principle on climate change and sustainability have been considered in the preparation of this policy but are not relevant to its contents. The policy is administrative in nature and Councillors have been provided access to electronic formats of the policy so that hard copies are not required.

#### RESPONSIBILITIES

All Council Officers involved in undertaking community engagement are responsible for ensuring that any community engagement plans and associated activities are compliant with this policy.

#### 10. REPORTING, MONITORING AND REVIEW

Evaluation of all community engagement processes will allow for the ongoing review and improvement of this policy. These evaluations will enable Council to better identify barriers to participation and any areas of our community who are continually under-represented. The success of this policy will be measured by the quality of Council's engagement processes and the satisfaction of our community in how we engage with them.

#### 4.3.1 Arts Advisory Board Membership Endorsement

File Id:

Responsible Officer: Director Community Services

Attachments: Arts Advisory Board Terms of Reference

# **Report Summary**

The formation of Council's Arts Advisory Board was endorsed by Council in 2017. The current endorsed Terms of Reference (Attachment 1) articulate the purpose and objectives of the Board, and provide for appropriate and relevant membership, advice and collaboration.

This report identifies the process of seeking community representative nominations and recommends three community representatives accordingly.

A total of fourteen community representative submissions were received for three vacant positions. Each applicant was assessed against the key selection criteria, along with short phone interviews and referee checks.

# **Recommendation Summary**

This report recommends that Council endorse the three community representatives nominated, in accordance with the Terms of Reference and recommendation of the selection panel.

This report also recommends that Council endorses the recommendation to appoint Roh Singh as Chair of the Arts Advisory Board for an initial period of twelve months.

ORDINARY COUNCIL MEETING - MINUTES

# 4.3.1 Arts Advisory Board Membership Endorsement (Cont.)

# **Background**

On 26 June 2017 Council initially endorsed the formation of the Arts Advisory Board and the Arts Advisory Board Terms of Reference, with the Terms of Reference being reviewed and updated and endorsed by Council on 30 November 2020. The Arts Advisory Board membership sets out to:

- Provide strategic input, advocacy and specialised knowledge to steer efforts to promote, support and grow arts throughout the city.
- Support the implementation of best practise and excellence through knowledge and expertise
  of latest trends and modelling in the arts sector.
- Reflect local interests and drive the development of Greater Dandenong as a city recognised for its rich cultural output, opportunities and services.
- The Terms of Reference stipulate that the Board will consist of representatives from the following:

The Terms of Reference stipulate that the Committee will consist of representatives from the following:

- 1 Councillor Representative appointed at the annual Council Meeting to elect the Mayor
- Senior Council Officer from the Community Services Directorate
- Up to 5 Community Representatives appointed by Council. Community members will be representative of Council's diverse and multicultural community. Members may have knowledge and experience with community and/or business networks and linkages within the city; a proven expertise and experience in arts and cultural activities, and engagement in the area.

The current three-year tenure for three of the five current independent members of the Arts Advisory Board is due to end on 6 March 2021. Two current members were appointed mid-term in February of 2020 and these members will therefore continue their roles as incumbent board members. Accordingly, three vacant positions are available.

# **Proposal**

#### **Call for Nominations**

A call for nominations for Community Representatives was open to the public from Monday 26 October until Sunday 29 November 2020.

Fourteen community applications were received via direct email or an online nomination form, with three community representative vacancies available.

#### **Selection Panel**

In accordance with the endorsed Terms of Reference, a selection panel was convened to assess nominations and make a recommendation to Council for consideration and endorsement.

The selection panel consisted of:

- Director Community Services
- Manager Community Arts, Culture and Library Services
- Coordinator Arts and Cultural Development (non-voting member).

#### **Selection Criteria**

The applicants were assessed against the following criteria, in accordance with the endorsed Terms of Reference, to determine if they were suitable:

- Relevant demonstrated experience and expertise.
- Sound knowledge and understanding of local issues that are relevant to their interest area.
- Knowledge and experience with community and/or business networks and linkages within the City of Greater Dandenong.
- Reasoning as to their passion for arts in Greater Dandenong.
- Previous Board and/or Committee experience.

Shortlisted applicants also had a short phone interview and referee checks completed.

Applicants recommended for endorsement have also undergone Police Checks and Working with Children Checks.

#### **Community Representative Nominations**

The following Community Representative nominations are proposed for membership endorsement:

#### **Roh Singh**

A longtime resident of the South Eastern suburbs Roh is a practicing artist and academic, and valued member of Council's Public Art Working Group, to which he has contributed actively over the last 3 years. As a senior educator in a leadership position within the Arts & Design Faculty at Swinburne University, Roh has broad arts sector knowledge, with a particular expertise in public art, urban planning and the economic benefits of culturally creative cities. A strategic thinker and pragmatic problem solver, Roh has demonstrated experience in navigating complex industry and local government partnerships including recent work in this field for and on behalf of Swinburne with Knox City Council. Roh has lectured, taught and assessed at masters' level in the University and TAFE sector demonstrating elite mentorship and leadership skills. Roh's work and involvement in the Public Arts Working Group has seen him work with a broad cross section of the Greater Dandenong community and interact with representatives of the arts, multi-cultural and business community as well as government agencies.

It is recommended unanimously by the selection panel that Roh be nominated for the position of Chair of the Arts Advisory Board for a period of 12 months, thereafter in accordance with the Terms of Reference the Chair will be voted in on an annual basis by the Arts Advisory Board membership.

#### Oz Malik

A local young arts practitioner Oz fulfils the requirements of the board member who will represent the interests of the local arts community. Oz grew up in Dandenong and has a thorough understanding of the benefits and challenges of working, living and engaging the community in this region. In addition to being a working actor, Oz is currently employed as an advisor to the South and South East Asia Advocacy and Development division of the Australia Council of the Arts, Australian Government's arts funding and advisory body. This work contributes to advocacy outcomes across a wide remit of international policy. Deeply curious and driven by a passion to give back to community Oz is the Founder of the "Way over there" arts collective based in the South Eastern suburbs - creating arts opportunities for young people. He has deep connections with faith and interfaith organisations as well as local sports and youth clubs. Oz brings significant committee experience including participation on the Casey Inclusion and Advisory Committee, the Muslim Women's Council of Victoria and the Victorian Police Youth Committee.

#### Mish Eisen

A former project manager for Museums Victoria, and a practicing architect Mish established not for profit arts initiative Promerging Art and now runs GAMUT arts consultancy. As a small business owner in the arts Mish brings a unique perspective and over 25 years of experience on the connections between arts and business. This is augmented by significant experience in the intersection of placemaking and the built environment through her work as an architect. Mish has contributed as a member of the City of Frankston's Arts Board since 2012, having also engaged consistently on their Public Art Committee and contributed to realizing significant outcomes including the recent street art festival. Mish also brings experience in relation to supporting positive First Nations arts outcomes, having worked with and developed relationship with several indigenous arts centres and artists both across regional Victoria and the Northern Territories.

# Community Plan 'Imagine 2030' and Council Plan 2017-21 – Strategic Objectives, Strategies and Plans

After consultation with the Greater Dandenong community on what kind of future they wanted to see for themselves and the City in 2030, the result was the Greater Dandenong Community Plan 'Imagine 2030'. This report is consistent with the following community visions:

# Community Plan 'Imagine 2030'

# People 1

- Pride Best place best people
- Cultural Diversity Model multicultural community

#### Place

• Sense of Place – One city many neighbourhoods

- Safety in Streets and Places Feeling and being safe
- Appearance of Places Places and buildings

# **Opportunity**

- Education, Learning and Information Knowledge
- Jobs and Business Opportunities Prosperous and affordable
- Tourism and visitors Diverse and interesting experiences

#### Council Plan 2017-21

The Council Plan describes the kind of future the Council is working for, and how Council will do this over four years. This report is consistent with the following goals:

#### People

- A vibrant, connected and safe community
- A creative city that respects and embraces diversity

#### Place

- A healthy, liveable and sustainable city
- A city planned for the future

# **Opportunity**

- A diverse and growing economy
- An open and effective Council

The strategies and plans that contribute to these outcomes are as follows:

- Arts and Cultural Heritage Strategy 2016
- The Drum Strategic Plan 2016

# **Related Council Policies**

- Community Wellbeing Plan 2017 21
- Activity Centre's Placemaking Framework 2016
- Greater Dandenong People Seeking Asylum and Refugees Plan 2018-21
- Multi-purpose Use of Community Facilities Policy 2018

- Open Space Strategy 2009
- Sustainability Strategy 2016-2030

# Victorian Charter of Human Rights and Responsibilities

The Victorian Charter of Human Rights and Responsibilities has been considered in the preparation of this report but is not relevant to its contents.

# **Financial Implications**

The resource requirements associated with this report are \$11,000 compared to the annual budget allocation of \$11,000 for this purpose.

#### Consultation

Promotion of the call for nominations was undertaken through the Council website, Dandenong Journal, Arts Hub, Craft Victoria, Creative Victoria, Public Galleries Association of Victoria, Council e-newsletter, Drum Theatre e-newsletter, Arts and Culture e-newsletter, Library e-newsletter, Council Talk Business eNews, as well as across Council social media platforms and Facebook interest groups.

Call for nominations was open to the public from Monday 26 October until Sunday 29 November 2020.

#### Conclusion

The Arts Advisory Board provides Council with an effective independent and collaborative forum to assist Council in meeting key priorities and strategic planning.

The endorsed Terms of Reference articulated the process of calling for nominations, which occurred for a four-week period and received a total of fourteen community representative nominations for three vacant positions.

It is recommended to endorse the three nominations identified within this report.

# Recommendation

#### That Council endorses:

- 1. three community representatives to join the Arts Advisory Board
  - Roh Singh
  - Oz Malik
  - Mish Eisen; and
- 2. the appointment of Roh Singh to the position of Chair of the Arts Advisory Board for a period of twelve months.

# Arts Advisory Board

#### **Terms of Reference**

#### **PURPOSE**

The Arts Advisory Board has been established to support Greater Dandenong's vision for arts and culture across the municipality and provide strategic input, advocacy and specialised knowledge to guide Council's efforts to promote, support and grow arts in the City of Greater Dandenong. The key role of the Board is to provide independent advice and monitor and oversee the implementation of the City of Greater Dandenong Arts and Cultural Heritage Strategy.

The Arts Advisory Board replaces a number of related Advisory Committees and expands and builds on their previous scope, duties and responsibilities to advise Council on a diverse and comprehensive range of matters regarding arts and culture.

The City of Greater Dandenong plays a key role in the planning, development and support of arts and culture throughout the city. The Arts Advisory Board will address issues supporting arts and culture including:

- Oversight of the Arts and Cultural Heritage Strategy and other strategic plans such as the Drum Theatre Strategic Plan.
- Cultural venues Heritage Hill Museum, Arts Centre and Historic Garden, Walker Street Gallery and Arts Centre, Masonic Hall Dandenong and Drum Theatre.
- Cultural participation including arts programs, projects, festivals and events.
- Support of community arts initiatives.
- Creative aspects of the built and public environment including public art.
- · Support and development of local and emerging artists.
- · Partnerships, funding and advocacy.

#### **O**BJECTIVES

The objectives of the Arts Advisory Board are to:

- Provide advice to Council regarding the strategic direction for arts and culture.
- Provide high-level input into the planning and management processes for arts and cultural venues and programs.
- Provide high-level advice and influence required to guide arts capital investment outcomes.
- Balance community benefit with the strategic oversight of Council's capital and operational investments for the arts.
- · Consider and advocate for funding and sponsorship opportunities as they arise.

