1. POLICY OBJECTIVE (OR PURPOSE)

Council will have a clear set of guidelines for the establishment and maintenance of cricket wicket facilities within the City of Greater Dandenong including both Council and sporting club roles. The purpose of the policy is to:

- Provide appropriate facilities for players to play and practice cricket.
- Encourage the development of female and junior participation as a development pathway.
- Provide facilities which support pathways for local cricketers to achieve State and National cricket team selection.
- Ensure that sporting facility developments provide inclusive, accessible opportunities for the broader community to participate in cricket.

2. BACKGROUND

To facilitate participation by the broader community, Council believes that players at different levels of cricket require facilities suitable to the level of competition played.

3. SCOPE

The policy relates to the provision of outdoor cricket facilities on Council owned/managed land.

4. DEFINITIONS

Community Level: Community level refers to cricket played as part of any association/league, outside of premier level.

Premier Level: Premier level refers to cricket played as part of Victorian Premier Cricket.

Turf Table: A turf table consists of one or more turf cricket pitches/wickets. There is only one turf table per ground.

5. POLICY

Council caters for two levels of turf cricket within the city, being Premier-level and Community-level.

Each level requires facilities and turf table preparation of varying standards.

Council will:

- Provide seasonal allocation access to turf table facilities to cricket clubs based within the City of Greater Dandenong.
- Maintain all existing Council-owned centre wickets/tables to the acceptable standard required by the competition in which the club participates.
- Purchase turf table covers for Premier level turf wicket grounds.
- Manage the covering of wickets for Premier levels of cricket only, in order to comply with the quality standards for those levels of competition and maximise the available playing time despite prevailing weather conditions. Wickets will be covered in accordance with relevant competition guidelines.
- Levy an appropriate annual fee in line with the current Fees and Charges Policy for use of these facilities.

- Encourage clubs to assist Council in the maintenance of these facilities in cooperation with the local ground curator.

Premier-level cricket clubs will be responsible for managing turf wicket covers on match day, upon hand-over of the ground by Council's curator to the club.

Community Cricket Clubs will:

- Manage their own turf wicket covers in accordance with Council directives.
- Purchase their own turf wicket covers.
- Remove wicket covers from turf tables as directed by Council, in order for ground staff to maintain and prepare wickets.
- Remove and securely store turf wicket covers off the ground when not in use.

5.1 ALLOCATION OF TURF TABLES

Turf tables will only be provided to clubs where they meet the following criteria:

- It is a requirement of their affiliated competition.
- Applications are supported by a written submission by the relevant local authority or association, detailing those requirements.
- Clubs at the community level must demonstrate a development pathway to turf cricket including junior and female programs and/or competition sides playing at a lower level on non-turf wicket playing surfaces.
- No turf table allocation for turf Grade E or 5+, Masters or equivalent level of cricket. They are to play on synthetic cricket wickets.
- Council will not support the development of any additional turf table facilities at existing sporting grounds within the city.
- Only existing clubs, as of the 2022/2023 summer season, will be allocated turf wickets will continue to be allocated, with no new clubs accepted.
- Should an existing turf table become available due to a club no longer requiring it, Council may convert this to a synthetic cricket wicket.
- As a general principle, each turf wicket will be allocated dependent on the level of cricket as follows:
 - Premier level:
 - Two (2) turf tables per club, per gender, with a maximum of four (4) male and four (4) female turf teams.
 - The number of weeknight (night cricket) and Sunday matches are to be negotiated annually with Council.
 - All T-20 matches, and special events are to be considered as casual bookings, subject to turf quality and staffing availability.
 - Community level:
 - One (1) turf wicket per club, with a maximum of two (2) male and one (1) female teams. *Note: the female team cannot be converted to a third male team if a club does not have a female team.*
 - The number of Sunday matches are to be negotiated annually with Council.
 - All T-20 matches and special events are to be considered as casual bookings, subject to turf quality and staffing availability.
 - Sub-District is considered as part of the Community level, however, will be permitted, as per the requirements of the association:
 - Two (2) turf tables per club, with a maximum of four (4) male and two (2) female teams. *Note: the female teams cannot be converted to additional male teams if a club does not have female teams.*

- The number of Sunday matches are to be negotiated annually with Council.
- All T-20 matches, and special events are to be considered as casual bookings, subject to turf quality and staffing availability.

5.2 TURF – PRACTICE WICKETS

Given the high establishment and ongoing maintenance costs of turf practice wickets, turf wicket practice facilities will only be provided at the existing two locations at Noble Park Reserve and Dandenong Park (Shepley Oval).

Seasonal allocation to these facilities will be provided to clubs as per the existing arrangements.

Council will:

- Continue to maintain all existing seasonally allocated Council-owned turf practice facilities within the city to the standard required by the competition in which the club plays.
- Prepare turf practice tables for training in accordance with the seasonal allocation of two nights per week, which can be averaged across the cricket season to accommodate ad hoc training sessions where cricket pathway development sessions can be demonstrated.
- Levy an appropriate annual fee in line with the Fees and Charges Policy for use of these facilities.
- Encourage clubs to assist Council in the maintenance of these facilities in collaboration with the local ground curator.

5.3 SYNTHETIC – CENTRE AND PRACTICE WICKETS

Council recognises the importance placed on the need for access to quality synthetic cricket facilities, given the large number of junior and senior cricketers that use these facilities on a weekly basis. Council also acknowledges that the core of the community level competition is played on synthetic wickets.

