

## Nocturnal scene

The tiny Microbat sleeps under the rough tree bark while it waits for night to fall.

As the sun begins to set, the Grey Headed Flying Fox leaves her home in search of sweet flowers and juicy fruit.

She arrives at a eucalypt forest, where a Ringtail Possum is building her nest, and a Brush Tailed Possum is filling up on crunchy leaves.

Down below, an Echidna takes a bath in the river, and watches as the Rakali hunts for a delicious fish in the quiet creek.

## About the Artist

Local Aboriginal artist, Ian Harrison of Dandenong hand drew these pages.