Arts Advisory Board Terms of Reference

- Advise Council on effective marketing and visitor attraction strategies for arts and cultural venues and programs.
- · Develop and promote interest in the arts.
- · Support and develop local and emerging artists.
- · Support community arts initiatives.
- Consider and provide advice on key Government initiatives, issues, programs and reviews.
- Monitor community feedback and changing trends regarding arts and culture engagement.

#### REPORTING REQUIREMENT

In accordance with Council's statutory reporting, a yearly report will be provided to Council. The nominated Councillor/s will have the opportunity to speak to the report on behalf of the Arts Advisory Board. Advice may also be provided to Council through Infosum to Councillors or a scheduled Councillor Briefing Session.

#### **TERM OF APPOINTMENT**

The Arts Advisory Board is an advisory group appointed by Council. The Advisory Board's role is to report to Council and provide appropriate advice and recommendations on matters relevant to these Terms of Reference in order to facilitate decision-making by Council. The process for appointment to the Advisory Board will be undertaken for all members in accordance with the selection process outlined in these Terms of Reference.

Independent members will be appointed to the Board for a period up to 3 years, noting that such period will run concurrently from the date of the first meeting attended by the appointed party.

#### MEMBERSHIP

The Arts Advisory Board will consist of up to five (5) independent members and will include representatives from the following:

- Councillor representative/s (appointed as part of the annual statutory process)
- One Council Senior Officer
  - Up to five (5) external independent persons
    - At least one will need to represent the interests of the local arts community.
    - At least one will need to be a local artist (in any form) and represent the interests of the local artist community.

Members of Arts Advisory Board are free to resign at any time. Should vacancies arise due to resignation or inability to attend the minimum number of meetings during the life of this Advisory Board, these shall be addressed through the Selection Process.

If Council receives a request for membership in addition to the appointed members, such a request will only be considered if a vacancy exists.

In the event of a vacancy on the Advisory Board being created for any reason, the position shall be filled through the process described the Selection Process. The Board may resolve to leave the vacancy unfilled for an agreed period of time.

Arts Advisory Board Terms of Reference

#### **ROLE OF THE COUNCILLOR/S**

One or more Councillors shall normally be appointed annually at the Special Council meeting to determine Councillor Representation on Advisory Committees or otherwise by Council resolution. A substitute Councillor can be nominated to attend should the appointed Councillor(s) be unavailable. Should Councillors be nominated on the Arts Advisory Board, the Councillor(s) will:

- · Be appointed by Council in accordance with the annual statutory Council appointments
- · Act as a link between Council and the Arts Advisory Board
- At all times act in accordance with the Code of Conduct Councillors, 12th Edition.

#### ROLE OF THE COUNCIL EXECUTIVE MEMBER

A senior Council Executive member (non-voting) shall be nominated by Council's Chief Executive Officer and reported to Council at the Special Council Meeting referred to above to appoint the Councillor members.

#### **ROLE OF THE CHAIRPERSON**

The Chairperson shall be an external independent member appointed by Council for purposes of the inaugural Advisory Board and then elected annually by the members. In the absence of the Chairperson from a meeting, the meeting will appoint an acting Chairperson who shall still be an external independent member.

#### ROLE OF THE EXTERNAL INDEPENDENT PERSONS

Council will endeavor to appoint external independent members that bring a range of complementary skills to the Advisory Board. Council will aim towards encouraging diversity within the selection of Membership of the Arts Advisory Board. Appointments of external persons shall be made by Council resolution and be for a three (3) year term. Members can only be appointed for three consecutive terms.

Remuneration will be paid to each external independent member of the Arts Advisory Board at the rate of \$3000 per annum for a Member and \$5000 per annum for the Chairperson.

#### **SELECTION PROCESS**

External independent members of the Arts Advisory Board will be achieved by calling for nominations. Specific representatives may also be invited to nominate. A nomination form must be completed by interested representatives and all nominations will be assessed against the Criteria for Membership.

#### CRITERIA FOR MEMBERSHIP OF THE ARTS ADVISORY BOARD

Nominees for membership of an Arts Advisory Board must be able to demonstrate:

Arts Advisory Board Terms of Reference

Page 3 of 8

- Knowledge and experience with community and/or business networks and linkages within the Greater Dandenong
- Experience and/ or expertise or commitment in any of the following areas:
  - o Performing arts
  - o Arts and cultural activities
- Experience and/ or expertise in any of the below listed additional areas will be favourably viewed:
  - o Business
  - o Finance
  - o Marketing, communications and promotions
  - o Fundraising, philanthropy and sponsorship
  - o Government relations
  - Tourism
- An ability to constructively participate in an advisory capacity and exercise a range of views that reflect the diversity of the community
- Sound knowledge and understanding of local issues that are relevant to the interest area
- · A willingness to contribute positively to meetings in a fair and unbiased manner
- An ability to look beyond personal interests for the benefit of the community and residents of Greater Dandenong
- A capacity to commit to the Arts Advisory Board for the required duration
- A willingness to the commit time and contribute to Arts Advisory Board activities and tasks outside regular board meetings

#### **SELECTION PANEL**

When the appointment of members of the Arts Advisory Board is required and nominations are received, the following selection panel shall convene:

- A Senior member of Council (CEO or Director)
- A Council Senior staff member from a service area that is relevant to the Arts Advisory Board.

All nominations will be assessed by the selection panel against the selection criteria.

A recommendation about the membership of the Arts Advisory Board will then be made for the consideration and endorsement of Council.

It is noted that once the Arts Advisory Board has been appointed, the selection panel will be dishanded

#### RESPONSIBILITIES OF THE ARTS ADVISORY BOARD

Through advice and timely information from the Arts Advisory Board, Council will be better informed and equipped to promote, support and grow arts in the City of Greater Dandenong.

Specific responsibilities of the Arts Advisory Board are to:

- Provide advice to Council for supporting and investing in arts and culture across the municipality, through
  - provision of quality facilities

Arts Advisory Board Terms of Reference

Page 4 of 8

- o diverse and accessible programs and projects
- strong business and community partnerships
- support of local and emerging artists
- support of community arts initiatives
- increasing participation of Greater Dandenong residents and visitors in Council and community initiated arts programs and initiatives
- · Provide advice to Council on the implementation of relevant arts and cultural strategies
- Strengthen advocacy and act as champion for the arts in Greater Dandenong
- Provide a forum for discussion on arts industry trends and best practice in both the Local Government and arts sectors
- Represent the interests of all members in the community and act in the best interests of Council
- · Act with integrity, confidentiality and objectivity.

#### MEETINGS OF THE ARTS ADVISORY BOARD

The Arts Advisory Board will meet a minimum of four times per year and at least once every quarter. Additional meetings will be convened at the discretion of the Chairperson or at the written request of any member of the Arts Advisory Board.

A schedule of meetings will be developed and agreed to by the members annually.

Under special circumstances a meeting may be cancelled or re-scheduled.

All meetings shall be held in a central Council venue to be decided by the Advisory Board.

#### WORKING GROUP/S

Working groups of the Arts Advisory Board will be established within six (6) months of the initial meeting of the Advisory Board. Working groups will report to and be chaired by one of the members of the Arts Advisory Board. Working groups will have a defined purpose i.e. they may be set up for a particular project, field of arts or particular stakeholder group.

The Advisory Board will refine the role, responsibility and resourcing of working groups, ensuring that overall responsibilities of the working groups are to:

- Ensure broad and diverse representation of the local community in arts interests.
- Provide information and feedback to the Arts Advisory Board on arts issues.
- · Advocate for arts and arts engagement across the municipality.
- Support the implementation of relevant arts and cultural strategies.
- Implement particular actions or roles of the Advisory Board.

The Advisory Board will retain the ability to conclude the working groups or the groups' formal relationship with the Advisory Board at its discretion and/or at the achievement of its objectives.

Working groups will consist of a broad and diverse representation of the local community including, but not limited to:

- Residents
- Artists and creators
- Businesses
- Schools, (Primary, Secondary, and/or Tertiary)

Arts Advisory Board Terms of Reference

- Community Groups
- Community Agencies
- Other

The Working groups will meet a minimum of two (2) times per year and at least once every financial half year. Additional meetings will be convened by the Arts Advisory Board, as required. The activities of the working groups will be reported at meetings of the Arts Advisory Board.

As a reflection of the Arts Advisory Board's commitment to transparency Conflicts of Interest will be required to be declared as an agenda item to each Working Group meeting.

Council staff will provide administrative support and service expertise to the Working groups.

#### ATTENDANCE AND RECORD OF MEETINGS

All meetings will have an agenda. Minutes of the meeting will record attendees, apologies, decisions and actions.

The Chairperson will oversee the preparation of the agenda in consultation with Council staff. It is noted that any member may submit agenda items prior to the finalisation and distribution of the agenda.

Council staff will provide administrative support and service expertise to the Arts Advisory Board and will ensure the timely preparation and distribution of agendas and minutes.

Advisory Board members will be expected to demonstrate their commitment and due diligence by the preparation for, attendance at, and active participation in, Advisory Board meetings. It is expected that each member of the Arts Advisory Board will attend a minimum of four meetings each year.

#### CHAIRPERSON

The Chairperson will be selected from the membership by the Advisory Board.

The appointed Chairperson is responsible for the conduct of meetings, ensuring fair and equitable opportunities for views to be discussed by all members of the Advisory Board.

#### QUORUM AND VOTING

Decisions requires a quorum of three (3), comprising at least two (2) external independent members.

It is preferable that decisions are made at meetings by reaching a consensus; however there may be circumstances where a matter is decided by a vote. Each member is entitled to one vote, except that the Chairperson may exercise a casting vote.

#### CONFLICT OF INTEREST

The Local Government Act identifies direct and indirect conflicts of interest which require disclosure as and when they arise. Members of the Advisory Board must be fully aware of

Arts Advisory Board Terms of Reference

Page 6 of 8

their responsibilities with regard to the management of interests in relation to the discharge of their duties as a member of the Advisory Board.

#### OFFICERS IN ATTENDANCE

The relevant Director will determine the appropriate officers to attend the Advisory Board meetings from time to time. Officers may also be co-opted to attend Working Group meetings as required.

#### REPORTING

The Advisory Board shall report annually to the Council summarising the activities of the Advisory Board during the previous financial year.

The Chairperson may be invited to attend Councillor Briefing Sessions on an "as needs basis" as part of the Advisory Board's performance report to Council.

#### **GENERAL**

The Advisory Board should address issues brought to the attention of the Advisory Board including responding to requests from Council for advice that are within the parameters of the Advisory Board's Terms of Reference.