Council will:

- Be responsible for repairs and maintenance to all existing synthetic cricket wickets.
- Fund the renewal of synthetic wickets assessed as being beyond their serviceable condition.
- Assist with the covering and un-covering of wickets after the conclusion of the cricket season and prior to the commencement of the new cricket season, to allow the grounds to be used for winter sports.
- Levy an appropriate annual fee in line with the Fees and Charges Policy for use of these facilities.
- Fund the cost of renewal for concrete cricket wickets that are no longer fit for purpose.
- Allocate cricket practice facilities equitably considerate of meeting the needs of all clubs.

Clubs will be responsible for:

- Funding the replacement of synthetic surface should they elect to change the surface prior to it reaching the end of its serviceable condition.
- Funding any additional cost as a result of selecting an alternate surface to that currently provided.

The capital replacement of synthetic centre and practice wickets will be conducted as part of Councils' Capital Improvement Program subject to budget and Council approval. Council will provide a maximum of three synthetic practice wicket lanes per reserve for Community level cricket.

6. RESPONSE TO THE OVERARCHING GOVERNANCE PRINCIPLES OF THE LOCAL GOVERNMENT ACT 2020

Section 9 of the *Local Government Act 2020* states that a Council must in the performance of its role give effect to the overarching governance principles. These are:

- seeking the best outcomes for the municipal community, including future generations (S. 9b). In particular, the policy seeks to ensure that all residents are accorded respect, and that considerations of their needs, preference and circumstances influences the development of Council services.
- collaboration with other councils and governments and statutory bodies (S. 9f). This policy is based in part, upon an inspection of similar policies and plans among other councils.
- the ongoing financial viability of the Council is to be ensured. This policy sets clear parameters around Councils' responsibilities to ensure that the provision of facilities is financially viable.
- supporting transparency of council decisions, actions and information (S. 9h and S. 58). Transparency is reflected in the preparation and content of this policy, which has been formed after consultation with the community, written in plain English to improve its accessibility, and will be disseminated to residents through appropriate media and means.

7. CHARTER OF HUMAN RIGHTS AND RESPONSIBILITIES ACT 2006 – COMPATIBILITY STATEMENT

The *Victorian Charter of Human Rights and Responsibilities Act 2006* has been considered in relation to whether any human rights under the Charter are restricted or contrived by the enactment of any part of this policy.

It is considered that the policy is consistent with the rights outlined in the Charter, and in particular, that it advances the following rights, through its emphasis upon respect and consideration of social diversity in all aspects of Council conduct and in its consideration of engagement, inclusion and participation by all residents in our community:

- Freedom of thought, conscience, religion and belief (S. 14)
- Freedom of expression (S. 15)
- Peaceful assembly and freedom of association (S. 16)
- Taking part in public life (S. 18)
- Cultural rights (S. 19).

8. RESPONSE TO THE GENDER EQUALITY ACT 2020

The *Gender Equality Act 2020* requires that Councils "...must consider and promote gender equality; and take necessary and proportionate action towards achieving gender equality."

In addition, Part One, Section 1(a) of the *Gender Equality Act 2020* requires gender assessments when "...developing or revising any policy of, or program or service provided by, the entity that has a direct and significant impact upon the public" - a provision which takes effect on March 31, 2021.

A gender assessment has been completed and the policy addresses the *Gender Equality Act 2020* by including a proportionate action towards achieving gender equality. This action is by including the following:

- Equal provision for the number of teams per gender for premier-level turf competition.
- Introduction of a maximum of two male and one female team per club per turf table for community-level turf competition.

- Introduction of a new criteria for allocation of clubs at the community level for use of turf table that they must demonstrate a development pathway to turf cricket including junior and female programs and/or competition sides playing at a lower level on non-turf wicket playing surfaces.

As of the 2021/2022 summer turf cricket season, there were no female teams playing full-time on turf cricket wickets at the community level in the municipality. This policy encourages the development of female and junior (mixed) participation as a participation development pathway, which was not included in the previous policy.

Based on existing staff resources and to ensure quality provision, a turf table is able to sustain three teams, with periodic extra use for T20 (short format matches) or other activities to be negotiated with Council. Due to the number of turf tables available in the municipality, Council will be able to accommodate a maximum of seven female teams as part of this policy based on current cricket participation. As this policy will be reviewed in four years, Council will re-consider at this time, the allocation of facilities per gender based on participation demand.

9. CONSIDERATION OF CLIMATE CHANGE AND SUSTAINABILITY

This policy considers the impact of Council's Declaration on a Climate and Ecological Emergency, Council's Climate Change Emergency Strategy 2020-2030 and the requirements of the Local Government Act 2020 in relation to the overarching governance principle on climate change and sustainability.

Reliable access to water is critical to the playability of cricket grounds. Irrigation tanks are in place at most sports grounds which allows for water to be delivered to the ground, should the provision of water be restricted because of drought or similar.

Extreme heat and the impact this has on participants will be managed as per existing Cricket Victoria policies and processes.

10. RESPONSIBILITIES

Responsibility will rest with the Sport and Recreation Unit to inform cricket clubs about the content and meaning of this policy. This may entail promotions through the Council website, emails, and presentations. The Sport and Recreation Unit and the Parks Unit will be responsible for the implementation of the Council responsibilities contained within the policy.

The cricket clubs will be responsible for the implementation of the Club responsibilities contained within the Policy.

11. REPORTING, MONITORING AND REVIEW

The Sport and Recreation Unit will monitor the details and outcomes of this policy and report as required. The Parks Unit will monitor the condition of cricket infrastructure and implementation of this policy and report as required. A review is conducted by the Sport and Recreation Unit and Parks Unit at the end of each summer season.

The policy will be reviewed after four years and will consider the following:

- The participation trends of the community in cricket.
- The impact that the policy will have on Council staff.
- The cost to Council for the provision of cricket assets.

- Benchmarking against other municipalities.