Arts Advisory Board Terms of Reference

#### Code of Conduct for Members of the Arts Advisory Board

ac	iree to:

- Attend Advisory Board meetings and provide apologies in advance where attendance is not possible.
- Act in an advisory capacity by disseminating authorised information within the community and provide insight and advice into arts sector and community perspectives.
- ✓ Seek at all times to obtain and represent the views of the broader community.
- Respect the ideas and beliefs of all members and provide an atmosphere where all members feel comfortable to participate.
- ✓ Contribute in a positive way to finding solutions to issues or concerns.
- At all times act in good faith, with honesty and integrity and apply the skills and expertise I posses with diligence and care.
- Notify Council of any potential conflict of interest that may arise with respect to my participation on the Advisory Board.
- ✓ Allow Council to promote my participation in the Advisory Board in order to promote, support and grow arts in the City of Greater Dandenong.
- Not disseminate confidential information that is discussed at the Advisory Board meetings as advised by the Advisory Board chair.
- Not make any media comment on behalf of the Advisory Board in relation to the project unless approved by the Advisory Board chair.
- ✓ At all times act in accordance with the Agreed Meeting Etiquette.
- Declare any conflict of interest, direct or indirect, which may impact on my ability to carry out my duties with impartiality.

#### 4.3.2 Interfaith Network Contract

File Id: A7208506

Responsible Officer: Director Community Services

#### **Report Summary**

Council at its meeting held on 14 December 2020 considered a report that recommended entering into a contract agreement with the Interfaith Network of the City of Greater Dandenong (IFN) from 1 March 2021 to 30 June 2024 to support strengthening the organisation and contribute to achieving Council's strategic priorities.

Council directed that the contract first come to a Councillor Briefing Session for discussion regarding the strategic approach, requirements, key performance indicators, length and cost of the contract.

Council discussed the proposed contract at the Council Briefing Session on 18 January 2021.

This report recommends Council enter into a contract with the IFN to support strengthening the organisation and contribute to achieving strategic priorities of Council and the IFN.

### **Recommendation Summary**

This report recommends that Council enter into a contract agreement with the IFN from 1 March 2021 to 30 June 2024 at a rate of:

- 1 March 2021–30 June 2021 at \$30,000 amortised payment equivalent to \$90,000 per annum
- \$90,000 per annum to 30 June 2022
- \$80,000 per annum to 30 June 2023
- \$70,000 per annum to 30 June 2024.

Funding is recommended to be conditional upon the IFN achieving contract deliverables that support:

- 1. Organisational development and strengthening
- 2. Strategic community engagement and dialogue
- 3. Community education.

# **Background**

The IFN was established in 1989, the first of its kind in Australia. The Network is a group of 55 diverse cultural and religious faiths operating within the City of Greater Dandenong to bring peace, harmony and understanding to the community.

The IFN is based at 39 Clow Street, Dandenong and delivers a number of activities including coordinating a multi-faith prayer roster for Council meetings, coordinating tours of places of worship, education activities, and multi-faith events and dialogue.

Council entered into a Community Partnership Funding Agreement with the IFN in 2014-15. This funding has been extended to 28 February 2021.

Council officers have engaged with the IFN to identify and review key documentation and discuss options to fund the Network. This process identified the preferred option of entering into a contract arrangement to strengthen organisational development and provided greater alignment of Network activities to achieve strategic priorities of Council and the IFN.

The IFN has written to Council acknowledging the benefits of the proposed contract arrangement for both the IFN and Council.

### **Proposal**

It is proposed that Council enter into a contract agreement with the IFN from 1 March 2021 to 30 June 2024.

The agreement will include:

- Deliverables that support future financial diversification and sustainability, improved volunteer capacity and governance, and organisation communication and publicity.
- Facilitation of dialogue on issues strategically aligned with Council's priorities.
- Community education including tours for local stakeholders.

The contract will be staggered in line with financial diversification and sustainability deliverables at the following amounts:

- \$90,000 per annum to 30 June 2022
- \$80,000 per annum to 30 June 2023
- \$70,000 per annum to 30 June 2024.

The contract will include key performance indicators for the Network to achieve these outcomes, with contract oversight support by Council. Officers will assist the IFN to identify additional grant opportunities to diversify organisation funding.

# Community Plan 'Imagine 2030' and Council Plan 2017-21 – Strategic Objectives, Strategies and Plans

After consultation with the Greater Dandenong community on what kind of future they wanted to see for themselves and the City in 2030, the result was the Greater Dandenong Community Plan 'Imagine 2030'. This report is consistent with the following community visions:

#### Community Plan 'Imagine 2030'

#### **People**

- Pride Best place best people
- Cultural Diversity Model multicultural community
- Lifecycle and Social Support The generations supported

#### Place

- Sense of Place One city many neighbourhoods
- Safety in Streets and Places Feeling and being safe
- Appearance of Places Places and buildings
- Travel and Transport Easy to get around

#### **Opportunity**

- Education, Learning and Information Knowledge
- Tourism and visitors Diverse and interesting experiences
- Leadership by the Council The leading Council

#### Council Plan 2017-21

The Council Plan describes the kind of future the Council is working for, and how Council will do this over four years. This report is consistent with the following goals:

#### **People**

- A vibrant, connected and safe community
- A creative city that respects and embraces diversity

#### <u>Place</u>

- A healthy, liveable and sustainable city
- A city planned for the future

#### Opportunity

- A diverse and growing economy
- An open and effective Council

The strategies and plans that contribute to these outcomes are as follows:

- Council Plan 2017-21
- Community Wellbeing Plan
- Imagine 2030 Community Plan
- Greater Dandenong People Seeking Asylum Action Plan
- Community Development Framework.

#### **Related Council Policies**

- Diversity Access and Equity
- Community Facilities Management Policy.

#### Victorian Charter of Human Rights and Responsibilities

The Victorian Charter of Human Rights and Responsibilities has been considered in the preparation of this report but is not relevant to its contents.

# **Financial Implications**

Savings will be identified from the existing Community Funding budget for financial years 2020-21 and 2021-22.

Consideration for funding for financial years 2022-24 will be referred to Council's Long-Term Financial Planning Process.

#### Consultation

Significant consultation for this report has been conducted from September to January with the IFN executive committee and staff to identify and scope key strategic partnership opportunities. Consultation has also been conducted with relevant Council business units and Council.

#### Conclusion

This report concludes that Council enter into a contract arrangement with the Interfaith Network of the City of Greater Dandenong from 1 March 2021 to 30 June 2024 to deliver activities that strengthen the Network into the future and achieve strategic priorities of Council and the IFN.

#### Contract rates:

- 1 March 2021 30 June 2021 at \$30,000 amortised payment equivalent to \$90,000 per annum
- 1 July 2021 30 June 2022 at \$90,000 per annum
- 1 July 2022 30 June 2023 at \$80,000 per annum
- 1 July 2023 30 June 2024 at \$70,000 per annum.

#### Recommendation

#### That Council:

1. contracts the Interfaith Network of the City of Greater Dandenong from 1 March 2021 to 30 June 2024 to deliver activities that strengthen the Network into the future and contribute to achieving strategic priorities of Council and the IFN.

#### Contract rates:

# **Report Summary**

Dandenong Market Pty Ltd (DMPL) is a wholly owned subsidiary company of Greater Dandenong City Council established for the purposes of operating Dandenong Market.

The constitution governing Dandenong Market provides that the Board of Management controlling the company is to be comprised of between three and five Directors. At present due to recent resignations, the Board is operating with four Directors, one of whom is currently in an Interim role until Council makes further Director appointments.

Council recently undertook a recruitment exercise and this report makes a recommendation in respect of the appointment of two Director's which would provide a full complement of Directors under the constitution.

## **Recommendation Summary**

This report recommends that Council appoint Mr Chad Hermsen and Ms Pip Stocks as Directors of Dandenong Market Pty Ltd for a term of three years and further appoints Ms Donna McMaster as Board Chair with all appointments commencing from 24 March 2021.

# **Background**

Dandenong Market Pty Ltd (DMPL) was established in September 2012 as a means of Council establishing a skills-based Board to drive the strategic direction and operations of the Dandenong Market. Since this point, the Board has provided an extremely valuable service to Council and the Market has continued to evolve and develop including initiatives such as the introduction of Sunday trading and trialling in early 2020 of the night market.

The Market is an extremely valuable asset, not only to the City of Greater Dandenong, but also to the region, and acts as an important community networking vehicle that brings together people from all different backgrounds in the one location.

DMPL originally consisted of five Directors which were appointed by Council under the terms of the DMPL Constitution (which requires Director appointments to be made by the Shareholder (Council)). The number of Directors remained constant until December 2019, where following a resignation it was determined that the Board would trial a period of operations with four Directors.

DMPL has experienced two resignations from this position during 2020, with Ms Julie Busch resigning from the Board Chair role in May 2020 and Mr Franz Madlener resigning in November 2020. Council appointed Mr Tim Cockayne in June 2020 (and extended in December 2020) to be the Interim Chair for a period ending March 2021.

DMPL is therefore currently operating with four Directors, one of which has a term that is due to shortly expire.

A recruitment process was commenced in October 2020, closing on 18 November 2020 with advertisements placed on-line via the Australian Institute of Company Directors (AICD) and Women on Boards. A first round of interviews was conducted in late November and second and subsequent round was completed on 3 February 2021.

Following the completion of the interview process, it is recommended to Council that it appoints Mr Chad Hermsen and Ms Pip Stocks as Directors of DMPL for a three-year period.

Mr Hermsen has extensive experience in retail and strategic property development in his current role as Portfolio General Manager – Retail, QIC Global Real Estate, including key roles in the planning and delivery of retail developments in the Melbourne Emporium, Chadstone and Pacific Werribee.

Ms Stocks has a strong background in brand strategy, marketing and digital transformation focussed on customer experiences.

Both bring unique skills sets that will complement the existing Board.

These appointments will bring the number of Directors back to the full amount of five as allowed under the constitution (noting the retirement of Mr Cockayne following the 23 March 2021 Board Meeting).

In accordance with the 12 December 2020, Council report which resolved to appoint Ms Donna McMaster as the 'chair-elect' to allow for a transition period to occur between Mr Cockayne and herself, this report now recommends the formal appointment of Ms McMaster as the Board Chair. This appointment will ensure continuity of the strategic direction of the Board as it re-establishes itself with three new Board members.

This report further recommends that Council formally recognise the work of both Mr Cockayne and Ms Julie Busch in guiding the Market through some difficult times during 2020 and in the case of Ms Busch in the years proceeding.

# **Proposal**

This report recommends that Council appoint Mr Chad Hermsen and Ms Pip Stocks as Directors of Dandenong Market Pty Ltd for a term of three years and further appoints Ms Donna McMaster as Board Chair with all appointments commencing from 24 March 2021.

# Community Plan 'Imagine 2030' and Council Plan 2017-21 – Strategic Objectives, Strategies and Plans

After consultation with the Greater Dandenong community on what kind of future they wanted to see for themselves and the City in 2030, the result was the Greater Dandenong Community Plan 'Imagine 2030'. This report is consistent with the following community visions:

#### Community Plan 'Imagine 2030'

#### **Opportunity**

- Tourism and visitors Diverse and interesting experiences
- Leadership by the Council The leading Council

#### Council Plan 2017-21

The Council Plan describes the kind of future the Council is working for, and how Council will do this over four years. This report is consistent with the following goals:

#### **Opportunity**

- A diverse and growing economy
- An open and effective Council

#### Victorian Charter of Human Rights and Responsibilities

The Victorian Charter of Human Rights and Responsibilities has been considered in the preparation of this report but is not relevant to its contents.

# **Financial Implications**

There are no financial implications associated with this report.

#### Consultation

The recruitment process undertaken to this point have been done in partnership with DMPL.

#### Conclusion

There is little doubt that during 2020 the Board of DMPL has undergone significant change. The importance of consistency in management and strategic direction of the Dandenong Market remains however of paramount consideration for Council. This report recommends the appointment of two new Directors and the appointment of Ms Donna McMaster as the Board Chair.

#### Recommendation

#### **That Council:**

- 1. appoints Mr Chad Hermsen and Ms Pip Stocks as Directors of Dandenong Market Pty Ltd for a three-year term commencing 24 March 2021;
- 2. appoints Ms Donna McMaster as the Board Chairperson; and
- 3. provides a letter under seal recognising the contributions made by both former Board Chairs in Ms Julie Busch and Mr Tim Cockayne.

Cr Jim Memeti disclosed a Direct Material Conflict of Interest of a Non-Pecuniary nature (s.128) in this item as he is the director of a company that has a stall at Dandenong Market. Cr Jim Memeti left the Chamber at 7.28pm prior to discussion and voting on this item.

#### **MINUTE 95**

Moved by: Cr Tim Dark

Seconded by: Cr Bob Milkovic

#### **That Council:**

- 1. appoints Mr Chad Hermsen and Ms Pip Stocks as Directors of Dandenong Market Pty Ltd for a three-year term commencing 24 March 2021;

**CARRIED** 

Cr Jim Memeti returned to the Chamber at 7.31pm.

# 4.3.4 Report on Matters Discussed at Councillor Briefing Sessions & Pre-Council Meetings - 25 January & 1 February 2021

File Id: fA25545

Responsible Officer: Director Corporate Services

## **Report Summary**

As part of Council's ongoing efforts to improve transparency in Council processes, matters discussed at Councillor Briefing Sessions & Pre-Council Meetings (other than those matters designated to be of a confidential nature) are reported on at ordinary Council meetings.

The matters listed in this report were presented to Councillor Briefing Sessions & Pre-Council Meetings in January and February 2021.

# **Recommendation Summary**

This report recommends that the information contained within it be received and noted.

4.3.4 Report on Matters Discussed at Councillor Briefing Sessions & Pre-Council Meetings - 25 January & 1 February 2021 (Cont.)

# **Matters Presented for Discussion**

Item		Councillor Briefing Session/Pre-Council Meeting
1	General Discussion	25 January 2021
	Councillors and Council officers briefly discussed the following topics:	
	<ul><li>(a) Australia Day events.</li><li>(b) Municipal Association of Victoria representation.</li><li>(c) Agenda items for the Council Meeting of 25 January 2021.</li></ul>	
2	Dandenong Aquatic and Wellbeing Centre Business Case	1 February 2021
	Councillors were provided with an overview of planning undertaken to date for the Dandenong Aquatic and Wellbeing Centre including the finalisation of the draft Business Case to submit for grant funding purposes.	
3	Mandatory Councillor Induction – Engagement and Reconciliation with Traditional Owners of Land in Greater Dandenong	1 February 2021
	Councillors undertook this session to satisfy one aspect of mandatory Councillor induction required under the <i>Local Government Act 2020</i> and associated regulations by specifically addressing engagement and reconciliation with the traditional owners of land in Greater Dandenong. All Councillors were present for this induction session.	
4	Draft Community Engagement Policy	1 February 2021
	Councillor feedback was sought on the draft Community Engagement Policy prior it being presented to the 22 February 2021 Council meeting for endorsement.	

# 4.3.4 Report on Matters Discussed at Councillor Briefing Sessions & Pre-Council Meetings - 25 January & 1 February 2021 (Cont.)

5	Arts Advisory Board Member Nominations	1 February 2021
	Councillor feedback was sought on proposed nominations for Arts Advisory Board Member and Chair positions prior to a report being presented to the Council meeting on 22 February 2021 for endorsement.	
6	General Discussion	1 February 2021
	Councillors and Council officers briefly discussed the following topics:	
	a. Ordish road development update.	
	b. Hanna Street, Noble Park development update (CONFIDENTIAL).	
	<ul><li>(c) Upcoming Reuse and Recycle Day event.</li><li>(d) Community Gardens within the municipality.</li><li>(e) Agenda items for the Council Meeting of 8 February 21.</li></ul>	

# **Apologies**

• Cr Jim Memeti submitted an apology to the Pre-Council Meeting of 25 January 2021.

#### Recommendation

#### That:

- 1. the information contained in this report be received and noted; and
- 2. the information discussed at the above listed Councillor Briefing Session that was declared confidential in item 6(b) by the Chief Executive Officer under sections 77(2)(c) of the Local Government Act 1989 and section 3(1) of the Local Government Act 2020 remains confidential until further advisement unless that information forms the subject of a subsequent Council report.

Item 6(b) was deemed confidential on the ground that is was council business information that would prejudice the Council's position in commercial negotiations if prematurely released.

Director Business, Engineering & Major Projects

# **Report Summary**

This report provides background and a recommendation for the introduction of a subsidy to City of Greater Dandenong residents paying the Residential Garbage Levy when purchasing one of the following items:

- Compost Bin
- Compost Tumbler
- Worm Farm
- Bokashi

# **Recommendation Summary**

This report recommends that Council:

1. Funding be recommended for inclusion in the 2021/22 Budget to support a subsidy of compost related products as follows and if successful, commence the scheme from July 2021:

Item	2021/22	2021/22
	Maximum Subsidy Quantities	Subsidy Level
Compost Bin	200	30%
Compost Tumbler	50	30%
Worm Farm	100	30%
Bokashi	50	30%
Delivery per Item	As above	\$10.00

- 2. Limits the subsidy to one purchase per household per financial year;
- 3. Adopt an on-line purchasing process for residents to order and pay for their required compost unit.
- 4. That the success of the initiative be reviewed each year by the Waste Services Unit and that the level of offer and subsidy be reviewed each year as a part of the annual budget process.

- 5. That the nominated Waste & Recycling portfolio councillor be consulted as a part of that review.
- 6. Council's Education Officers continue to engage, educate and promote home composting.

# **Background**

In August 2020 Council approved the introduction of FOGO to its kerbside garden waste collection service. The Council Report stated "We will actively promote home composting as a beneficial alternative for all households" in addition to offering council's kerbside FOGO collection service.

At the Council meeting held on 30 November 2020, Cr. Rhonda Garad reference Monash and Casey Council's initiatives to incentivise and encourage behaviour change and to also take a leadership position via a compost rebate scheme for residents who wish to purchase a compost bin for home composting rather than disposal of organics via a council collection service.

The following Notice of Motion was raised by Cr. Garad and supported by Councillors as follows:

That officers present a report to a Council meeting before the end of February 2021 with the costs and benefits of a compost bin rebate.

#### **FOGO**

Council's FOGO collection services was formally adopted by Council in August 2020 and will commence on 5 April 2021. The introduction of FOGO is consistent with Council's Waste & Litter Strategy 2015-20 which is aligned with the State Government's "State-wide Waste & Resource Recovery Infrastructure Plan "(SWIRRP) and Circular Economy Policy ("Recycling Victoria") which prioritises diversion from landfill and a more sustainable use of resources.

Promoting composting is complimentary to FOGO and consistent with the primary intent of diverting waste from landfill.

#### Composting

Home composting delivers a real benefit to the home gardens to enrich soils, whilst promoting sustainability and the circular economy intent. The opportunity for council to support home composting demonstrates leadership and a genuine commitment to enhancing sustainability and engaging the community to support those objectives.

Furthermore and whilst difficult to quantify, any diversion away from the kerbside waste and recycling stream will reduce council's waste and recycling processing costs.

A benchmarking exercise of neighbouring councils via their website found the following subsidised offerings to their residents:

Item	Monash	Casey	Knox
Compost Bin			
Compost Tumbler			
Worm Farm			
Bokashi			

Delivery per Item			
-------------------	--	--	--

Further consultation with individual council officers took place to understand the level of subsidy, the overall annual cost and the processes employed. These were considered when forming a recommendation to Council.

Monash Council offered an easy on-line purchasing system whereby residents could make their purchase inclusive of delivery via a link from the council website to council's supplier. The resident is charged the discounted rate when making a purchase, with council invoiced the value of the subsidy. Monash council officers reported this was a seamless process, easy to manage and provided convenience to the customer. Monash Council has introduced a cap limiting the number of items that can be offered at a discounted rate and a level of subsidy for each item which has provided council with surety aligned with the annual budget allocation.

Casey Council residents are required to purchase their items from a retail outlet and provide a copy of the receipt for reimbursement by council. They similarly have a set cap and subsidy level.

Both councils have a limit of one (1) subsidised purchase per year per household.

#### **Community Education & Engagement**

Council's Environmental and Waste Education Programs include education and engagement sessions on home composting. The offer of subsidised compost units will further enhance the community engagement via these sessions.

# Community Plan 'Imagine 2030' and Council Plan 2017-2021 – Strategic Objectives, Strategies and Plans

After consultation with the Greater Dandenong community on what kind of future they wanted to see for themselves and the City in 2030, the result was the Greater Dandenong Community Plan 'Imagine 2030'. This report is consistent with the following community visions:

#### Community Plan 'Imagine 2030'

#### People

0. Pride – Best place best people

### Place

1. Sense of Place – One city many neighbourhoods

#### Opportunity

- 2. Education, Learning and Information Knowledge
- 3. Jobs and Business Opportunities Prosperous and affordable

#### **Council Plan 2017-2021**

The Council Plan describes the kind of future the Council is working for, and how Council will do this over four years. This report is consistent with the following goals:

#### **People**

4. Pride

#### **Place**

- 5. Leadership by Council
- 6. Regional Capital Dandenong
- 7. Jobs and Business Opportunities
- 8. Prosperous and Affordable

#### **Opportunity**

- 9. A diverse and growing economy
- 10. An open and effective Council

The strategies and plans that contribute to these outcomes are as follows:

## **Greater Dandenong Waste & Litter Strategy 2015-20**

The introduction of a compost subsidy scheme for residents is consistent with this Strategy including consideration of lower socioeconomic factors and cost to the community and, Theme 5 "Closing the Loop on Recycling".

#### **Greater Dandenong Sustainability Strategy 2016-2030**

Council's Sustainability Strategy includes several Themes relevant to FOGO.

Theme Waste and Resources with the Goal of a "Waste Wise City". Key Objectives related to composting include:

- Reduce the amount of total waste sent to landfill.
- Increase the amount of material that is recovered for re-use and recycling.
- Work in partnership with our community to reduce the amount of food going to landfill.
- Work in partnership with our community to increase recycling rates.
- Increase community awareness on waste and recycling.

#### Victorian State Government Strategies, Plans & Policy

#### "State-wide Waste & Resource Recovery Infrastructure Plan "(SWIRRP).

This Plan is one of the State Government's key strategic plans for waste and resource recovery.

The SWIPRP's Strategic Direction 1 – Prioritise viable recovery has a key focus for the resource recovery of household food with an estimated 35% of household garbage comprising of food. The Strategic Direction states the objectives of improved environmental and financial outcomes for the community.

#### **Circular Economy Policy 2020**

The State Government's Circular Economy Goal 3 is to "Recycle more resources" with a target of halving the amount of food going to landfill by 2030.

#### Victorian Charter of Human Rights and Responsibilities

The Victorian Charter of Human Rights and Responsibilities has been considered in the preparation of this report but is not relevant to its contents.

# **Financial Implications**

Placing the recommended cap and level of subsidy for each item will require \$20,000 to be funded in the 2021/22 budget. This cost can be recovered via the Residential Garbage Levy charge adding a minimal charge per household.

#### Consultation

A benchmarking exercise was undertaken of the Monash, Casey, Knox, Kingston and Frankston Councils, with further consultation undertaken with Monash, Casey and Knox Council Officers.

City of Greater Dandenong Waste Services met with Councillor Rhonda Garad to workshop options on Wednesday 27 January 2021 and a Councillor Briefing was provided to councillors on Monday 15 February 2021, when councillors were afforded the opportunity to provide input into the compost bin subsidy proposal.

#### Conclusion

Adopting a subsidy for home composting supports Council's sustainability objectives, provides clear support to the community to encourage their commitment to sustainable living with a meaningful and tangible offering.

A community that adopts home composting will ultimately aid in the improvement to the quality of home soil conditions to aid better gardens, reduce waste to landfill, reduce the volume of kerbside organics collected, which will reduce those costs.

#### Recommendation

#### That:

1. funding be recommended for inclusion in the 2021/22 Budget to support a subsidy of compost related products as follows and if successful, commence the scheme from July 2021:

Item	2021/22 Maximum Subsidy Quantities	2021/22 Subsidy Level
Compost Bin	200	30
Compost Tumbler	50	30
Worm Farm	100	30
Bokashi	50	30
Delivery per Item	As above	\$10.00

- 2. Council limits the subsidy to one purchase per household per financial year;
- 3. Council adopts an on-line purchasing process for residents to order and pay for their required compost unit;
- 4. the success of the initiative be reviewed each year by the Waste Services Unit and that the level of offer and subsidy be reviewed each year as a part of the annual budget process;
- 5. the nominated Waste & Recycling portfolio councillor be consulted as a part of that review; and
- 6. Education Officers continue to engage, educate and promote home composting.

#### **MINUTE 97**

#### 5 NOTICES OF MOTION

# 5.1 Notice of Motion No.4 - Orange Door

File Id:

Responsible Officer: Director Community Services

Author: Cr Tim Dark

#### **Preamble**

The Orange Door is a centre for victims of family violence backed by the State Government. It is understood that there is a very successful Orange Door operating in the Bayside Peninsula region and others are reportedly being rolled out elsewhere. There is a proven need for as much support as can be provided to the people of the South East region and Greater Dandenong local government area in particular to address family violence and the proven success of Orange Door confirms that its services and programs (and related programs by any other providers) ought to be optimised in this region. Greater Dandenong's 'doors' ought to be open and welcoming of 'Orange Door' and any other providers that can address this most important matter.

#### Motion

#### **That Council:**

- 1. recognises and supports the outstanding work that Orange Door is doing for the victims of family violence and advocates to State Government for the programs on offer and any related programs to be optimised in this south-east region and the City of Greater Dandenong in particular; and
- 2. publishes on Councils Advocacy page, this position and the support that Council has for any programs that will benefit victims and families in need.

#### **MINUTE 99**

**CARRIED** 

For the Motion: Cr Tim Dark, Cr Lana Formoso, Cr Eden Foster, Cr Richard Lim, Cr Angela Long, Cr Jim Memeti, Cr Bob Milkovic, Cr Sean O'Reilly, Cr Sphoie Tan, Cr Loi Truong

Against the Motion: Cr Rhonda Garad

#### Question

#### Cr Lana Formoso

An issue has been brought to my attention for quite some time now and that is accidents that are occurring on the corner of Elonera Road and Oakwood Avenue in Noble Park North. It has been brought to my attention on a few occasions and residents have also sent me photos of severe accidents that have occurred there. We do have some traffic mechanisms in place there but I think everyone is in agreeance within that area that it is not sufficient so we would really like someone to have a look at that and see what could be done please.

### Response

## Paul Kearsley, Director Business, Engineering and Major Projects

I will take that question on notice for the Traffic Engineers to investigate.

#### Question

### Cr Lana Formoso

Another question from a local resident who lives in my Ward was relating to an electrical substation on the corner of Gladstone Road and Halton Road in Dandenong North. The resident has said that they are extremely sick of driving past the unsightly look of the substation and are wondering if we could do anything in terms of planting trees or something that will hinder the view because there are some barbed wires and the look of it is quite unsightly. Is there anything that Council can do? I understand that it is probably tricky being a substation but if there was something we could do to increase the look of it, it would be really appreciated especially since it is directly opposite Lyndale Secondary College.

## Response

### Paul Kearsley, Director Business, Engineering and Major Projects

Our officers have investigated and it is always difficult with substations due to the fact that they are not Council asset. They are owned by electrical companies and they are usually very sensitive about making too many improvements to what are generally, very ugly buildings. However, I can say that the Landscape Team have investigated and we hopefully be able minimise the impact of the building bulk by doing some further plantings. I will also be contacting an area that usually does not deal with areas outside of activity centres. We did a couple of years ago, have the opportunity of painting a substation in a carpark in Springvale under a small painting fund that we use. I will ask the question as to whether or not there is an opportunity to do that in this substation. It can be difficult with regards to the owners. The electrical companies usually say no they are not willing for that to occur, but we will ask the question and see what we can do.

# Comment Cr Eden Foster

I would like to start by thanking the Mayor for writing to the Minister for Immigration, Citizenship, Migrant Services and Multicultural Affairs with regards to Council's support for the Biloela family detained on Christmas Island. Since my initial request for this letter on 25 January this year, we have heard news that the family has been spared deportation but still remain detained on Christmas Island. I do not think any of us needs to have two daughters to empathise with this family. Nonetheless, thank you, Madam Mayor for expressing our concerns.

# Question Cr Eden Foster

On a different note and a different matter, I have a query about garbage. Most residents are careful and considerate when putting their bins out. I have noticed however and have had numerous residents complain throughout the City of Greater Dandenong that on respective bin days, bin lids are often open fully or even ajar. Just enough for birds particularly crows, to go rummaging through them, pulling out rubbish which is often seen scattered on the roads, footpaths and entering our drainage systems causing further damage to our precious environment. Council is also introducing the food waste recycling in April 2021, which is a fantastic initiative. My concern is that we may be encouraging crows and vermin to our communities when bin lids are not fully closed. How is Council educating the community on how to dispose of rubbish properly and safely, particularly as we roll out the food waste recycling initiative? I understand we do much of this online and in our community news magazine and we have got a recent pamphlet as well which is great but how are we reaching individuals from culturally and linguistically diverse (CALD) and non-English speaking backgrounds?

#### Response

#### Paul Kearsley, Director Business, Engineering and Major Projects

With regards to the bin lids that are left open, the quickest and best thing to do is for the residents to send us an email because we then report that back to our bin collection service. If they are not meeting our standards with regards to either the location of bins or not putting them back where they were picked up from and leaving them lying in the street, we report that to them and they have to improve their service delivery. If you do get that, please let the residents know that they can send an email through to Council or you can do that to myself.

With regards to the other matters you raised, in terms of covering other parts of our community, a waste education plan developed and tailored for our community is reviewed each year. The delivery of the programs that make up this plan start at early learning centres, all levels of schooling, a number of community groups and through TAFE programs where we deliver key waste and recycling messages to all our community including the CALD community. A media and marketing plan which supports the waste education plan ensures that key waste and recycling messages are delivered through Council's key media platforms which is Facebook and other mechanisms. The introduction of the food organics into the garden waste stream has been heavily communicated into the community using the brochure that I showed before.

A great deal of our communications uses visual illustrations rather than words. I think there is a very small amount of words in that document. We try and capture it with visual imagery because the issue we have is the many different languages that we have in this community so the document would be about 20 pages long if we wanted to make sure everyone was communicated to. We have in this case, really wanted to target through visual means and we are happy to get feedback on whether that has been successful or not.

We have also conducted education sessions with our customer services centres and have provided them with an extensive list of FAQs to support any contact that they might have from our CALD communities with non-English speaking language. We have also recently updated our website to assist in these initiatives as well. Those are some ways that we can use to address the CALD initiatives. Part of the package that we do provide is an opportunity for Waste Officers to go and present to CALD groups or non-English speaking groups. Unfortunately, during 2020, of course, those did not take place because of the issues around COVID-19. However, we are intending to pick those up again and the delivery style of more face to face with webinars and other things like that. We hope to progress into 2021 as the service commences around 5 April 2021.

# Comment Cr Rhonda Garad

This week I had the privilege of meeting with the City of Greater Dandenong officers to hear about the wonderful work that Council is doing around gender equity and I commend the Council for the work they are doing on this. I greatly look forward to supporting this work in partnership with WISE to meet our legislative obligations in implementing the first Gender Equity Act and to create a fairer and more equal environment for both males and females.

# **Question Cr Rhonda Garad**

All of the other councils in the south-east have tabled their recent Council agendas, their officer responses to the recently proposed State Government Green Wedge Zone Reform, planning for Melbourne's green wedges and agricultural land. When will our officers response be made public and how?

#### Response

## Jody Bosman, Director City Planning, Design and Amenity

Council officers have made a submission in response to the Department of Environment, Land, Water and Planning (DELWP)'s planning for Melbourne's green wedge and agricultural land project consultation paper. While being generally supportive of the options proposed, officers have amongst other matters highlighted the need for further strengthening of the legislative protections of the green wedge; requested consideration of how to capture land value uplift and encourage land to be used for green wedge purposes, identified certain uses that should be prohibited in the green wedge and stated that soil and earth storage should form part of this project. There is a real concern that soil and earth storage and the consideration of that as a land use has not come into the framework of this project. Council officers will now arrange for this submission to be placed on Council's website for the public to view.

# Question Cr Rhonda Garad

Greater Dandenong Council is the last Council who signed up to the new Eastern Region Pest Animal Strategy. For Greater Dandenong, this meant a commitment to address the issues with foxes, rabbits, miner birds and feral cats. What is the status of the Action Plan that Greater Dandenong is creating? Is there a component of the implementation of the Strategy and when will Councillors be consulted on it? Is it considering implementation of a cat curfew?

#### Response

# Paul Kearsley, Director Business, Engineering and Major Projects

Just before the recent Election, we provided information via the Councillors Weekly Information Summary (Infosum) to all the then Councillors back on 12 October 2020, so I am happy to make that available to you because it does spell out exactly I think some of the questions that you are seeking. However, what I can advise back then in October 2020 was that the Strategy is now complete and the next step is for Council to develop and implement a Local Action Plan. Development and execution of a Local Action Plan will also help Council's obligations to effectively manage pest animals under various Commonwealth and State legislation.

Just as some background, the Action Plan is to support a whole range of existing pest animal control programs in some of our parks and conservation reserves, including surveys of foxes, rabbits, rabbit control through baiting and warren destruction, fox control, feral cat control through trapping. Council rangers also hire out cat traps to residents to catch trespassing cats. These programs and other successful programs run by other landholders will be reviewed and considered in the context of the regional strategy through the development of a local plan.

I can advise that with regards to the development of a local plan, there is a meeting this Wednesday 24 February 2021, with all of the parties involved in the regional plan to talk through the next steps. The development of a Local Action Plan, the approval processes that are required, including when we bring it back to Council for further discussion and debate or approval, the establishment of subgroups and a governance regime around that because it does involve a significant number of groups, not just councils but also State agencies. That is the advice with regards to that current program.

On behalf of Jody Bosman with regards to cat curfews, which is generally dealt with through his team, this document and the Local Action Plan will be considered as part of the reviewed Domestic Animal Management Plan and local laws review so there are ties between the two pieces of documentation.

# Question

### **Cr Rhonda Garad**

The Keysborough South Levy covers 20 percent of the open space minus five percent which is covered by general rates so effectively 15 percent of open space. The cost to maintain the open space which does not include mowing seems quite high. Can these costs be broken down in simple terms to perhaps monthly so that residents can see where this levy is being spent on?

#### Response

#### Jody Bosman, Director City Planning, Design and Amenity

This was a matter of much discussion at the time of campaigning during the recent Elections, much information was gathered. A lot of information was handed out or given to prospective candidates at that stage. Its information and its questions that in fact, go across three different directorates. I am going to take your question on notice so that I can pull together a comprehensive response that can then be put into the Council Minutes. It will be there for the public record. Your question might seem to be a simple one, but the answer is in fact, quite a detailed one. We will come back to Council with a response.

### **Question**

### **Cr Rhonda Garad**

My last question is just an extension of that and happy to have this taken on notice as well. In light of the increasing density developments in Keysborough South which were allowed after the levy was brought in, how is the 20 percent distribution with the levy calculated given the increased number of residents in the high density development?

#### Response

# Jody Bosman, Director City Planning, Design and Amenity

This question was in fact part of the questions as well that I referred to in the campaigning period of the Elections. I will incorporate that question into the overall levy response and explain how that does or does not affect the application of the levy in the area.

#### Question

### **Cr Jim Memeti**

Unfortunately, homelessness is growing. I hear that it happens in Springvale and in Noble Park and I see it in Dandenong every day. I had a call today and also received some messages regarding three new tents being put up within Dandenong Park. Can the relevant officer please look into that tomorrow morning because I know we will not only see three but more and more tents being put up at the Park? We have been really good at dealing with the homeless in Dandenong Park but I just want to make sure we stay on top of it.

#### Response

# Jody Bosman, Director City Planning, Design and Amenity

We will have officers out there first thing in the morning.

#### Question

#### Cr Jim Memeti

The Clean Up Australia Day is on Sunday 7 March 2021. I have heard that a few local community groups want to participate. However, they want to know what happens with all the rubbish that they collect. Does Council support in helping them collect the rubbish or is there another agency that they might be able to contact?

#### Response

#### Paul Kearsley, Director Business, Engineering and Major Projects

We have already had many enquiries from other Councillors on behalf of other community groups. The best thing to do is for those community groups to contact myself. I will then engage Tony Barca, Team Leader Waste Services, to speak directly to those groups. We can assist with the provision of bins and other matters and also give them some advice on how and when it can be collected so we are more than happy to assist the community groups.

#### Comment

#### Cr Jim Memeti

Thank you for a great response. I really want to support the community getting out there and doing their bit and when Council's supporting them, everything goes well and have more people out there so that is fantastic.

#### Question

#### Cr Jim Memeti

I just wanted to know how the process is going on the selection of an architect for the new Dandenong Oasis project?

#### Response

# Paul Kearsley, Director Business, Engineering and Major Projects

We are at a fairly exciting stage with regards to that. Last time, I was able to brief Council that we had selected four of the best architects in Australia who were experienced with regards to the design and then following through with the construction of aquatic and leisure centres in Victoria but also around Australia.

This week there is a significant number of us including my colleague, Martin Fidler who will be spending some time assessing those four tenders that were submitted. We are very much hoping to complete the tender process and bringing that to Council for a decision in the first Council meeting in April 2021 and then we will essentially be underway. Each will have to outline their particular process for community and stakeholder engagement and we will be bringing that back to Council to inform them of the next steps probably at least in early May I would hope but the first thing will be for Council to approve and select the preferred architect that we will bring to Council in early April. Exciting times.

#### Question

#### **Cr Jim Memeti**

The Hemmings Street bottle shop at the IGA Supermarket through the consultation process indicated that they were really, really concerned that people are buying alcohol and then sitting on the seats causing issues and it does not make sense to have the seats there. Can we look at removing the seat as soon as possible to reduce the problems from this bottle shop?

#### Response

#### Paul Kearsley, Director Business, Engineering and Major Projects

I have instructed officers as of this morning to remove that particular chair or bench. We had to determine where it was because from my understanding, we had already removed some outside the IGA that you speak of. This particular bench is slightly to one side but we can understand the concerns. In order to complete the removal of the other two that we did take out, based on the request and the issues down in Hemmings Street, I have agreed that in this circumstance, we will remove the other one. However, there are a couple of others that are located still in the centre that are not directly outside or adjacent to that site.

# Comment Cr Sophie Tan

This is my report since the last Council meeting.

On 10 February 2021, I attended the Community and Safety Advisory Committee via Zoom with Mayor Long, Cr Garad and Cr Formoso. We had the privilege of meeting different community groups and Victoria Police to discuss the Community Plans for 20/21 which will come to a Council meeting in April 2021.

I also want to congratulate the Minister for Women and Minister for Prevention of Family Violence, The Hon. Gabrielle Williams for the announcement on the Orange Door today. The initiative of the Orange Door is one of the most important parts of dealing with family violence. As we know, with COVID-19, there has been an increase in family violence and the mental health issues associated with it especially in Greater Dandenong so I was glad when the local Member of Parliament informed me through Facebook today. Congratulations also to Cr Dark for his Notice of Motion. This will be a great opportunity to work together with different communities speaking different languages and for everyone to get help which is good.

#### **Question**

## Cr Sophie Tan

With regards to Food Organic Garden Organic (FOGO), I received a few emails from residents in my Ward about the kitchen caddy. How many caddies can one order because some residents are having problems placing their orders online saying that they are not eligible to order the caddies but they do have the green bin?

#### Response

# Paul Kearsley, Director Business, Engineering and Major Projects

With regards to any issues that the community members or residents have in accessing the online system, I would recommend that they ring the number on the leaflets and they can be given direct instructions and/or assistance in terms of how to make a booking for the online caddy. As I indicated before, we have had over 3,500 acceptances as of noon today and the information went out last week. We are getting constant use of that. If there are some issues with regards to the online system,

I have asked the staff to check the system first thing in the morning to ensure that there are no glitches or any issues. If we do continue to get more, we can certainly have a look at that issue but if any resident has a concern, there is a phone number on those leaflets that they need to call.

# **Question Cr Sophie Tan**

Some people are not happy because they are concerned about the smell if they were living next door to those who use this service. I know it is not compulsory to go FOGO but it is a general question. How would you deal with the smell caused by using FOGO?

#### Response

## Paul Kearsley, Director Business, Engineering and Major Projects

That is a matter that each resident needs to address themselves. It does depend on the nature of what food they put in there. However, having had my own experience of having FOGO at the City of Casey for at least the last seven months, I do not tend to have any issues. If you do use additional green grass clippings and other vegetation, that can also help in dealing with any offensive smells. As previously advised, people can use newspaper within their kitchen caddies and that can also assist with soaking up any of the issues as well. It is a matter that we are aware of and if necessary, we can then provide some further advice but all I would say is that people need to have some patience. The service has not yet even commenced but we will keep an eye on how that might be trending with regards to any feedback that we get from 5 April 2021.

# **Question Cr Sophie Tan**

My next question is regarding dumped rubbish. We know that this is one of the most common issues raised in Greater Dandenong. Every three months we get a request from the residents. Based on the reports we receive, the top service request is dumped rubbish bins removal in different suburbs. Dandenong, Noble Park, Springvale and probably Keysborough are the four suburbs so moving forward, what is Council's strategy to solve dumped rubbish removal from our City?

#### Response

# Paul Kearsley, Director Business, Engineering and Major Projects

That question will take some time to answer but what I can say is that we do have a hot spot program that deals with known areas where we have a high level of community response to dumping incidents. We do get a truck out sometimes daily, sometimes two or three times a week to tackle issues that are related to dumping areas that are more common and the current levels are an issue. One of the problems that we seem to be facing is that there is a time lag between when rubbish is dumped and then when it is sometimes collected. Part of the reason behind that is to allow Mr Bosman's area with regards to enforcement and local laws to undertake some investigations if we need to.

Sometimes that can help in identifying who is doing the dumping. That can lead to a couple of days delay in picking up dumped material. Sometimes it is also part of our formal waste collection that people have not put the sticker on it or they have not identified it properly. I would be happy to bring some further information back to Council at a briefing session to provide a greater level of comfort

and seek some direction in terms of the dumping issues that we do face. It is an issue that most councils face and we have an area in Dandenong South and other parts of the industrial area where it is a bit easier to get away with some dumping so we do face that problem as well but that is something that we continue to manage through a hot spot program and other pick up programs. We do have to balance that with regards to the cost to Council as well. There are many times during the year when we will advocate with our other Councils in the region for greater assistance to deal with this as a dumping issue which is considerable. Again, I hope that provides some answers but we are happy to bring back at another time perhaps a more detailed discussion on how best to deal with dumped rubbish.

# **Question**

### Cr Sophie Tan

Could the relevant officer please provide an update on the Noble Park Aquatic Centre well-being and gymnasium? I recently received a query from one of the residents that they did not get consulted.

#### Response

## Paul Kearsley, Director Business, Engineering and Major Projects

If it is the resident that I think you are referring to, I did inform them in response on how we did undertake our community consultation with that matter which was extremely extensive. Many individuals who are well-known members of that centre were individually notified of the consultation and were asked the question if they would like to participate and they chose not to. Council would have approved a couple of weeks ago now, the contractor to commence construction and we are now going through a process because we received \$3.3m from the State Government for that to line up an appropriate celebration when we break soil and break the ground. We hope that will occur in late April 2021. That is something that we are coordinating now but Council has appointed a contractor and we will be very much underway very soon constructing.

# Comment

### **Cr Richard Lim**

At the last meeting, I raised some issues regarding the toilets, especially public toilets in Springvale. A couple of weeks ago I discussed with the Springvale Shopping Centre Management and spent quite some time convincing them to renovate their toilets. At the end of that discussion, management have agreed that they are going to renovate the toilets in early March which is a great outcome.

Secondly, last Thursday I had a chance to join the Annual General Meeting of the Body Corporate at Springvale Centre. I had a very, very intense discussion with them because I am also a member of Body Corporate. They agreed with me and they have decided to allocate about \$140,000 to renovate the toilets. That is a great outcome.

# **Question**

### **Cr Richard Lim**

What can Council do to improve our public toilets and how can we work out the patron ratio if we want to put more public toilets in the Springvale Activity Centre?

#### Response

#### Paul Kearsley, Director Business, Engineering and Major Projects

With regards to the issue of cleansing, the toilet in Balmoral Avenue carpark is cleaned three times a day. We have one of the highest standards of cleaning in this municipality. Depending on where the toilets are, how well they get used and how often they get used, we have a cleansing regime based on all of that. I can certainly provide some further information to Cr Lim on how we go about dealing with that and whether or not we have received issues of complaint over the last sort of six or 12 months.

With regards to the provision of new toilet facilities in Springvale, we will be bringing to Council a Draft Toilet Strategy in the coming months, which will identify a whole range of suburbs and localities where we have identified a need for further facilities. They are usually based on distance that you have to travel to another facility so there are some significant gaps that we have in our municipality and they will really be the priority for Council to make a decision through the capital works program to then build these new toilets. With the Balmoral Avenue carpark toilet already existing, it may not be a top priority for Springvale Shopping Centre to have more Council toilets but I would say that we can discuss that matter further when we bring the Draft Toilet Strategy for Council's consideration in the coming months.

# Comment Cr Richard Lim

Thank you, Mr Kearsley. For Springvale Shopping Centre we can add some toilets where the loading zones or parking are a bit far from the shopping centre. It makes it easy for the Shopping Centre customers or patrons. I believe we can add more public toilets in Springvale. It will attract more visitors because that is the main problem within Springvale.

# **Question Cr Richard Lim**

The second thing is the impact of the state lockdowns on business. I went to visit the restaurant owners in the Springvale Shopping Centre. They have lost a significant amount of money from the lockdown especially during the Lunar New Year and Valentine's Day celebrations. They had to throw away meat and vegetables. Many restaurants are barely surviving as a result of COVID-19. Is there anything that Council can do to help them or assist them regarding this problem?

#### Response

#### Paul Kearsley, Director Business, Engineering and Major Projects

We too understand through our business group the issues that many businesses have been facing over the recent circuit breaker that the government announced. I will say though that I think as of yesterday, there may have been a State Government announcement by Minister Pakula. I did not actually hear it but I believe it did take place where he announced even further business grants and opportunities for businesses, particularly related to those that had to throw away food or similar sorts of items based on the fact that Valentine's Day was at the time of the lockdown. Again, I would draw

your attention perhaps to the businesses, if they could contact the Economic Development Office here at Council, we can give them some guidance of where to look but essentially, the other place to look would be the COVID business section of the State Government and the websites.

# Comment Cr Richard Lim

I would like to thank the Department of Planning, especially Mr Jody Bosman and his staff for taking prompt action. A few weeks ago, a gentleman contacted me for help. He was very, very distressed and very depressed because he said to me that if the building permit is not approved by 17 February 2021, he will not be able to get his loan from the bank. I gave him the contact details of the planning department and the department helped him very, very quickly. He sent me a message to pass on his thanks to Mr Bosman and his staff. He is also looking forward to seeing a cleaner and a more beautiful Springvale.

I also want to thank Mr Jody Bosman again for the advice regarding noise complaints I received from residents of other Wards.

Regarding outdoor dining, thank you to Mr Paul Kearsley and also Mr Kevin Van Boxtel and their staff for helping me to rectify an issue with some shop owners. I am grateful that their visits helped solved the issues that I was facing. At the northern part of Buckingham Avenue, the parking spaces have been reinstated except for one business owner on the southern side. I am still talking with these business owners to remove the outdoor dining as soon as possible. Thank you for that.

# Comment Cr Bob Milkovic

I would like to start my report by saying that my daily shopping routine starts off usually on Brady Road and I am happy to report that thanks to Mr Kearsley and his department that Brady Road Shops parking, the one facing Shalimar Crescent is moving along very well. I know it was programmed to be maintained by the end of the financial year. Some kerb and channelling has been done and it was pothole ridden so thank you very much. The residents thank you very much, especially our elderly residents who were having quite a lot of trouble accessing it from their cars. That is moving along fantastically so thank you very much Mr Kearsley and your department.

I would also like to say that I had a really positive meeting with Mr Van Boxtel, Daniel and Martin from the same department regarding the parking issues in Central Dandenong. I was notified and told about some great initiatives that the Council is planning for the introduction of parking sensors which will enable them to monitor the parking, adjust the parking requirements for local businesses and residents. I am very excited because I think in my opinion, that was one of the downfalls, one of the problems that we really faced in Dandenong. The systems proposed to be implemented in the near future are very exciting, something similar to Chadstone Shopping Centre signalisation. This would enable people not to drive around aimlessly looking for a parking spot but be able to find something at a glance, which I think will help the residents and in return will help the local businesses to be more inviting and provide more service. I am very happy about that.

# Question Cr Bob Milkovic

I have noticed that just about every single day driving through Dandenong, a particular part which does annoy me is Clow Street between Princes Highway and Robinson Street. I would like to ask the relevant officer if we can please, have parking officers patrol the clear ways and no standing zones particularly in the times where the traffic flows one way or the other because there are more and more selfish people. It is detrimental to everyone. People that come and visit our great city are put off by constant stops in traffic which are unnecessary and are caused by only a few cars. If we can please like I said, maybe just having increased patrols. That will be great.

## Response

# Jody Bosman, Director City Planning, Design and Amenity

Yes.

## Question Cr Bob Milkovic

In Dandenong North, relating to Councillor Memeti's issue with the tents in Dandenong Park, we do not have issues with people that have fallen on hard times and become homeless in Dandenong North. However, in our big Tirhatuan Park we have a constant issue with rubbish being left strewn after long weekends and hot days. The question that I had asked by a couple of residents to the relevant officer, is it possible to organise some sort of extra dump bins - 240 litre bins maybe on long weekends as a one-off? Many residents are of an opinion that rubbish is left next to the rubbish bins. The birds come arrive even if rubbish is packed in bags and strewn all over the place. The wind throws the bags in the creek or on the trees. It literally looks like a tip site. If we could investigate extra bins or rubbish collection at the park for park visitors to deposit their rubbish.

#### Response

# Paul Kearsley, Director Business, Engineering and Major Projects

We have had many discussions on this one and I do know it is an issue. Unfortunately it is human nature. It would be great if people did the right thing and put the rubbish in the bin. I have asked the waste section to have a look at this problem. It is not a problem we are facing in many of our other parks. There is a traditional response that perhaps putting more bins out there does not necessarily solve the problem although I accept that in this case it may do on particular weekends and when the weather is good, the park is great so many people go there for that reason. That is something if you can just give my team and myself perhaps till the end of the week to come back to you with some other options. We are looking at signage as well as some further monitoring, recognising though that it can be tricky to catch people in those situations because it is the accumulation of people doing it over the whole day rather than someone just coming in and dumping in one instance. We certainly are very much aware of it. We have on occasion, as you know gone up there on a Monday morning to simply quickly tidy up as best we can. We are looking at perhaps bringing forward or changing our cleansing service model so that we are there all the time or first thing Monday morning. Then again,

that does not stop people from dumping it. It just means we are picking it up. Again, it is a bit of a double-edged issue and we hope to have a better idea of how to deal with it more holistically and it could be that we add more bins in there.

#### Question

# Cr Bob Milkovic

A question to the relevant officer regarding the Hanna Street settlement that we had with the developer. Are we going to be able to obtain some sort of a statement that we can convey to the public? A uniform response to advise the residents on the details of what has happened.

#### Response

## Jody Bosman, Director City Planning, Design and Amenity

Yes certainly. I think it is quite simple. The answer that I have given in the last week or so is that we are in the final stages of negotiation with the developer and hopefully in a position to publicise the outcome of that negotiation fairly soon. The negotiations between ourselves and the developer have taken place in good faith. I think they have been quite advanced and I hope to be able to put it out into the public domain in the course of the next few days the outcomes of those negotiations.

#### Question

#### Cr Bob Milkovic

A couple of weeks ago I believe I have seen in a Councillor Briefing Session a letter I believe was from Manningham City Council regarding Council buying an RSL. It was directed to Mr Bennie and they were sort of not proposing the deal but they were introducing us to the fact. Has Dandenong City Council done anything with that letter? Has there been any sort of movement on that or it was just purely for information sake?

#### Response

# John Bennie PSM, Chief Executive Officer

As far as I was aware it was for information. It certainly was Manningham City Council. It related to Templestowe RSL, which I think we indicated at the time from my recollection and understanding that that RSL did not have any gaming machines. It was not as though the Council was buying them out of any operation but of course, that meant that by acquiring the property, it could not have future gaming machines. I think in the context of it being one element of a suite of solutions that Local Governments might look at in terms of dealing with the number of gaming machines, it was a useful case study to look at but as far as I am aware, this Council has not at this stage decided to take that matter further but it could be something that you talk about at some future time.

# Question

### Cr Tim Dark

My first question this evening has to do with a phone call I received from St Vincent's de Paul or St Vinnie's branch in Dandenong North which is affiliated with the St Gerard's church at Gladstone Road. I believe they have had some correspondence and meetings with the Mayor.

I want to ascertain what the meeting was about. I believe they were also looking at the rolling out of soup vans and additional support that Council can provide them and how we are also going with that and what the next follow up is?

#### Response

### Martin Fidler, Director Community Services

Yes, they contacted us about accommodation and I believe our facilities team have provided information about Council facilities that are available for hire. They also contacted us about the emergency food program during COVID-19 and people they are feeding. We have had conversations about bringing them into the Material Aid Program. I think those conversations are ongoing but it would be very positive if they joined the other 14 agencies that are involved in that emergency food and Material Aid Program. That is where we are kind of up to at this stage.

#### Cr Loi Truong left the Chamber at 8.40pm.

# **Question** Cr Tim Dark

I received correspondence from residents of Bergen Street, Keysborough. They back onto Chandler Road where we have completed recent upgrades. They have said to me there has been quite a lot of noise coming out of a steel factory there that manufactures some quite large steel; some yelling and banging going on until quite late in the night. There is also I believe another factory with vibrations coming from some air conditioning or cooling units. Apparently, it has been increasing quite steadily over the last few months and it is getting to the point where I have had a few residents call me. Can Council investigate? I will forward the complainants to the relevant director.

#### Response

### Jody Bosman, Director City Planning, Design and Amenity

If Cr Dark could provide me the particulars, we will certainly follow that up and see if there is any way we can help in this situation.

# Question Cr Tim Dark

My next question has to do with the intersection of Cheltenham and Chapel Road. I know there were some conversations on the Keysborough noticeboard about it. It is something that I have raised in the past and I am aware it is a VicRoads designated intersection, a VicRoads road and this Council has always had the best of luck dealing with the now Department of Transport (DoT). Can Council write another letter trying to push again for review of the traffic lights and the walking limits. It was raised at the Parkland Retirement Village residents meeting that they are finding it very difficult to be able to cross the road in one go and often there are people being stuck with their walkers in the middle of Cheltenham Road waiting for the next set of lights and that has become quite a hazard. I know as

well that the residents of the new Keysborough estates have raised the issues trying to get through the lights in one go as well. If we could just write another letter just to advocate a bit more heavily on that.

#### Response

### Paul Kearsley, Director Business, Engineering and Major Projects

Yes, we can certainly do that. I think the last piece of information we had which I can confirm is that we were waiting on DoT to undertake some further traffic assessments in terms of surveys and volumes. During 2020 they were not doing any of that because of COVID-19 but I will go back to the team and see if we can confirm that. If that is the case, I will come back to you first before we prepare a further letter.

### Question

#### **Cr Tim Dark**

The next question from the same residents is at the intersection there have been the installation of quite a few cameras, also at Perry Road and Cheltenham Road, Cheltenham and Chapel and looks like a simple CCTV camera. Are they Council or VicRoads cameras as they have been popping up on quite a few intersections of late?

#### Response

# Paul Kearsley, Director Business, Engineering and Major Projects

We can get that checked. I did hear last year that VicRoads and DoT were installing some further measures to do some traffic counts and things of that nature. It might be related to that. We will ask and see if we can get some further clarification on that.

### Question Cr Tim Dark

My next question is to do with the Keysborough Football Club and the Keysborough Junior Football Club and Netball Club to do with the Rowley Allan Reserve. I am aware that there was a meeting with the Sports and Recreation team about the Pavilion and there were drawings which were provided in detail. There was a conversation that Council would get back to them and from that, there was no further conversation that has taken place. The club has reached out to me on the weekend saying that they did not know what was going on, where the Pavilion is up to given that they are heading towards their football season with a Pavilion that is significantly small for what they need and they just want to chase up with me if:

- (1) we can get an update on it; and
- (2) if we can also organise a meeting with the clubs.

#### Response

# Martin Fidler, Director Community Services

I will take that question on notice.

# Question Cr Tim Dark

The Parkglen Retirement Village and the Keysborough Senior Citizens Centre there has been faced with some issues in recent times including the fact I believe, that the executive of the Keysborough Senior Citizens Club is pretty much no more and that they are going to hand back the club to Council. I believe there is an AGM coming up shortly and there have been quite advanced conversations with Council. I was unaware that that was the case given that I know it is very well attended. I just wanted to get an update on what exactly has happened, what we are planning on doing and where we go from here, particularly given it is a vital community structure of the neighbourhood.

### Response

### Martin Fidler, Director Community Services

I believe we were approached by the club that said their members were significantly aging and they did not feel like they could take on those responsibilities anymore. Our officers will take on those responsibilities and help that club to continue. It will keep going. It is just that we are providing that kind of support and assistance.

## Question Cr Tim Dark

Are Council providing temporary assistance to provide the positions that would have been on the board or are we stepping in and basically taking back control with the intention of it being a Council run facility?

## Response

### Martin Fidler, Director Community Services

Yes, at this stage, the committee is saying they do not have anyone to step into that role of committee. That Is the function that we are providing for them. If that changes in the future, we are very happy to have that discussion with members but at this stage, that is the request that we received from them.

## **Question**

#### **Cr Tim Dark**

On the weekend I had a conversation with Mrs Sampey who was formerly a councillor on this Council and she raised with me a couple of questions she wanted me to raise tonight. The first was with regards to the bathroom improvements at the Jan Wilson Community Centre. I believe Council was undertaking some improvements of that. I wanted an update on that because I believe the Jan Wilson Centre has not been open during that time.

#### Response

#### Paul Kearsley, Director Business, Engineering and Major Projects

Yes, late last year there were some removal of old toilets and old basins putting in new facilities to upgrade that centre. I will have to take the question on notice as I believe it would have been finished in the last couple of months but I will double-check.

# **Question Cr Tim Dark**

My final question which was another one from Mrs Sampey has to do with the Joan B Sheen Reserve which is located just behind Harrisfield Primary School on Princes Highway and Bowmore Road. There are many people particularly grandparents who are going to pick up their kids after school is finished. The reserve is at the back of where the school is and there have been many parents accumulating there lining up to see their kids. There has been a request of whether there is potential to have some additional seating installed so that when the people come to collect their children, they are able sit down and wait. In addition to that, there has been a request for some water taps so the kids have somewhere to drink after school while they are going around the playground.

#### Response

# Paul Kearsley, Director Business, Engineering and Major Projects

We can investigate that. The water fountains tend to be a bit harder because of course, we need the appropriate water available to do that but we can certainly see whether or not it is possible.

#### Cr Loi Truong returned to the Chamber at 8.45pm.

#### **Comment**

### Cr Angela Long, Mayor

On Tuesday 9 February 2021, I had an Emergency Management Forum online and on the same night a Road Safety South East meeting also online.

On Wednesday 10 February 2021, the City of Greater Dandenong COVID Business Recovery Task Force inaugural meeting online and also the Community Safety Advisory Committee on that same day online.

On Thursday 11 February 2021, I attended the UBUNTU African Australian Mothers Project launch down in Springvale.

On Thursday 18 February 2021, I attended the online meeting of Fire Rescue Victoria meeting to discuss fire seasons risks and fire safety strategies in the City of Greater Dandenong.

# ORDINARY COUNCIL MEETING - MINUTES

# 6 REPORTS FROM COUNCILLORS/DELEGATES AND COUNCILLORS' QUESTIONS (Cont.)

On Friday 19 February 2021, I joined an online meeting for the First Nations Community Space Feasibility Study.

John Bennie PSM, Chief Executive Officer tabled a listing of responses to questions taken on notice/requiring further action at the previous Council meeting. A copy of the responses is provided as an attachment.

COUNCILLOR QUESTIONS TAKEN ON NOTICE/REQUIRING FURTHER ACTION

Summary of Response	Initial response provided 25/01/21: That letter will be written.	Further response provided 8/02/21: Letter in progress Further response provided 16/02/21: Letter sent 11/02/21  COMPLETED	Response provided 8/02/21: In progress. FURTHER ACTION REQUIRED	1/8

Subject & Summary of Question	Letter from Mayor regarding Biloela family detained on Christmas Island since August 2019	I also note that the Multicultural and People Seeking Asylum Advisory Committee met in December last year and I guess in line with their values and consistent with their values, I raised some concerns about the treatment of the Biloela family that has been in detention on Christmas Island since August 2019. I ask Madam Mayor, if Council could perhaps write a letter to the relevant Federal Minister expressing concerns, particularly given that there are two young children that are living in detention on this facility. I can only imagine what that is doing to their mental health and their physical and mental	Letter to Minister Merlino and Minister Williams regarding upgrading of Rosewood Downs Primary School. During the holidays, living in close vicinity of Rosewood Downs Primary School and Trinatuan Park in Dandenong North, I have interactions with quite a few residents, neighbours, friends and family members. There seems to be a common question asked about the school. I know it is not a Council matter, but I would like to ask for a little bit of support and if we can possibly write a letter. The Rosewood Downs Primary School has	Reports from Councillors/Delegates & Councillors' Questions - Questions Taken on Notice

Subject & Summary of Question	been on the same grounds for 40 years and except for a sports hall that was built about 10 years ago, the school is pretty much in its original condition. They have added on a few rooms here and there, renovated, but it is mismatched at the best of times and it is not really a 21st century facility for our kids and residents and I think they deserve better. What I would like to ask with the Mayor's permission is that the Council writes a letter to the Honourable James Merlino, Minister for Education; and to our local member, the Honourable Gabrielle Williams MP, Minister for Women and for Aboriginal Affairs, asking for support and for our State Government to maybe look into redeveloping, basically rebuilding a new school on the Rosewood Downs grounds. We could possibly even seek the cooperation of Council, specifically Mr Fidler's department, in incorporating Rosewood Kindergarten within the school grounds. I think that will be highly beneficial as the current facilities have reached the end of their useful life with repairs and patch-ups on the go for so long. I am not sure how it is going to work in practice but I would like to ask for that letter to be drafted if possible seeking support and maybe consideration towards the local residents there.  This question was noted for further action. 		Springvale Scouts.  Last weekend, I attended the Queen's Scout Awards for the 2 <sup>nd</sup> Springvale Scouts which was held at the Pearcedale Football Club with the Mayor, Cr Garad and the newly elected Cr Mercurio AM, from the Mornington Peninsula Shire. This was a really good event to attend. It was held at Jayden's Memorial Bench in Pearcedale, named after the late brother of the recipient of the Queen's Scout Award who tragically died last year under New Tragically died last year under New Tragic Circumstances. It was good to			Further response provided 14/01/21: Letter sent 12/01/21
		attend and celebrate with friends and family and to witness how the community turned out and rallied around it. I wish to congratulate Tahlia Morgan on her acknowledgement and winning of the Queen's Scout Award which is the highest award that you can win in Scouts. I think it was a very well achieved result. If we could write a letter to congratulate her, that would be greatly appreciated.			COMPLETED
8/02/21 CQT3	Cr Bob Milkovic	Ave/Blackmore St, Dandenong North. I have received a couple of calls from local residents that are bordering Maddison Avenue and Blackmore Street in Dandenong North. I am not sure what the reserve is called but it is an unfenced reserve. Apparently, a resident is allowing their Pit Bull Terrier roam around the reserve on a number of occasions. The kids are a little bit scared and parents are a little bit scared and parents are a little bit scared and parents are a little bit scared sort and scary looking. The residents have asked	Director City Planning, Design and Amenity	19/02/21	Initial response provided 8/02/21:  I will bring this to the attention of the relevant manager and the team leader of animal management and have a look at increasing our patrols in the park in the short term. More patrols can be rostered into the area. I doubt very much that it is a Pit Bull because that is a prohibited breed. Whatever the case may be, we will increase our rangers in the area and I will provide some feedback once we have had those increased patrols for a while.
Reports from	m Councillors/Delega	Reports from Councillors/Delegates & Councillors' Questions - Questions Taken on Notice	Votice		3/8

Summary of Response	Further response provided 19/02/21: Council officers have rostered increased patrols in this area and this will be monitored over the upcoming weeks and further information will be provided back after this period.  COMPLETED	With regards to the first item of additional toilets, we will be bringing back to Council in the coming months what is currently a draft Toilet Strategy which has identified proposed locations for new facilities throughout the municipality that we investigate. That will inform the Councillors to where the likelihood of a new toilet facility in Springvale may be. I do however, believe that it probably will not be a high priority based on the need to provide toilet facilities elsewhere, especially considering that there is an existing toilet within the car park.  With regards to the second matter, it is not something that we would usually get involved in with regards to informing private owners of properties on how to treat their toilet	4 / 8

Subject & Summary of Question	if there is any way that we can either put up some signs or other restrictions. If I can ask the relevant officer on how we can control this situation better because there are many kids in the area and being two to five years old, they would be quite scared of the large breed dogs. I am not saying the dog is vicious but it does look quite scared of the large breed dogs. I am not saying the dog is vicious but it does look quite scared. Residents and parents especially mums if they are there by themselves are quite concerned and scared. If we can maybe find out how we can either stop that or provide some sort of fencing area or something like that, that would be appreciated.	Public Toilet provision & condition of toilets within Springvale Shopping area.  I had six questions to ask but five questions have been answered by Mr Bosman already. The last question is, over the last 30 years, visitors to the Springvale Shopping Centre tend to complain about Springvale's lack of public toilets. Is there any way that we can add more public toilets for the Springvale Shopping Centre?  Regarding private toilets in the arcades and shopping centre, they are very smelly, dirty and unhygienic. Would it be possible for Council officers to attend an Annual General Meeting of the Body Corporate as part of educating business owners on these issues in my electorate, them know the benefits of maintaining clean toilets so more visitors will continue to visit Springvale? Summary of Response	facilities. I am not sure whether there is anything under the health requirements. I doubt that. What we can probably do is make contact with the property owners or the shopping centre owners if you have their details and we could get our cleansing manager to maybe send some information to them and see whether or not that will assist them to undertake improved cleaning of their own toilet facilities.	12/02/21:	The following summary update on the Draft Public Toilet Strategy should help to answer your question regarding public toilets within the Springvale Activity Centre.	• Feedback from the community consultation on the Draft Public Toilet Strategy is currently being reviewed. (No requests were received for new public toilets in the Springvale Activity Centre).	• The Draft Public Toilet Strategy indicated a fair distribution of public toilet facilities throughout the Springvale Activity Centre. This includes a mix of both Council and privately-owned public toilet facilities.	5/8

Subject & Summary of Question	Comment Cr Richard Lim If we can unite and educate them, I think that will be very helpful. I do not understand the Springvale Centre Management Committee. The authorities and the Body Corporate complain to each other about the unhappy visitors. If this place continues to be dirty and unhygienic, not many people will visit Springvale. I believe that we can do something by educating the business owners in Springvale.					Reports from Councillors/Delegates & Councillors' Questions – Questions Taken on Notice
